SATURDAY, NOVEMBER 20, 1852. PEDDLING AND AUCTION SALES. We understand that several persons have been bound over to appear at Court to answer a violation of the Peddling and Auction laws. The penalty is not less than \$50 nor Hubbard. (Democratic,) more than \$500.

A meeting of the business-men of the Borough will be held at Foster's Hall, on Monday evening, the 22d inst., for the purpose of enforcing the laws against all Peddlers, and also to see that Auctions are conducted within the limits of the law. A general attendance is requested. Every citizen, and in this matter, as well as the merchants and insanity, for some time past. traders. It is the resident citizens who pay the taxes, support the Public Institutions. such as Churches, Schools, &c., and who thus contribute to the wealth and prosperity of the place. If the charges of our merchants were exorbitant and unjust, there would be some excuse for encouraging Peddlers and itingrant salesmen, butthe case is far different. Already competition is such, that goods of almost all descriptions are offered as low in Pottsville as they can be purchased elsewhere; so that, after paying the ordinary license, taxes, &c., the merchant has barely a living profit, and what he does make is in turn expended at home, for the general benefit of the community. Peddlers pay neither license nor taxes and what they receive for their goods from our citizens goes to enrich other communities-they, have no identity with or interest in us, further than. to take our money. We liope the matter will be fairly canvassed on Monday-it is only natural and right that our citizens should have a common understanding on the subject and take the proper steps to secure us against similar impositions in future.

NEW YORK SLAVE CASE. On Saturday last, an important case was deided by Judge Paine, in the Supreme Court, n New York, touching the right of owners o carry their slaves through a Free State. Ir. Jonathan Lemon, from Virginia, was assing through New York on his way to exas, with eight slaves, when they were rrested and brought before the Judge on a writ of haheas corpus. After a lengthy and able trial, the Judge decided that, according to his views of the natural rights of individ-

uals, and under the revised statutes of New York of 1841, the alleged slaves were free. The ease, involving as it does an important principle, very naturally greated. much excitement. It seems there has never een one precisely similar to it tried. In the ndiana case cited in the decision of the court round that they were going to a free state; n the Ilinois case, the decision turned upon special clause of the criminal code; and in harged because voluntarily brought-into a ee State; but it is held that none of these precedents touch the instance of slaves on heir way to slave States, coming inciden-

ally into free territory. Viewed independently of the moral right the existence of slavery, it certainly seems hard that Mr. Lemon, or any one else, should lose his property, by accidentally passing through a State, which does not recognise the authority by which he holds it, when at home. But, on the other hand, the laws of a Free State are just as binding upon its citizens and others who subject themselves in the whole matter then, resolves inself into a simple question of law. If the sautes of New York forbid the holding of slaves, either by her own citizens or others who may voluntarily come within her borders, then the decision of the Court, in the long redress a Slave-holder can have from the rigor of such enactments, is to star of the several Courts of Organier Sands of the Scans of the Peace, Oyer and Terminer and General Gool Delivery, and General Gool Delivery, for the trial of all capital and others who subject themselves of the several Courts of Oyer and Terminer and General Gool Delivery, for the trial of all capital and others of the Peace, Oyer and Terminer and General Gool Delivery, for the trial of all capital and others of the Peace, oyer and Terminer and General Gool Delivery, for the trial of all capital and others of the several Courts of Quarter Families B. SARSAPARILLAM WONDERS NEVER CEASE? WILL WONDERS NEVER CEASE?

If the following tiers, performed alone by the use of Bull's Sarsan-Kallla, are not wonders then we acknowledge that we do not know the meaning of the word. Read, and be construced that facts are stranger than fation:

Line P. O., Fulton Co., By., Oct. 1, 1851.

Dr. John Bull: Dear Sir—The few dozen of your Sarsaparilla, ordered in September, came to hand, and, in acknowledging the receipt of the same, I feel I would be doing you injustice to winhold the following among many of the listances that have come under my observation, during the last two years of the great curative properties of your Sarsaparilla.—Mer. Jeannette Martin a highly respectable lady of my oeighlorf-ood, aged axix-view years, had been low. of a cure. At this stage of her case, I persuaded her son to take a bottle of your Sursupartile. He did so, and in a short time returned, and purchased another bottle, stating the first had had a decidedly good effect. She continued to use it until after the use of five or six bottles, I had the pleasure of seeing the old lady herself at church. She assured me that she had almost entirely repowered her health, and from her I received the account of her disease; and in about the same words; I give it to you. This is but one of a number of cures under my observation—of very remarkable ones—performed by the use of your Sarsa parillatin myjeneghlorhood. The demand for it has steadily increased since its introduction herse.

Very respectfully, your obtodient servant,

WM. R. DICKINSON, P. M.

STILL MORE WONDERFUL:

I, Thomas A. Ringe, of Graves Co., Ky., for the benefit of manking generally, do hereby certify, that on or about the Ish day of October, 1847, I was attacked with a very severe pata in the lower part of the abdomen, which lasted our a few planters and

The Republic thinks the noise that has been made about the matter in this country is altogether superfluous. Cuba unquestionably had the right to refuse the landing of Purser Smith, or any one else, whom she suspected of using his visit for her undoing-ours and other governments would do precisely the same thing, under like circumstances. But to refuse the landing of the mails and passengers, the Republic thinks quite a different matter-a violation of the spirit, if not the letter of the treaty between Spain and this country : and, to say the least of it. was a very indiscreet procedure, on the part of of the Captain General, almost equal to the reckless folly of Mr. George Law or the Steamship Company, in trying to force Pur-OIL FOR MINERS AND MACHINERY. Ser Smith into Cuba. The article concludes

GREAT BRITAIN AND THE U. S. We regret exceedingly, and the New as the London Times thus applying riself to the aggravation of British prejudice against the American peoples England has now est relation towards this country. There is some reason for the appreheusions expressed in another column, that Europe may, at the distant day be again startled by the trump war, and that despotism will collect all 118 energies to deal a blow of extermination against Constitutional freedom. If that blow should come, England would learn the difference between our friendship and our hate. Well it would be for her if the lesson came not too late. Let the London Times cease its malignant assaults upon Daniel Webster long enough to bethink uself for one serious moment who it was that thrilled the souls of millions of his countrymen with the words "May these countries be forever friendly rivals. May their power and greatness, sustaining themselves, be always directed to the promotion of the peace, the prosperity, the enlightenment and the liberty of mankind; and if it be their united destiny in the course of human events, that they shall be called upon, in the cause of humanity, and in the cause of freedom; to stand against a world in arms, they are of a race, and of a blood, to
