They urge the identical argu- there is a time and place for everything. ments in its advocacy that the Protectionists make use of in favor of a change in the preswe can afford to grant appropriations indiscriminately, wherever they are asked, therefore, let us be choice in the selection of national favorities. We hope the friends of

We were much pleased with the ground assumed by Mr. Wade, in a discussion on this subject in the Senate, some days ago. -

"He demed that these vessels were adapted for war purposed or could be used in naval warfare - Missouri-the iron of Tennessee-the cotton He was not skilled in naval architecture, but he thought it evident even to the most unpractised eye, that the vessels could not be used for war purposes. that the reserves could not be used for war purposes. As single estimated for the rice of the class would destroy her speed and render her unmanageable. She would be crippled as much as a single shot upon the wing would a wild goose—[Laughter.] They were not intended for war purposes. Their furniture showed they were nover untended for rude war. Their imagnificant mirrors and costly furniture were far more suitable for the palace of a Prince, or an Eastern Seragio [laughter.] than for the uses of war. He had heard of an elephant in a Chap-shop and he could junging the country is a contract of the negroes—sugar-mills for the planter—bread for the manufacturers—oil and lard for all countries. Such a picture of extended business intercommunication probably could not be presented by any other country in the world; and it shows her in a Chap-shop and he could junging the country is a contract of the negroes—sugar-mills for the planter—bread for the manufacturers—oil and lard for all countries. Such a picture of extended business intercommunication probably could not be presented by any other country in the world; and it shows her world in a Chap-shop and he could junging the countries of the negroes—sugar-mills for the planter—bread for the manufacturers—oil and lard for all countries. Such a picture of extended business intercommunication probably could not be presented by any other country in the world; and it shows her world in the probable pale of the negroes—sugar-mills for the planter—bread for the manufacturers—oil and lard for all countries. Such a picture of extended business intercommunication probably could not be presented by any other country in the world; and it is not a picture of extended business intercommunication probably and the could be could and the could be could ball entering one of the saloons of there vessels. - | which it seems to be the object and ambition | He denied that they were ever intended or designed for any other purpose than provide the rich men, who could afford to travel with luxuriant accommodations He was opposed to taking the money placed in the Treasury by the hard labor of the working classes, and applying it to support any such concern as this. He scouled the idea of a war with England as long as the policy of free-trade i with England as long as the policy of free-trade is kept up, whereby England can enrich herself at our expense. England wont go to war as long as she can enjoy the profits and benefits resulting to her from our free-trade policy. You could not kick her into war. Why should shego to war when she can accomplish all she desires by giving dimers to your Walkers and other free-trade Americans. The great navigation interests on the seasons. The great navigation interests on the seasons when the seasons were dead and were larger to the strength of the strength of the seasons when the seasons were dead and were larger to the strength of the seasons when the seasons were dead and were larger to the strength of the seasons when the seasons were dead and were the seasons when the seasons were dead to the seasons when the seasons were seasons when the seasons were seasons when the seasons were dead to the seasons when the seasons were seasons which is the seasons when the seasons were seasons where seasons were seasons where the seasons were seasons where se board had always been amply protected, and wer the interests of commerce on the Atlantic, until ne design was manifested to aid the commerce some design was manifested to nid the commerce of the West Inland commerce now was equal to the foreign. He called upon Western members to take the same stand. When this was done, he would be liberal. Nothing had been done for the West for sixteen years. Everything desired at the East for the advantage of commerce, was freely given. Docks and navy-varils, dry-docks and mainer railways were established on the Atlantic and Pacific coasts, but not a dollar was given for the benefit of inland commerce. All kinds of enterprise for foreign commerce were readly given expense for foreign commerce were readly given expense to foreign commerce were readly given expense for foreign commerce and the formed and staken by the friends of the deceased, tied up, shot, and scalped—his wile's hair was cout off; his house burned, containing all his property, and all his animals killed. This is the law among these Indians, regulating and foreign for the deceased, tied up, shot, and scalped—his wile's hair was cout off; his house burned, containing all his property, and all his animals killed.
