IFOR THE MINERS' JOURNAL. 1 VENTILATION OF MINES.

B. BANNAN, Esq - Dear Sir : In a former article

compariments of 12 or 15 inches apart; into this spices of pipes series shaller ones 12 or 15 inches apart, and 5 or 6 long lapering to the top with an oracle of about one-fourth or five-sixteenths of an inche diameter, those small pipes must be put in perpendicular to the pitch of the vein, and with the open or small end upward. This being all fixed, raise the steam in the lower to a pressure of fifty or sixty lbs. per square meth, open the stopcock by which the steam is let out of the boiler and through the jets, and the result is a current of air capable of thoroughly cleansing any mine, however impure, providing the air is properly conducted through the workings and the air-ways are of sufficient size. The advantages in the application of the steam jet as an artificial means of producing a strong current of air, over that of the Furnace, will uppear relief to any one who will carefully examine the principles of each. It is well known, that the neto the publishers and subscribers of and the fermer is builted to the quantity of and the temperature to which the air passed over it can be rarified. But with the steam jet we have no hours; increase the pressure of steam and you increase its power and action. The furnace only causes a draught up the air shall by forming a variance.

the quantity of from manufactured in England, but the past year, was 2,506,000 togs. The england of the formations in which irro one could found a Mr. Enckwell says, is about 5000 to be branches of the from manufacture is estimated by forming a vacuum at the jets, which is filled by air from the branches of the irro manufacture is estimated by forces the steam forced out of these years pad, and on an equality with other portion the branches of the irro manufacture is estimated the irro manufacture is estimated to the steam 500,000. They are now said well pad, and on an equality with other portion the branches of the irro manufacture is estimated to the steam 500,000. They are now said well pad, and on an equality with other portion the branch proper of the laboring population of the United King-level is no doubt that wages are letter fagland now than they were under the laft of 1842. Then we made our Iron at the and good wages to our workmen which the coal has been set on fire by the ventulation. and paid good wages to our workinen, which the coal has been set on fire by the ventile which the coal has been set on free by the ventulathe Angland Boad wages to our workmen

century avoided, there are no means of communithe former of the

steam, everything are there, excepting a few fectol pipt and a stack of something like fair proportions to the extent of the nine. The first cost in such a case would be less than for a turnace, while its effect and economy over that of the furnace would be found tolexceed anything yet said in its favor.

There is generally greater difficulty in keeping If of the great indices of prosperity and up a good circulating current through the mine, it is gratifying to know that a feeling of about the time of budding and fall of the leaf, than in for the spot consecrated as man's last, at other seasons of the year. This is caused by ace, has been charished in almost every

> Pottsville, 30th August, 1852. [FOR THE MINERS JOURNAL.]

ABOUT VENTILATION. Ventilation of Coal Mines is a subject which has been very much talked of for the last few months, but it seems that it has been more a subject of talk ws. From one point may be seen the New that it may be not not been used in real transposed in the seen that the north, gleaning with its immerous that the north, gleaning with its immerous the Miner suffers from the present had system of the Miner suffers from the present had system of the Miner suffers from the present had system of the Miner suffers from the present had system of the miner contract point may be seen in the dim distribution of their hards a perfect of the shore which presents a panoramic encounting loveliness. The encourse considerers and 150 men are employed considered in the shore which presents a panoramic encounting loveliness. The encourse considerers and 150 men are employed considered in the shore which beautiful shade trees (chiefly Centered by beautiful shade trees (chiefly chiefly shade trees (chiefly shade trees (chiefly chiefly shade trees (chiefly shade trees)).

smore and Oak), and rich and variegated serving Miner, especially by those who are daily ensured constitute some of its most lofty gaged in the business. In the first place the Out-lets bright gems with which the great are all too small for the In-lets. After the air has Nature has studded this beautiful world had to contend with the Gas, where there is any, if which seem like fit emblems of the done boomed in the now dead, and are der smoke to contend with, both or either of which graves of buried at: tends to expand the air, and consequently with a small Out-let its progress is retarded; and before the Miner is aware, he has the same smoke and bad air playing on him again; whereas if the Out-let were a little larger and a good firmace atthe beauty and spiender of its wonted love. rid of every obnoxious vapor. In the second place the Headings are nearly all too small. Instead of a scaling nature has been insparing the frequency are heavily in the obstraint part of the share outstanted anny and utility to this place which sample and utility to this place which small place, only large enough for a man to get through and joint objects of the deepest meet, trend and journalist. It is not provided of the chieval meet of the state of the chieval meet of the chieval

To have better ventilation, there must be a total change of, or, at least, many improvements upon the present system. This can be effected at a small The primary in the policy of the control of the con

secure return air-way for the lift that shall follow. It should be of sufficient dimensions to admit the wagons. This plan may be thought expensive, but in reality it will be found both sater and cheaper.

Let a good vintilation it first secured and then almost any quantity of coal coal least let. Let a good ventuation be the secured and the almost any quantity of coal can be taken out.—
Where there is bad ventilation you can never cal-

it can be perpetuated by the most brilliant moniments that genius, in her proudest skill, can ever
rear to him.

