THE WHIG TICKET.

COL.'S D. KREBS & C. M. STRAUB

WHIGS, BE AT YOUR POST ! Next Tuesday, the people of Pennsylvania will again be called on to exercise their right of choice in the selection of State and County officers. The Election is an important one. A member of the Canal Board, Congressional Representatives and a Judge of the Supreme Court are to be chosen, besides the County officers. We beg leave, in consideration of the important interests at stake, to address a last appeal to our Whig friends throughout the

It has been universally conceded by both parties, since the nomination, that the men selected by the Whigs to represent our County interests are both able and worthy. The ticket throughout is unexceptionable. It must and will unite the whole strength of the Whig party, both from the peculiar fitness of the candidates for the respective offices they aspire to, as well as from the general satisfaction with which the complimentary distribution of the several selections has everywhere been received. They were certainly well and wisely chosen. There is not the slightest disaffection or schism of any kind in the party to interfere with the strength of the ticket and it only requires a a full vote to secure a triumphant victory.

Our candidates are well known throughagainst any one of them, by way of disqualt- ranks—and the day is assuredly ours. fication to his election. Beginning with our nomination for the State Senate, John Hex-DRICKS, down to the last man on the ticket, be raised—they are all honorable, intelligent and universally respected citizens. It would be difficult to select a County licket that would better, if as well, please the whole party or do more credit to the County, in the event of their election. This is no empty or boastful eulogium—it is what every Whig believes and what every honest man of both parties must acknowledge.

Among the topics introduced, and upon which the greatest stress was laid, by the Whig orators on Saturday last, was the tariff question. Ruin, destinguished it before, but it bears so strongly our reader's examination. We have, also, published it before, but it bears so strongly on the point, we cannot forbear its re-insertion. It is taken from the last Commerce and orators upon this question of protection. ***

The Address will be delivered on the 28th, at 2 o'clock, P. M. By Order of the Society, published it before, but it bears so strongly on the point, we cannot forbear its re-insertion. It is taken from the last Commerce and orators upon this question of protection. ***

The Promises of Whig orators and Whig editors, the hypocretical canting of Whig editors, and Navigation Report for 1851, as compared with similar statistics of 1850. It reads thus: there is not one against whom a finger can

nor do we intend to. If the character and John Randolph. At the conclusion of this an increase in a single year of \$20,205,602.

Onalifications of our own candidates can only the bare of Romate. The imports of Iron are as follows: qualifications of our own candidates can only be sustained by blackening and traducing those of our adversaries, we had rather have nothing to do with their support: but, thanks to the wisdom of our County Convention, that made the nominations, our men need no such backing unast that. Their good names speak speaks as neeless in politics as on any other subject.

The imports of tron are as ionova. 1850.
