

# The Miners' Journal

Saturday Morning, Feb. 12, 1904

B. BANMAN, Editor and Proprietor.  
LITTLE, Assistant Editor.

A New Life and Quarrel for Reflection.

It is not true that Religion is not taught in the Public Schools—Christianity, which is the foundation of Religion and Morals, is taught in the Schools of the State. Science, which differs very notably from Religion, is excluded.

The minds of children are as much taken care of in the Public Schools as they are in the hands of the Private Schools of the country.

If the Public School System were abandoned tomorrow, no more religious instruction would be found in the Schools than would be in the homes of the parents.

If Catholic Schools are so far superior to our Public Schools why is it that even Catholic children educated in these Schools will be found more free from crime than even the children of the Catholic Schools?

It is not that in Catholic education, where the Catholic Church controls education, crime, immorality and depravity are so rampant as in the other schools.

How many children educated in our Public Schools for a year or two, who are found on the criminal records of the Court?

AN IMPORTANT ROAD. The important fact which our friend EDWARD MOKES is the Engineer in Chief, has just been put under contract through its unfinished portion, from Hillsborough, Ohio, to the Ohio River bridge below Parkersburg, where it joins the Ohio line.

This line is now running in Hillsborough, Ohio, and is the longest unfinished part of about 112 miles in length.

ROMANISM VS. FREE SCHOOLS. There seems to be a simultaneous movement throughout this country, the part of the Romanism, to get the Government to take over the education of the children in the Public Schools.

The Catholic Prelate and his adherents are in the Legislature, having in view the same object attempted in this State, namely, to force Catholicism with the public money. A respondent of the Irish Times writes from the Legislature of that Government.

On the day following the writing of the above, the same correspondent writes that the Catholic Prelate and his adherents are in the Legislature, having in view the same object attempted in this State, namely, to force Catholicism with the public money.

Upon which the Pittsburgh Gazette, forcibly comments as follows: This is a little broader than the position taken here, and results, no doubt, from the fact that the Catholic Prelate and his adherents are in the Legislature, having in view the same object attempted in this State, namely, to force Catholicism with the public money.

AN EXTRAORDINARY CASE. A Bill has been introduced into the Senate of the Maryland Legislature, to explain an old Act, relating to servants and slaves, to meet a most singular case, the particulars of which are thus related in the Baltimore Argus:

It appears by the law referred to, that a white person guilty of marrying what is commonly called a "mulatto," the parties are liable to be sued, the man and woman, for a year of years. (If believe certain in a servitude, and the wife a slave for life.) The case referred to is, somewhat after this fashion married: A white citizen in this State, some years ago, married a female who he believed to be of pure white descent.

It is not that in Catholic education, where the Catholic Church controls education, crime, immorality and depravity are so rampant as in the other schools.

How many children educated in our Public Schools for a year or two, who are found on the criminal records of the Court?

## Local Affairs.

**Educational Convention.**—An Educational Convention of the Teachers and Parents of the Public Schools of the State, will be held in the City of Harrisburg, Pa., on Monday evening, Feb. 13, at 7 o'clock, in the Protestant Episcopal Church. The matter of the proposed convention has been discussed in the columns of this paper, and we are glad to say that it will be attended.

The interest manifested in the object for which the convention met, has shown a strong desire to have a meeting of this kind in this State, and we are glad to say that it will be attended.
