THE AMERICAN WHIG REVIEW .- This ably conducted periodical, although a political work, as its name implies, presents claims for general circulation. Its reading matter is of a character to interest all classes, and to entertain every variety of taste. As a specimen, we select from the table of contents of the Seplember number, "Movement of the Enemy," a eriticism on Dickens' Bleak House, "The Fisheries," "Lossing's Field-Book lished Magazine," &c., showing the general literary character of the work. It also contains two fine engravings—the portraits of William A. Graham and Geo. Ashmun. Price \$3 a year. C. Bissell,

Publisher, New York. Among MANY other articles in the September number of Appletons' Mechanics' Magazine, we observe a comprehensive description of Ericeson's new Caloric engine, with illustrations. The reader will, perhaps, get a better idea of this great inrention here than from any other work. Werecommend this magazine to Engineers, Mechanics, &c.-it is well posted in all the latest inventions mprovements and discoveries of the day, scientific and mechanical, and by the help of its large and finely executed plates, its descriptions are mostly rendered plain and intelligible. Price \$3 a year. Subscriptions received at BANNAN'S.
