Merchants, Salem :--Gentlemen-For some years past 1 have adopted in my family, as a purgative, Dr. Wright's Indian Vege-table Fills (for whom you are his agents in Salem) and have formd that medicine of great worth. Last November we were visited by a kind of inflam-matory fever, (the same I presume which greatly at-flicted our neighbors, the Brazilians, for nearly a year) the symptoms of which had an analogy to the yellow fever, and nearly three hundred persons fell victins to the epidemic (a great number for a population as small as ours.) Our doctors named it the true yealow fever, but their skill was inefficient to stop its progress, cou-fning their mode of treatment to the use of quinne, and the application of therebes, furbidding the use of purgatives, and of course all the soldiers and sallors, who were obliged to be sout to the Hoopitals, as also the Governor, several Magistrates, several officers, and in fact all times who were really afficied with the disease, fell victims under their mode of treatment. HEAVE
