world. By this, regardless of the Constitu-tion and the laws he had sworn to support, he over-ruled the Assembly by force, and declared himself a candidate for the office of President, for the term of ten years! The response, on the part of this versatile people was quite as astonishing as his procedure had been outrageous. The vote on the 21st. of December, 1851, was as follows: For Napoleon. 7.451.631. Against him. 717.292 Thus, he has fortunately been sutained, in every-iustance, by a large vote of the peo-ple, until at last he fas now reached the summit of his ambition. This last vote, we may remark, by way of correction (tho' it grieves us to spoil so good a story.) is the one referred to, in last week's paper, as forming the singular com-imation of figures, which viewed from the posite side of transparent name realled

years' suffering. EXTRACT of a letter from Mr. William Galpin, of Lito, Baint Mary Street, Weymouth, dated May 15th,

By Telegraph. PORT RICHMOND, FRIDAY, 1 O'CLOCK, P. M. Rates of freight from Richmond,-Itey have been more or leas sore, and greatly inflam-ed. Her agonics were distracting, and for mouths together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often read your adventiscments, and advised her to try your e Pilts and Ontment; and, as a last resource, after-every other remedy had proved useless, she consent-ted to do so. She commenced six weeks ago, and, strange to relate, is now in good health. Her legs are painless, without seam or scar, and her sleep ound and undistarbed. Could you have witnessed the sufferings of my wife during the last 43 years, and contrast them with her present enjoyment of health, you would indeed feel delighted. In having been the means of so greating alleviants the suffer-ings of a fellow creature. Signed, WILLIAM OALPIN. A person 70 years of age scared of a Bad Leg, of thirty Copy of a Letter from Mr. Wm. Abbs, Builder of Gas Uvens, of Rushelife, near Huddersfield, dated May 3ist, 1851: To Professor Holtoway-Bits in farend for a period of thirty years form a bid leg, the result of two or three different accidents at Gas Works; ac-companied by acorbuilt symptoms I had recourse to a variety of medical advice. without deriving any benefit; and was even told that the leg must be am-putated. vet. in compatibility to that be proved the rist of the was even told that the leg must be am-putated, vet. is compatibility to that of thirty y across for the sufficient with out for thirty parts form a bid leg moust be result of two or three different accidents at Gas Works; ac-companied by acorbuilt symptoms I had recourse to a variety of medical advice. without deriving any benefit; and was even told that the leg must be am-putated. vet. in compatibility to that on the sufficient vet. in our proves of the sufficient without and rever the amount deriving any bide the sufficient was event to that the leg must be am-putated. vet. in co To Boston, To Rhode Island, 1 40 New York, $\frac{1}{1}$ $\frac{05}{1}$ Washington,. ENLARGEMENT OF THE MINERS' JOURNAL.

PUBLISHED AT POTTSVILLE, SCHUYLKILL CO., PA.

A New Feature to be Introduced-Mining and Scientific Department.

We address this Circular to a number of our friends in Schuylkill County, and elsewhere, to solicit their co-operation in extending the circulation of the Journal.-A Newspaper is regarded abroad as the representative, to a greater or less extent, of the people among whom it is published. The liberal encouragement of our citizens heretofore manifests a disposition, on their part, to appreciate our efforts-our efferprise and labor-to furnish a paper alike creditable to their intelligence and commensurate with the important character of the business relations of the Region. Our present object is to enlarge and otherwise improve the Journal, so as to make it a first-class newspaper, not only in the amount, but also in the character, of its reading matter ; and with our present facilities, we can safely promise to accomplish it, if our friends throughout the Region, will but do their proportion of the work.

The reputation of the Journal renders an explanation of its character unnecessary at present. In addition to its political celebrity, it is, also, known and, we hope, much valued, as a Family Newspaper; and for years it has, by universal consent, been recognized as the sole organ of the Anthracite Coal Trade of the United States. To the heads of Families .- The value of a good Newspaper in a family cannot be no highly estimated, It stores the mind with valuable-practically useful-information, at the same time its wholesome lessons of wisdom and morality appeal to the heart, exerting a refining and elevating influence : thus making the reader both wiser and better. The Newspaper is no respecter of persons : it addresses alike the rich and the poor, the learned and the unlearned, and aims to entertain and im-prove all classes, ages and sexes. Parents should, by all means, supply their children with reputable Newspapers---no better school-book can be provided them. They will often read "the paper," when they incline to read nothing else. It affords them a practical acquaintance with "men and things," and early teaches them what is go-

ing on in the active, busy world they are soon to enter upon. To young Men.—We appeal, particularly, to our young friends in different por-tions of the County, in behalf of the Journal. They must soon take the place of their seniors on the stage of action, and on them will then devolve all the responsibilities of republican citizens. In no country is the aphorism, "knowledge is power," more appropriate and truthful than here. It is a universal law of our nature that every man is the architect of his own fortune, but its application is peculiarly forcible under the fostering care of the Democratic institutions of this country. Ignorance is nexcusable, where the means of education are so general, and under the auspices of a wise and liberal government, talent must and will always exert its legitimate influnce-it never fails to be appreciated and rewarded.

Politicians. - The constant reader of any particular doctrine must necessarily imbibe, more or less, the sentiments of the author, and, if already a believer, grow stronger in his faith, or, if an opponent, in time become a convert. The effects of the liberal circulation of a political Newspaper may be measured accordingly. Especially is this observable, during the cessation of popular excitement—when the pub-lic mind is calm, less biassed by dominant prejudices, and the more willing to receive and appreciate the truth-it is at such times that the Newspaper is working regularly. calmly and effectually.

Printing Facilities-At an expense of upwards of \$2,500 we have procured a Power Press (the largest size in the State) and erected a Steam-engine to drive it. and otherwise extended our Printing facilities; so that we are now prepared to ac commodate any number of Subscribers. Since this is the age of steam and progress, we are determined not to be behind our cities in this respect.

Postage .- The Journal now circulates free of postage throughout the County ; and, after the 1st of January, 1853, under the new law, we offer to supply subscribers, in any part of the United States, paying in advance, also free of Postage: A new Volume and a new Feature.— The XXIXth volume commences on the 1st

of January, 1853, a favorable time for beginning subscriptions. Every friend and reader can procure a few additional subscribers among his neighbors, without much exertion-in many instances by merely asking a question or two. We need hardly contend that the information our paper furnishes annually is worth the price of subscription. The several departments, "Agricultural," "Scientific & Practical," "Informa-tion for the People," "Local News," &c., &c., as they are already sustained, com-prise an amount of valuable reading matter inferior to no other paper in the whole country.

On the opening of the new volume, the Journal will again be enlarged to the extent of nearly five columns, making it one of the very largest Newspapers in the State, and comparable in the amount and character of its reading matter with any other in the United States. We shall then, also, introduce the new feature previously announced-a Scientific Mining DEPARTMENT, under a separate head, to be devoted exclusively to the Mining interests of the United States-all improvements, inventions and discoveries, scientific and mechanical, will be recorded, for the benefit of ourreaders, at the earliest possible issue, and, at the same time, in a comprehensible and practical form. This department will be under the charge of a competent Editory employed specially for that purpose. With the several departments of our paper, Political, Local, Scientific and General News properly sustained, we hope to present the public with a first-class paper-one that will both entertain and instruct and one

suited to every variety of taste. TERMS :--Single subscription, \$2 per annum, payable in advance; six months \$1, free of postage in any part of the United States.
