Saturday Morning, Feb. 14.

WHIG STATE CONVENTION. A Whig State Convention will be held at Harrisburg, on the 25th of March, 1852, for the purpose of nominating a Canal Commissioner, forming an Electroral Ticket, and choosing Delegates to the National Convention. The Whigs of the various Countles of the Commonwealth are hereby notified to elect Delegates equal in number to their representatives in the gates equal in number to their representatives in the Senate and House of Representatives, to attend said Envention.
By order of the Whio State Central Committee.
NER MIDDLESWARTH, Freshdent.
CHARLES THOMPSON JONES, Secretary.

EDITOR'S TABLE.

MESSES. PARKE & BLUMENTHAL, Carlisle, are editing and publishing a monthly periodical, devoted to Masonry, Literature and Science. It is ins such a work as should be generally circulated-Masons will find in it much to interest them, in re lation to the history and usages of this most ancient Order, and it is, moreover, peculiarly and ably adapted to dissipate much of that malignant but ill-founded prejudice against Masonry, which those, who do not understand its true character. have, unfortunately, imbibed. Price, \$1,50 a year. Subscriptions received at Bannan's.

WE HAVE RECEIVED a copy of a lecture, by-M. Sanderson Esq., before the Mechanics Institute New York-it is quite long and we are obliged to defer its publication till we can find more room than at present, in our columns.

CONGRESSIONAL.

The resolution of sympathy for the Irish patriots, and the joint resolutions ou non-in- they choose mutually to agree. 3d. The im- has succeeded in obtaining more than others, there tervention, have elicited much interesting perative necessity of providing such securidiscussion, in the Senate, during the week. A number of able speeches have been made, nent establishment of these conditions as on both sides.

The advocates of non-intervention take strong ground in favor of a declaration, that the people of the United States, recognize the great principle of the law of nations, which secures to every nation the right to manage its own internal affairs in its own way, and to establish, alter or abolish its government at pleasure, without the interference of any other power; and that they have not seen, nor can they again see, without deep concern, the violation of this principle of national independence. They contend that the advice given the country in the Farewell Address of Washington-the main argument of the opposition-is no longer applicable, because our circumstances since then, and our relations and position in regard

to other nations, have entirely changed. In the House, on Tuesday, Mr. Welch, or Ohio, asked leave to offer a resolution, that the Committee of Ways and Means be instructed to report a bill modifying and altering the Tariff of 1846, by substituting, wherever practicable, specific for ad valorem duties, with such rates of duties as will yield a sufficient revenue, and with discriminations in favor of iron and other articles of domestic manufacture and production, and the labo of our own citizens against foreign compe-

question, asked for the yeas and nays, which Mr. Schneider, in a note in to-day's Journal, by yeas 60, nays 108. So the resolution was real name before the public; when, if he is lost. The following is the vote:-

YEAS-Messrs, Charles Allen, Allison, Appleton

[CORRESPONDENCE OF THE MINERS' JOURNAL.] PHILADELPHIA, January 31st, 1852.

DEAR SIR :- Your letter of enquiry in relation to continues, according to the latest advices, with but little prospect of settlement. A number of meetings have been held by the respective parties and each refuses to yield any point in the question at issue. The Amalgamated Society of Engineers and other operatives have a large amount of accumulation of accumulation of the settlement. A manufacture of the settlement of presents of giving such hints to an individual who has an idea of going thifter, and "such advice and reliable accounts as ought to enable him to make up his mind whether to go or not." Having myself passed a considerable time in different parts of California, particularly of the mines, where I had charge of a hospital for some months, the capital at command, to support those out I was enabled to winess not only the trials, the was enabled to witness not only the trials, the rivations and the disappointments, but the diseases o which miners are exposed. I was also Surgeon to a passenger ship from Panama to Sanfrancisco, and acted as medical officer on board the Steamer Oregon, with over three hundred returning Californians on my way home. You will perceive

therefore, that I have possessed means of arriving at tolerably accurate conclusions in relation to the A person, about journeying to California, has no ires. With care and prudence he may escape.

tolerably good health, it will be heavily taxed by the trials that now await him. If a correct account of the bills of mortality of the miners of Ca forma could be furnished, the statement would be rightful. Scurvey in its worst form, Billious, Remittent, Intermittent and Typhoid Fevers make sad havor there. That there is much gold in California no one can deny. But in the pursuit of it, there is a terrible sacrince of life and health, and I would abroad, which produce such a terment in the public mind; but where one is successful in obtaining a thousand or fifteen hundred dollars, after months of gregations also intenting a successful in the saverest toll it is a faithful. the severest toil, it is possible to imagine twenty die, or leave with ruined health and empty purses, and are fortunate if they can engage as hands on board the Steamers. There are thousands in California anxious to leave without the ability to do so. The gentleman who accompanied and re-turned with me. a healthy and robust man, accustomed to fatigue and a country life, worked in the mines, obtained about one hundred and fifty dollars, and was taken sick. He apparently recovered, but died in two or three months after his return, the seeds of disease being sown at the mines, where

the most uncertain and precarrous gold mines of Palitornia.
