Now, in all candor and fairness, we ask the people of this Region and of the State. on Monday: does such a party deserve your support ?-They have deceived you-openly and shamefully deceived you. Last Fall, they made! you the fairest promises to secure your votes -that done, they refuse you even the slightest show of that for which your suffrages were given. Herenster let rule and ruin, in Locofoco hands, be understood as synonymous terms. So long as they hold the balance of power in our Legislative halls, the influence of British gold and the spoils of office will outweigh every consideration for the prosperity of the country. Such men, notwithstanding all their former protestations of devotion to the good of the "dear people," are hardly settled in their official seats, before they become oblivious of their ledges to those who elected them, turn a deaf ear to the petitions of right and justice, and are ready to deal a death-blow to the struggling enterprises of the manufacturer, to crush the laborer to the very earth and to strip the last vestige of governmental pro-2 500 tection from every industrial pursuit. But the day of retribution is at hand. The people are beginning to distinguish between their real friends and those who only profess to be. Let the returns of the next Fall's elections show that the much-needed reform is al-

ready begun, and that the sine of political tricksters are and must-ever be visited upon their own heads, in their everlasting disgrace, in the eyes of an honest people. By way of a clincher, on this subject, we append the resolutions of the Locofocos of this County, in Mass meeting assembled at the Court House, on the 8th of December last. They are as follows: they may serve to refresh the memory of the people and show the difference between the professions and the practice of the party: Resolved. That so long as it is deemed expedien

to raise Revenue for the support of Government by duties upon importations, the Constitutional limit for such duties is to fix them at the revenue standard; but that in recognising such standard it is consistent with it to make such discriminations ble incidental protection and that it is the duty of Government to make such discriminations. Government to make such discriminations.

Risolive, That the great falling off in the production of Iron in the United States within the past few years, and the great increase of the imported article where our own country possesses in unequalled abundance, side by side, all the raw materials necessary for its production, shows that branch of industry to be in such a depressed condition, that if not relieved, both the Government and the people must be dependent upon foreign countries for the supply of this great necessary of a defensive Government and civilized life, while heavy drains must be made ungestale coin of the country to pay

PLAIN TALK FOR A LOCO. There is no mistake that the extraordinary with the ceremonies on the Monument hill, appropriations of the people's money since Wm. Bigler has become governor of this State, is awakening even some of the Locofocos to the danger of an overwhelming debt which is threatening us. The last Berks County Press, an organ of that party in Old Berks, "speaks out in meeting" after this ashion:

> ANOTHER STEP TO THE REAR. The Appropriation bill of the last session of our State Legislature is one of the most voluminous documents of its kind on record It is beyond all precedent, the most extraordinary which has ever been conjured up as

The selection of Wisvield Scott for President, and William A. Granam for Vice-President, has graiffed our ardent wishes and strengthened our earnest hopes. Our conviction has long been fixed that Gen. Scott is the very man fitted and marked out by his heroic achievements—his inestimable services, at critical periods, in preserving our National tranquility and preventing the effusion of blood—by his including the register of the services of the whigh Masses in one enthusiastic, invincible host and lead them on to victory. So believing, we have istored and hoped for his nomination, and we now confidently look to the result to justify our sanguine anticipations.

The Company was organized but two years since, upon purely mutual principles, and with no expectation of so first upon purely mutual principles, and with no expectation of so first upon any other institutions.—
It is, nevertheless frue, that its success is unparalleled, and the amount of business done, number of Policies issued, and losses met with and paid, in the same period, exceed that of any Insurance Company upon record. Its capital increases with its liabilities, and no part of this can be applied otherwise than for the benefit of the parties insured by this Company.

We have travelled on board the Thomas Powell, and can confidently recommend her as one of the best boats on the line, and a more gentlemanly Commander than Capt. Davis is not often met with.

RATHER SMART-We alluded to the splended new Locomotives for burning Anthracite Coal introduced on the Reading Railroad, a few weeks ago. The article was copied into all the papers abroad, and some without credit,-and about two weeks afterwards it was copied into the other Pottsville papers and published as news. Great enterprise, was nt it ?

GEN. BRADY AND GEN. SCOTT .- A few days before the fatal accident occurred. which deprived the U. S. vervice of one of its brightest and most valued ornaments, and Detroit of an endeared and cherished citizen -Gen. Hugh Brady, while he was taking his usual morning walk, was accosted by a gentleman of that city, who was about to start for Washington, and who, informing Gen. Brady of the fact, asked him if he could do him any service at the seat of government. "'Yes," replied the old veteran, "call on Gen. Winfield Scott, and tell him from me that having lived to see him win every field on which he has fought, I hope yet to live to see him win the great Presidential field of the Union in 1852."

A Soldier's Testimony.—Col. Preston, of Kentucky, in his speech at the great Whig Ratification meeting in Philadelphia, thus hore testimony to Gen. Scott's administrative ability and experience. Said he, " if these objectors had been with me in the populous city, composed mostly of robbers well-ordered and perfectly secure community by the administrative ability of Gen. Scott, they would cease their cavils, and join with me in declaring that no living man posseses a higher order of executive talent than the Whig candidate for President."

CHURCHES OF THE CANDIDATES.—The Presbyterian, a religious paper of high character, publishes a letter, said to be from the pen of Dr. Junkin, from which we ascertain ment is manufactured in Potteville, it is, therefore, expressly adapted to this region, and offers great advantages to purchasers over all the very inferior.
