SCIENTIFIC LECTURE.

BY PROFESSOR CEASAR HANNIBAL. My Suspected Hearers :- I shall dis ebening rebound on the great stance ob FREE-NOLOGY.

Freenology am one ob de moss anshent and beutiful siances in the hole catalog ob learnin, and am twin sister to Mesmerism. Freenology consists in gettin 'nolage free like you am dis ebening; it was fust discubered in de free schools, and was always looked pon by de larned as bein closely connected wid " E plurabus Unum."

In order to fully 'splain myseff on dis 'por tant siance, I went to de slawter house up in Christy street, and got dis skull. It was emposable for me to get de hed ob de human body at de horsepital, so I hab to use dis sheep's hed, which no doubt will answer de same purpose, 'kase it hab got de wool on

De fust bump in a cullered man's hedand it taint no use bodderin 'bout enny od der man's hed-am siterate on de fop and called by the siantifik cokanut bump; dis bump lays in a triangular form ober de bump ob don't-care-a-d-nativeness, which ebery black man's hed am fully blessed wid: some ob de lower order ob cullered men hab got de bump ob ori-gin-ality, which renders dem 'septable ob drinkin bad gin made up into slings and toddies. But, my stingy frens I warn you to stop dis sling bisness, or else vou will sling vourseffs into de place whar de brimstope matches are made.

Dis am de bump dat plays de debil wid de ed. We regret to say not one cook in ten fair sex, bekase dat am whar Kupid springs can perform the simple operation of boiling near de cote collar; it am called de hump ob rice. Soak the rice an hour or two previlub! What am all de sisters feelin in de ously, and then boil until it absorbs all the back of deir necks for? It am dis bump water, which will be about eight or ten dem fellers as hab got an ober quantity ob clammy and indigestible. Rice should alit. Look out how you fool yer time 'round | ways, after boiling retain the perfect grain. de 'oppsite sex, kase when you fall in love dis bump swells to such an 'xtent dat it oberwellms de hole brane, common sense

better insult yer own konshunce and see el you hadn't better laff de odder side ob yer mouffs. Sich imperence in meetin I nebber did see!

De nex fac dat I will call yer 'tention to am dis: De hed ob man like de foot ob de Hog, am diwided into two parts; de front part am whar ce intellecteral orgins am, and dis part b'hind de ears am whar de anamal propersishen's am; dis part ob de forched im knone as de Horse-frunt-us, or frunt-allone, bekase it am all bone and in de frunt b de hed, which fulls 'tous length's the ceiling, it should be connected with an aron tube running up the same height in the BELTING.

The according to the came height in the BELTING.

The according to the am height in the BELTING.

The according to the am height in the Chimney, by which means it will be secure from the effects of sudden changes of weather, &c., or a distinct tunnel may be built up for the same purpose.

SPIDER'S THREAD.

Austrian papers state that a merchant of Vienna has lately presented to the Industrial al Union of that capital the details of a series of experiments made by him to manufacture spider's thread into woven tissues.—

The according to the allowest cash plicits. This Belting is considered better and cheaper than any other kind in use, and it has the advantage of the material total the any end it has the advantage of the material leng is considered better and cheaper than any other kind in use, and it has the advantage of the material reports a test to any length at the Allists first cost, for other purpose, after it is worn out as belting. It is in use all the Collieries in this Region.

Also, India Rubber and Gutta Percha Rubber, &c., &c., all of which will be found in use, and it has the advantage of the material test had in use, and it has the advantage of the material reports a least half its first cost, for other purpose, after it is worn out as belting. It is in use all the Collieries in this Region.

Also, India Rubber and Gutta Percha Ruber and Gutta Percha Rubber and Gutta Percha Rubber and Cartage an oh de hed, which fully 'counts for de nigger's hed bein hard 'auff to butt down de stone fence. Some ob de pretenders to dis stone fence. Some ob de pretenders to dis siance hab 'serted dat de brane lays here, but when dey probe to me dat de brane em bone when dey probe to me dat de brane em bone beauty and delicacy of fabric to those of They, also, beg leave to call attention to the most reasonable terms. They employ good working and their customers may, there beauty and delicacy of fabric to those of They, also, beg leave to call attention to their when dev probe to me dat de brane em bone beauty and delicacy of fabric to those of bump ob "Benebolence" am sitewated on de top ob dis, but I don't see dat stickin out werry excrusiatin on enny ob your heds; but round de fac will probe itseff.

ness," which bump am 'lustrated on de map en; flavor with lemon, or according to taste by de jackers; which shows how much easier it am to coax dan to dribe. Some people hab got bigger bumps dan odders, and dat twice more I'll smack you 'cross de without leaving a sear. chops." Dat man hab got combativeness small, but ef at de moment dat vou call de Information for the People man a liar you find yourseff a rollin in de make up your mind dat it sticks out on dat

'bout it which all noe by heart. ** steem up " kasionly fully probes.

