No known substance possesses those preservative and beautifying proparities, so desirable in a paint, to an equal extent with unadulterated white lead; hence any admixture of other materials only mars its value. It has, therefore, been the steady aim of the manufacturers, for many years, to supply to the public a perfect pure white lead, and the unceasing demand for the article, is proof that it has met with favor. It is invariably branded on one head: WETHERILL & BROTHER in full, and on the other, warranted purs, all in red letters.