The next object of most interest which meets the
eye, is a beautiful specimen of sculpture, in the
finest Italian Marble, of a mother and child, in full
length, lifting their eyes and raising their hands in
the attude of prayer. The sight is an interesting
one. There is a very large one, built of Quincy
offennte, after an Leyptian model, which is novel
end romantic.

Near Battle Hill stands Pilet Monument and monuments enected to the memory of the officers of
Brooklyn, who feel in the late Mexican War. Pilot
Monument is a magnificent structure, reared by the
Pilots of New York to the memory of a brave and
generous comrade. Thours Farthorx, who peris in don't have been don't be recy Shore, upon which
is sight and had of a multitude of sympathising
frands, who stood on the Jercey Shore, upon which
she was driven by a gale, it is a beautiful combimation of ideas. From a massive base rises a square
stroplagus. Upon this rests a Shup's capstan, but
the calle which is coiled around it appears to be
severed. On the top stands the figure of Hope still
rotating her anchor and pointing heavenward,
Miss Charlotte. Canno so Greenwood. It is a

[From the Pennsylvania Telegraph ] THE PRESIDENT'S CHAIR, OR THE LAKENT OF JAMES BUCHANAN.

Hove it. I love it; and who shall dare to chide me for loving the President's chair Long have I sought it with anxions sighs; None ever wished more for a lottery prize. My heart's chief desire and prayer it has been, To worship such idol is surely no sin.
Do you ask me way I'd like to sit there? use it's a very designable chair! When Polk occupied it, I lingered near With watchful eve and attentive ear Thinks 1, if he wears the Republic's bays, Can't 1, in turn, make a similar "fause 1" It I carefully note the signs of the times, Steering clear of such breakers as per diem di Even I, though now but a state sceretaire. One day may sit in the President's chair. In Monument city my friends\* took their stand

Where I led them upon the fat of the land; They praised the brandy, applauded the wine, Declared that the eatables all were fine: But, though they swallowed my eau de vic, I couldn't persuade them to stomach me, For in a way that was quite unfair.
They crushed my chance for the President's chair. Tis past! 'it's past! but I think of it now Till deep desperation is sealed on my broay I cannot, like Cass, raise my faltering voice And urge the party to stick to their choice Nor with indifference stoic conceal or with indifference store conceal he pangs of the disappointment I feel.

Tis a wound that time will never repoir

The loss of my hopes for the President's chair

MYOMING SEMINARY;

KINGSTON, LUZERNE COUNTY, PA.

THIS institution has one of the most desirable locations in Northern Pennsylvania. Kingston is a quiet, pleanant and salubrious village, one mile West of Wilkesbarre, and accessible by daily stages there in operation seven years, during which its patronage his been liberal and constantly increasing. Through the munificence of Wm. Swetland, Ksq., an additional Seminary building, 40 by 50 feet, and three stories high, has just been completed, and by the liberality of Hon. Ziba Bennett, the School is now furnished with a valiable and astensive library, entircity new. The Chemical, Philosophical and Astronomical Apparatus of the Institution is regarded, by all wile bave knowledge of it, as of a high order, and ample for full experiments in Natural Science. The Board of Instruction for the enaming year is as follows:

Rev. Reuben Nelson, A. M., Principal and Professor of Mental and Moral Relence.

Rev. Toling C. Smith, A. M., Professor of Ancient Languages.

PHILLP MYERS, A. B., Professor of Mathematics and Natural Science.

Rev. JOHN A. BEUBELT, Professor of German, Bernard Science and Natural Science.

Rev. JOHN A. BEUBELT, Professor of German, Bernard Science and Natural Science.

Rev. JOHN A. BEUBELT, Professor of German, Edward Science and Natural Science

and Natural Science. Rev. JOHN A. REUBELT, Professor of German. and Natural Science.

Rev. Jolin A. REUBELT, Professor of German, and Assistant in Ancient Languages.

II. De La Place, Professor of French and Spanish Languages.

III. De La Place, Professor of French and Spanish Languages.

JAMES, W. WESTLAKE, Assistant in Mathematics and Tacher of Versil Millians and T Languages.

Towens, of Washington, Superintendent

> FROM EUROPE. The fatest accounts from England, by the vious statements of the amicable settlement of the Psnery question, on terms of absolute reciprocity. The Americans are to be at liberty to fish in all British waters and the British in all American waters, such subject on its the vessels of foreigners to fish within less than three miles of the shore of any

> country to which they do not belong. - The

three miles to be measured from the nearest

land, without distinction of bay or open sea.

