COAL IN STEAMERS. Next week we will publish at length the Report of the Secretary of the Navy showing the relative value of the use of Anthracite and Bituminous Coal in our National Steamers. It is an important public document. Bishop Doane has been unanimously

The deceased had formerly been a resident f this place for several years, and by his won for himself the universal respect of the community—his more intimate friends seembrother. In 1849, he was appointed Consul to Portugal. His health had been very feeble for some time previous, but it was hoped his foreign\residence might benefit it.
