While Candidate for Canal Commissioner.

Reading, August 12, 1852.

John S. Brown, Esq.—My Dear Sir:—I am in receipt of your favor, and thank you kindly for the interest you feel in the approaching election. I fully agree in the importance you attach to the success of the Whig tacket at the State election, not, indeed, on account of any supposed aid it might affold us in the election of our distinguished to diate for the Presidency. Both of these candidate for the Presidency; but, as you truly remark, in connection with the interest of our State affairs; which, under their present management, loudly call for reform and economy.

Compliment for the two annexed considerations of cannexed considerations:

Ist. General Scott was regularly and unanimously nominated as the Whig candidate and a quarter, yet the air will have searcely the date for the Presidency, by the convention which assembled at Baltimore, after a declaration of principles, which, I believe, meets the approbation of the country. By the same body I was, in a like manner, nominated for the Presidency; but, as you truly remark, in connection with the interest of our State affairs; which, under their present management, loudly call for reform and economy.

my part, I shall not sanction the use of my But, 2d. I understand that your objection to General Scott consists mainly in an ap prehension that he will not do justice to the South, by a faithful adherence to the comprothe manner of their construction and subse- mise of 1850. On that point I have this statement to make : I arrived at Washington upon invitation of President Fillmore, to the Navy Department, on the last day of July, 1850. On that day the "Omnibus" bill, so called, reported by Mr. CLAY from the Comleast one third, for which under practical and mittee of Thirteen, was rejected, and the whole subject of dispute was thrown open for agitation anew. I found General Scott acting as Secretary at War, in which situation he continued for several weeks; and happening to take lodgings at the same hotel. I was in daily and intimate intercouse \$31,476,245-36 various provisions, in separate bills. No

tion of the compromise by the passage of its one, in my sphere of acquaintance, felt more deeply the importance of the crisis, none exhibited more zeal in behalf of these measures, by arguments and persuasion among his friends and none rejoiced more heartily when it was supposed all danger was averted by their final passage than did he. BARNUM AND THE MUSEUM.

In an essay which P. T. Barnum contributed to Freedly's Treatise on business, he thus alludes to the purchase of the Musem:

In 1841 I purchased the American Museum in New York without a dollar, for I was not worth a dollar in the world. But I was never disheartened: I always felt that I could make money fast enough, if I only set my, mind to it. I remember meeting a friend in Broadway a tew weeks before I came in possession of the Musein. "Well," said I, "Mr. A. I am going to buy the American Museum." "Buy it," said he, for he knew I had no property; "what do you intend to buy it with?" "Brass." I replied, "for silver and gold I have none." It was even so. Everybody who had any connection with theatrical, circus or ex-

hibition business, from Edward Simpson, manager of the old Park Theatre, or Wm. Niblo, down to the most humble puppetshowman of the day, knew me perfectly the net revenue to an amount approaching, if not equal to, that required for the payment of the interest on the public debt; and justi-