TO MAKE OILY MANGOES. The following capital impromptu w written at the request of a lady:-Horse radish shaved fine

In a very strong brine,

For twenty-tour hours must lay;
Also one pound of garlic,
White ginger, not scarlet,
Must be served in the very same way. I must farther explain, They must three weeks remain, In the pickle aforesaid of brine;

But first let me say,
That every third day,
You must change them, if you'd have them Add of pepper, one pound, And, should spices abound Of cloves, mace and nutmeg, two ounces: Ot white mustard reed vet

Put all this good eating. And pound it all up to a paste; And what is too bad. To this you must add, A bottle of oil. O! what a waste.

In cold salt and water,
For a week they must loiter,
Before their insides are put in; Then wipe them all dry Their covers on tie, Sew them up with a needle or pin

A bottle of mustard. As yellow as custard,
Must be made and in vinegar mingled; Then invite me to dinner, And as I'm a sinner,
I think you will see them well fingled.

The above receipt is for one hundred.

*Tumeric, equal to a quarter of a pound of

NATURE'S OWN REMEDY. THE INVALID'S BEST FRIEND

IMPORTANT CORRESPONDENCE: TRIUMPH OF WRIGHT'S INDIAN VEGETABLE PILLS IN BOUTH AMERICA: YELLOW FEVER CURED: TRUTH STRANGER THAN FICTION:

SALEM, Mass., April 26, 1851.

William Wright, Esq.—Dear Sir-For many years we have been the Ralem agents, and also at one time the county agents, for the sale of your valuable medicine, and during the whole of this time we are not aware that, in any one instance, have the pills which we have sold been complained of as causing injury, or not accomplishing their proper mission. It is doubly gratifying when we receive voluntery testimony from a source where the medicine which is sold has been the means of doing great good and of saving many lives.

Last year we sold three dozen bases to go to a forcign port, and this day have received a letter from the merchant who ordered them, giving an account of the wonderful effects which they did in curing a large number of persons who were attacked with a prevailing epidemic similar to the yellow fever; while those under the regular physicians' treatment, who were in the Hospital, some three hundred, including the Governor, Magistratea, &c., fell victims to the disease. If you would like a copy of our letter, we don't know of any impropriety in giving it you, and perhaps it would be of service to have it published, together with our names, as it is addressed to us. We will consult the parties interested, and if you wish, it, you will please write us. Respectfully, yours.

The following is the latter alluded to above:—

The following is the latter aliaded to above:-

ty persons, and all were relieved as it were by enchantment.

I have, in consequence, remitted to Messrs. Gold smith, Newcomb and Farlers, the sum of forty dollar am the purchase of that quantity of this medicine, and foreg of you to deliver the Pills as fresh as possible. I request you also to desire Br. Wright to have his directions translated in Frenct, which willtenly greatly to circulate his Pills not only here, but also in the other colonies where the population is more numerous. Excuse me, gentlemen, in the liberty I have taken to address you this letter, which, for the sake of humanity, I have been compelled to do, as I do not mean in speculate on an article which proved salintary to a oumber of poor people, and in fact most of the population is reduced to a state of indigence, and it would be similar for any one to seek lucre in such a way.

be sinful for any one to seek lucre in such a way.

Accept, gentlemen, the most respectful salutation of your very obedient servant,

The medicine is for sale, wholesale and retail, either the servant of the salutation of the salutation of the salutation. in English, French, German or Spanish direction the Principal Office, 169 RACE 81., Philadelphia the Principal Office, 169 RACE 81., Philadelphia.

DR. HOOFLAND'S

DR. HOOFLAND'S
Celebrated German Bitters,
PREFARED BY
DR. C. M. JACKSON, at the German Medicine Store
120 ABCH Sureet, Philadelphia,
Their power over the above diseases is not excellent of equalled—by any other preparation in the United lates, as the cures altest, in many cases ofter skillful hysicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal, safe, certain and observer.

pleasant.

BEAD AND BE CONVINCED.

and pleasant.

READ AND BE CONVINCED.

[PRONTHE "BONTON BEE."]

The Editor said, Dec. 22nd,

Dr. Hoofland's Celebrated German Bitters for the cure of Liver Complaint, Jaunditon, Dysprepsia, Chronic or Nervous Peblitty, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor—a fact worthy off great consideration—
They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with afety under any circumstances. We are speaking from experience, and to the afflicted we-advise their use.

"Scott" WEEKLY," one of the best Literary papers published, said, Aug. 25—
"Dr. Hoofland's German Bitters, manufactured by Br. Jackson, are now recommended by some of the of much efficacy in cases of female weakness. nuch is the case, we would advise all mothers to o ain a bottle, and thus save themselves much sicknes Persons of debilitated constitutions will find the

MORE EVIDENCE.

