

Miners' Journal

Saturday Morning, Jan. 31

THE PROPHECY

In another column we publish a singular prophecy, said to have been made in Austria 1847, by a woman, periodically subject to fits of mesmeric sleep, at which times, she seemed filled with the super-natural power of a second sight.

We are but little given to superstitious fancies, and seldom indulge our imagination beyond the limits of the world of matter-of-fact. We must confess, these Mesmeric ecstasies have sometimes staggered our unbelief, and we do not doubt, however unscientifically, that Hattie was right.

The communication, referred to, was a considerable time before many of the events predicted actually occurred, there is the reason to doubt, from the facts adduced, its authenticity; therefore, where we regard it as emanating from a clairvoyant, we do not share the opinions of those who believe in its truth.

ERIE CANAL

The work of enlargement on this canal, under the recent provision of the Legislature, is now commenced in good earnest. It is reported to enter the New York City Journal, it is supposed that the cost of the enlargement will fall within \$9,000,000. It will be completed in three years.

SOVIEHLAND HAVEN AFFAIRS

Local Legislature.—The citizens of Soviehlund have about forming a Local Legislature. They were to meet some time during the week to organize, elect officers, and make laws. It was a success, as well as a useful way of spending the winter evenings.

FROM EUROPE

The news from England, during the week, relates, principally, to the ministerial affairs of the Kingdom. Much unnamable feeling exists between the Premier, Lord John Russell, and Lord Palmerston, and the alienation seems to be daily increasing.

NEW PRODUCTION

A necessity is the mother of invention. In Massachusetts, the Journal of Commerce gives an account of a new cloth which recently drove the British Mills—those of the market—have produced. It is a Felt Cloth, printed in black and red, and dyed according to weight either as a floor-cloth or drapery. The threads of wool are not spun or woven, but drawn out and laid together, the whole mass being felted like a hat body.

NEW RAILROAD

The contract for building the direct railroad between West Chester and Philadelphia, was taken last week, with the exception of the mills. The contractors are all Eastern men. They are to take two hundred thousand dollars of the stock in the road, which will be three hundred thousand dollars already subscribed, constituting the major part of the capital required to make and equip the road.

Local Affairs

Presentation of Plate

TO MR. JOHNSON. INTERESTING CEREMONY.

A number of citizens of Silver Plate, in presentation to Mrs. Johnson, in token of appreciation of the services rendered to the State by her husband—Governor William F. Johnson, the ceremony of presentation took place at Philadelphia on Friday evening last. Mayor Gilpin, in presenting the Plate, accompanied it with the following address:

Gov. William F. Johnson.—Your friends have caused to be prepared a Service of Plate, and would have presented to you, had you been in the city. This day and this occasion have been set apart for the presentation of this service to you, and it is a privilege to be permitted to do so.

The plate is a beautiful one, and is a fitting memorial to the services of your husband to the State. It is a fitting memorial to the services of your husband to the State. It is a fitting memorial to the services of your husband to the State.

MINERS' WELFARE

To dry powder.—The Bulletin furnishes some interesting facts, and approved ways to use such powder, after scientific knowledge with a sharp stick.

LOCAL LEGISLATION

Local Legislature.—The citizens of Soviehlund have about forming a Local Legislature. They were to meet some time during the week to organize, elect officers, and make laws. It was a success, as well as a useful way of spending the winter evenings.
