THE IRON TRADE. PROTECTION AND FREE TRADE. Political economists tells us that the in-

The magnitude, therefore, of the iron interest, is of no secondary character. It is the real basis of the world's material property. are over thirty railways, either contracted ber. The high standing of this mealth is creed for, surveyed, or are in course of construction in the community renders commendation at ated. It is the sword, the axe, the ploughshare, the railway, the loom, the steam-en-gine, the trowel, the winged burden-bearer of the ocean. It has to do with every avocation. It is the protector to our commerce -holds our vessels in salety amid winds and his lautern of safety by night. What does not ison accomplish? How can it be disnensed with? It civilizes—levels forestsocks water-courses for inland navigationbinds continents—perforates mountains. It

brings up the streams which silently percolate through the bowels of the earth, to quench the thirst of cities, and makes verdure to spring up in sterile places. It is not a mere theory on which we speculate, but a fixed reality. We have but to perceive the unexampled effects of this mighinstrument in the order of civilization, to eel that were iron to be withdrawn from the uses of man, he would retrograde to the condition of the savage, who points his arrows with bone and flint. That nation thich encourages its employment, increases rapidly in civilization and refinement while that which leaves its use to caprice. or chance, or absolute necessity, makes no

rogress in arts or science, or any kind of intellectual or physical well-being. Should not then, a due regard to that manual labor which brings iron to its perected state, -be that state the production the raw material from the furnace, or the manufacture of the axe, or the steam engine
—be one of the first considerations of a govare, during the week ending on Thursday even- eroment? Iron bears such an intimate relation to all the various branches of domestic industry, that to deny this axiom, were 2 00 to deny that a nation, remaining inert and idle, and wholly purchasing its necessities

from another nation, would not ultimately tion in fulfilling the conditions of his con-2 00 decay. The consumption of iron in the United 2 00 States is about 100 pounds to each individual. Until 1829, the consumption averaged 1 331 about 25 pounds. Our industrial branches 2 00 require a million of tons per annum, and of Nobody, we presume, could give more gen- and on this amount we can, and perhaps do, at present, produce about 400,000 tons. As the ratio of consumption goes on increasing, 00 with the increase of population, how will to his hands, in preference to any other.-2 00 the future demand be met, unless we are Mr. D., moreover, manifests a disnosition to 2 00 which must be decided by Congress, and

speedily. It is contended that the consumer should compensation. The Department will probpurchase in the market where prices range ably change the hours of running in a few lowest. This dogma is a fallacy which has ruined communities, and will do so again, Purchases are not only to be made, but are to be met; and in order to pay, protection must be afforded to the various branches of 1 60 domestic industry. This is an established doctrine, despite the fallacies of party, or the have occasion to visit the City of Philadelphia, arguments of a class. AT THE STATE FAIR, HABRISTRE, PA., OCT. 20, 1851.

The undersigned, appointed a committee for the purpose, by the officers of the Binte Fair, were present into account, when Messra. EVANB & WATSON'S General Stream of Chests, at which time they consumed triangle Cords of wood over it, commencing at 1 o'clock, P. M., and liaving exposed it to a white Assa for two Assars, sufficient to destroy the cast from fect.

On opening the Chest, the papers, together with 2000 circulars, deposited in our presence, were taken out, not only having been preserved, but not having the appearance of scoreb upon them.

or of the Battle of Cherubusco. ENGLISH ON THE PRESIDENCY. We clip the following from a letter in the Daily News, dated "London, 27th July"-it fully corroborates what we have 'previously

shown to be the opinion of the British on. our Presidential candidates : You have already seen how well pleased the You have already seen how well pleased the Tory papers here are with the nomination of Pierce to the Presidency of the United States. The same teeling pervades the whole country. The idea is, that with such a man as Pierce for President, the States limight be adduced to submit to almost any distance from this country. It is known also that he is opposed to Slacery. It is but right to lary, however, that the had never been livered of here, until after his nomination, and the opinion entertained of him has been derived from his own friends. You percent that the papers speak ill of General Scott. percents that the papers speak ill of General Scott.

The statem of this is equally obvious. It is known to the papers and the statem of the s hat the church untinching man that the English people wish the United States to have, and so Pierce

> REACTION IN THE SOUTH. The Washington (Ga.) Gazette, which had avowed its purpose to support Pierce and Ning, in referring to the recent expose of General Pierce's speech at New Boston, N. Hampshire, against the Fugitive Slave Law, remarks as follows:

> "Such is the charge, and such the defence. The latter, it will be perceived, so far as the pacific allegations are concerned, depies only viz: that the Fugitive Slave Law is "op-posed to moral right." As regards the balance of the allegations, these certificates stop with without denying them specifically, or giving what tien. Pierce really did say. So far as the whole denial is concerned, it is merely "word against word," and can be satisfactory only upon the supposition that these Freesoil editors cannot tell the truth. It is the source of the charge upon which they

chiefly rely to prove its falsity! "Several questions here present them-selves with great force. These certificates show that the alleged error in the newspaper reports of General Pierce's speech had been noticed and commented upon at the time of their publication. If false, why were they not corrected at the time by Geneportant a matter, embracing his opinions upon a question of vital moment to the counports, alleged as false, were capital for Gen. Pierce in New Hampshire. Why were they with accuracy