A new steamer is building at Dumbarton, 62d ballot, for Sheriff. The North American for the Cunrad Line, of 8000 tons, and 50 feet longer than the Great Britain. She is to cost upwards of £100,000, (\$500,000). Parliament has been prorogued to the 21st TA GREAT Temperance convention was October - G. P. R. James has been appoinheld at Pittsburg, Thursday. The process ted British Consulat Norfolk. The ship Cension numbered about 1500 persons, compolitaur, with property on board to the value of

ed, on the 15th May, upon the coast of Ara-The potato crop of Ireland was improving. Louis Napoleon was seriously ill-his marriage engagement is reported to be broken off. -The crops in Spain have been much injured by the late storms. - It is estimated that \$20,000,000 of gold have been received from Australia within the last twelve months .-The cholera is alarmingly prevalent in Rus-

sia and Poland. The Livernool cotton market was active. and prices advanced—but breadstuffs dull.

LOCOFOCO DECENCIA The Harrisburg Union says of General

SCOTT: meapable of comprehending political measures, or political wants—presumption takes the place of knowledge, and exotism usurps the privilege of knowledge, and exotism usurps the privilege of pudgment. By no strength of effort can be disguise the bold character of the mercenary soldier whose life has been spent in the dull routine of military duty, while his intellect has grown as unplastic as the muskers under his command." Who would belong to a party, asks the Independent Whig, headed by such knaves as the author of the above disgraceful senti-

ties being required for the performance of some important duty. His reward is in having his great name villainously traduced by the same men who once called CLAY a murderer and afterwards admitted he was a great and good man whose departure the whole

ment? Scott has served his country for 40

ears, under every administration, his abili-

country should mourn. Scott is called a "mercenary soldier"-n man who fights merely for his pay and with no higher motive! Volunteers, and patriotic men generally, remember this. WHIG ECONOMY AND HONESTY.

The National Intelligencer, of last week, contains the important announcement that the accounts of the past fiscal year are made up, and that the expenditure had been reduced to \$45,950,000; and of this sum \$1,867,-639 was for redemption of the public debt. The amount of expenditure last year was \$48,005,000, of which only \$521,265 was for redemption of public debt. The reduction of the actual ordinary expenditure of THE SUBSCRIBER would respectfully call the attention of the public to his splendid assortment of the year lending June 30, 1852, compared with that of 1851, has been \$3,601,000. the year lending June 30, 1852, compared Since the present administration came into NEW HAT ANIACAT STORE, CERT.

Street, Tro Doorsaborathe Miners' Bank, where will at all times be found the latest and most approved Style of HATS and CAPS, of all descriptions.

NEW HAT ANIACAT STORE, CERT.

Power there has been redeemed of the public debt \$12,000,000, due to Mexico, as the balance of the indemnity for California, and \$3,250,000 due American citizens under the government for spoliations. treaty with the Government for spoliations. The would call special attention to his total and the with the troverument for spontations. JENTS NEW STYLE OF HATS, which for tight the patronage so liberally bestowed, there has been paid \$1,900,000 in interest, equal to nearly \$500,000 per annum, which will now no longer require to be paid. And upon the entire debt left by Mr. Polk and his Democratic supporters and allies, there has been paid during the same time, \$14,681,000 of interest. The surplus in the Treasury is now just equal to the amount of debt extinguished; and if the laws under the European manufacturers, and cash stuctions, rick fashionable, fancy Silk Millinery Goods. Our stock of Rich Ribbons comprises every variety of the Intest and most beautiful designs imported.

Many of our goods are manufactured expressly to our order, from our own designs and patterns, and stand unrivailed. We offer our goods for nett Cash, and we should next year have to pay \$900,000 less of interest than we shall afford. be compelled to pay under the operation of those laws.

This luminous expose also shows that \$10,-951,000 of last years' disbursements consisted of expenses directly growing out of the Mexican war, and left as a memento by our lamented Democratic rulers. In addition to this sum, it is made to appear that \$807,000 items which formed no part of the annual expense of Government during Mr. Polk's term of office, and which are the consequences of measures forced upon the country by him and his adherents. The deduction of these extraordinary charges reduces the current unavoidable expenses of the Government, for which this administration is responsible, to \$28,313,965. This is about what they would have been had the Government been in Whig hands since 1811, and what they will be, atthe present rate of reduction, if Gen. Scorr be elected. The choice between Gen. Scorr and Gen. Pierce therefore would seem to be between a taxation of TWENTY-EIGHT and one of FORTY-EIGHT millions a year.

SUPERIORITY ADMITTED. It has been a hard task for the English to oncede the superiority of American over British steamships, of which they had reason to be proud, yet, though long delayed, here it The London Times of the 9th instant has the following:

"The truth must be told-the British steamships have been beaten, and the most rapid passages ever achieved between the old and new world have been accom-Ifshed by the American steamships. None out an American steamship has ever yet un from Liverpool to New York and vice versa, in less than ten days. The average passages of the Asia and Africa may, per-haps, nearly equal those of the Pacific, Baltic and Arctic of the Collins' line, but the Americans have achieved the positive victory TO COUNTRY STORE REEPERS

AND WEAVERS.

THE subscriber respectfully calls the attention of the part of the Americans the Conment of Cotton and Linen CARPET CHAIN, COTTON YARN, TIE YARN, Could which i hidgo line Yarn. Coverlet Yarn.