The Hon. C. D. Hineline, Mayor of the City of Camden, N. J., 23y3:

"Hoofland's German Bitters.—We have seen many flattering notices of this medicine, and the source from which they came induced us to make in quiry respecting its merits. From inquiry we were personaded to use it, and must say we found it specific in its action upon diseases of the liver and digestive organs, and the powerful influence it exerts upon nervous prostration is really surprising. It calms and strengthens the nerves, bringing them into a state of repose, making sleep refreshing.

If this medicine were more generally used, we are satisfied there would be less sickness, as from the stomach, liver, and nervous system the great majority of real and imaginery decases emanate. Have them in a healthy condition; and you can bid definance to epidemics generally. This extraordinary medicine we would advise our friends who are at all indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other medicine can produce such evidences of merit.

Evidence upon exclusively to grass, and neglecting the grain crops which would enable them to the grain crops which would enable them:

Serious differences of opinion have existed among farmers, as to the best mode of sar. The old practice of topping the stalks suit remains in vogue to some extent, although not approved by most writers upon the sub-indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other medicine can produce such evidences of merit.

Evidence and the powerful influence it reacts upon the sub-indisposed, to give a trial—it will recommend itself. It should, in fact, be in every family. No other in the provider of the provider MORE EVIDENCE. er medicine can produce such evidences of mertt."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nostrous combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented todder, provided always, that the operationed todder, provided always, that the operationed That this form.

That this medicine will cure Liver Complaint and

Look well to the marks of the genuine. They have the written signature of C. M. JACK-SON upon the wrapper, and his name blown in the bottle, without which they are spurious.

The Farmer.

THE CORN CROP-TOPPING. The growing of coarse grains in this State for market has very much diminished in latyears-and the aggregate quantity raised of Corn, Rye, Oats, Buckwheat, &c., is, we think, considerably less than it was a few years ago. The result has probably been brought about by the general introduction the business of dairying and stock growing

which has proved more profitable and desa

rable in many parts of the State than the

growing of coarse grains. The corn crop is nevertheless a valuable and important one to the farmer, and in out estimation more profitable as a general rule, to the farmer whose lands are adapted to it, than any other of the coarse grains, and we are almost inclined to add more profitable also than wheat. We have not space now to enter into any detailed estimates, or to present the evidence upon which these opinions are based, but shall probably do so at another time when we have the facts more accessible than at present.

An important item in the corn crop is the fodder, which, when properly saved and cured is not much interior, and we think, for some purposes, superior to hay. It may be safely estimated that the fodder from an acre of corn well cultivated will go as far towards feeding stock as would the crop of hay from the same ground. This, of course, is on the supposition that the land is adapted to the growth of corn, and the crop well cultivated Such being the case, we cannot see the turn of the objection often urged by persons who are desirious of keeping a large stock of car tle, that they cannot spare land for a crop of corn. Indeed it may be questioned whether

todder, provided always, that the operation of Dyspopsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in all bitious directed to the effect is immediate. They can be administered to the males or infants with safety and reliable benefit at any a damaged quality of grain. But we make the safety and reliable benefit at any and admaged quality of grain. But we make the safety and reliable benefit at any and admaged quality of grain. stacking be well performed, and the tall be admonished that we have not room to to

> There is much for us to learn as to the best mode of covering our houses. The fullowing is one of the modes practised to some tislactory. We copy from the Spindle City: A gentleman in Groton gave us the other day the manner in which he prepared he shingles, before laying them on his house,

appearance, as though they had been lad not more than a month. He had a large boiler, which he filled with whitewash, mixing with it, about one pound of potash to four callons of liquid, also about the same amount of salt. This composition he boiled, and while it was boiling, he die ped the shingles in, taking a handful at i time, and holding them by the tips. He had boards placed so that he could set his shipgles on them on end, and let the liquid; as a ran off them, run back again into the boiler. The shingles he allowed to dry in this push tion, before laying them; and his belief was that, by thus curing or hardening them, they would last much longer. They could be to-

lored red or yellow, easily, by mixing redar The expense for shingles on a root is ver in purchasing, last but for a few years; and therefore something that will harden and costs but little in the application, will thank

TO MAKE YOUNG PEAR TREES BEAR I was afficted by the sight in my garden for four or five years, of the most luxuriant and thrifty young pear trees, which would Vexed at this, I resolved to try the effect of bending down the branches so as to check buds instead of wood buds. Accordingly, the first week of December, 1847, I filled my some small pegs into the ground undernet my trees, (which had branched low, so " to make dwarfish heads :) I then tied a string to the end of every long shoot, and gradually bringing down to the end of the limb until it curved down so as to make a considerable hend or bow, I fastened it in that position, either by tying the other end of the string 10 the peg, or to another branch or part of the

According to my expectation, the tree ner year changed its habits of growth, and set an abundance of fruit buds. Since that, I have had plentiful crops of fruit without trouble-taking good care not to let many branches go on the upright system.-Horle
