Larger Advertisements, as per agreement

this increase will depend entirely on the cs- cated. tablishment of a permanent policy and a low scale of tolls. Without these important features, the increase, by Canal, will be but trifling-there is no other inducement to transfer the trade from its present main channel, and without some such motive, no change can be expected. The expenses of the Canal for carrying a small tonnage is the same as for carrying a much larger quantity; it is, therefore, her obvious and only true policy, to secure as large a portion of the trade as possible.

Any agreement made with the Railroad Company, under existing circumstances, would not result in any benefit to the Canal.

low rates there.

Now let us look at the effects of such a policy:—The interest of \$6,000,000 would be \$360,000. The income on one million tons of Coal at an average toll of 40 cents per ton, would be \$400,000, paying 6 per cent. on the capital, and leaving a surplus of \$40,000 for improvements. &c. The current expenses of the Canal, cars and landings, last year, were \$135,944 03, which will be decreased as the business increases. The rayexpenses of the Canal, cars and landings, last year, were \$135,944 03, which will be decreased as the business increases. The revenue from miscellaneous trade and rents was \$290,441, showing a deficiency of only \$45,500. There is another important feature that suggests itself in connection with the management of the Company's affairs:—Let the Board delegate to the President and two or three active Directors the whole management of the business for the year—give them full authority to act promptly and efficiently.—Let these men confer frequently with the Coal Operators and prescribe the remedy for any evils, that may occur, at once, without having recourse to the tardy action of a Board of Managers, many of whom must necessarily know very little about the trade. We know the feelings of those engaged in the business, and it this plan and this policy be

SATURDAY, JANUARY '21, 1852.

BCHUYLKILL NAVIGATION CO.

We present the Report of this Company in full, in another column. The tonnage for 1851 exceeded that of any previous year by 164;580 rons. The largest amount shipped in any one year before, was in 1841, previous to the completion of the Raifroad. The Capital Stock of the Company is now upwards of \$10,000,000. We regret that their affairs are not in as prosperous a condition, as might be desirable. A committee, it will be observed, was appointed at a late meeting of the Managers, to consider the circumstances of their present embarrassed condition, and, if possible, suggest a proper temedy.

In our opinion, as we have frequently said before, there is but one plan for 1 he Company to adopt—a permanent policy unit low tolls. Otherwise, their work will be swallowed up completely, and they will lose all.**

The plan of policy, we would suggest, is simply this:—Reduce the Capital Stock and not of dollars—fix the tolls at an average of 40 cents a ton for five years ahead, pledging themselves that they will not exceed that amount, for that time. In two years from the promulgation of the rates, the Canal will carry one million tons of Coal to market; and the Way trade and rents of the Campany will increase sufficiently, in the same period, to defray all the current expenses of the Canal, cars and landings. But this increase will depend entirely on the extending the propose of the world seems to the company will increase sufficiently, in the same period, to defray all the current expenses of the Canal, cars and landings. But this increase will depend entirely on the extension of the demangage will have been proposed to the company will increase sufficiently, in the same period, to defray all the current ex

STEAM CAR FACTORY. THE subscribers beg leave to inform the public that in addition to their former STEAM ENGINE SHOPS and FOUNDRY, they have recently put up new Machinery and Shops for the manufacture of COAL CARS, TRUCKS and other Rail Road Cars, by Steam power, which enables, them to execute all that kind of work, not only much better, but with greater despatch and at the very lowest prices. Having thus made these extensive preparations, individuals, and companies requiring work of this kind, will find it to their advantage to give them a caft.

-Corn 65-Oats, 39 cts. per bushel. Among the Clerkships of the new Secretary of State, we observe the name f GARRET L. VLIET Esq., of this place.

STATE LEGISLATURE. Several petitions have been presented, during the week, respecting the division of the County and the charter of the Tamaqua

Bank. The bill authorising the Commissioners of Schuylkill county to borrow money, passed the lower house some days ago.

CONGRESS. Several resolutions have been introduced into the Senate, during the week, declarative of the principles of national non-intervention, and also announcing the determination of the United States Government to see this doctrine respected hereafter. They were. however, received informally and ordered to be printed—the members evidently wishing to avoid the discussion of the subject, as

much as possible. Several interesting communications, from he State Department, have been laid before the Senate-among them the correspondence of Mr. Rives, the American Minister at Paris, relative to the recent occurrences in

KOSSUTH'S MOVEMENTS. Kossuth left Harrisburg, on Saturday last. for the West. On account of the late snow storms, he only reached Pittsburg on Thursday. Great preparations had been made there for his reception-a large number of citizens met him at Wilkinsburg, 7 miles distant, to escort him into the city: At Holidaysburg, on the way, he was greeted enthusiastically by a large concourse of people. At Tuscaro- . ra, in the cars, he was introduced to Gov. Bigler. The meeting was cordial and highly gratifying to both parties.

FROM EUROPE.

By the arrival of the Arctic at New York on Wednesday, we have Liverpool dates to the 7th inst.

The leading topic of public interest in Great Britain was the late resignation of Lord Palmerston. Numerous causes are urged for the act, but the most accepted appears to be the unwarrantable interference of the Prime Minister with the duties of the

foreign office. The advices from France give the most marked assurances of universal tranquility

and satisfaction. A decree has been announced that the gold, silver, and copper coin shall bear in front the effigy of the President, with the words "Louis Napoleon Bonaparte." On the reverse will be engraved the words "Republique Francaise," and around the edge, "Dieu Protege la France." Several important changes and appointments had sident of the Senate has been offered to M. Troplong, and refused; it is supposed that

By a circular of the Minister of the Interior, American ships with cotton were allowed, after having touched at English ports. to enter free of duty. The scarcity of the raw material had rendered this necessary. The accounts from Paris describes the inaugural ceremony at the Cathedral of Notre Dame, on Thursday, 1st inst., to have been of a very imposing character. Immense numbers of persons assembled to witness the procession, by whom the President was enthusiastically greeted. The military were in great force, and extraordinary precautions

people, was the third brother of the French Napoleon, and born at Ajaccio, (Corsica,) on the 2d of September, 1778. His marriage with the daughter of Josephine was not his WILL be sold at Private Sale, the valuable Centre street property, in the Borough of Pottaville, situated on the North West corner of High and Centre streets. The Lot is 40 feet front on Centre by 200 feet deep, running to Bailroad street.—
On the premises, on Centre Street, are rected two Two-story Frame Dwelling Houses, well finished, and in excellent condition. There are also efected, on the rear of the Lot; EIGHT TENANT HOUSES. NOUSES. the rear of the Lot; EIGHT TENANT one of the conflicts of which was the battle said property is located in one of the best business portions of the Borough—is near the Public Buildings—has every convenience, and is unquestionably one of the most desirable properties in the Borough of Pottsville, either for private residences, or for carrying on any public business. a tour of several months in Germany. In October, 1801, Josephine, not at all discouraged by the two previous refusals to comply with her proposals, made a fresh assault upon Louis. One evening, during a DESIRABLE Property in POTTSVILLE ball at Maimaison, she took him aside, Na-

FOR SALE.
