Engraved (by permi-sion) from Stituat's edge original portrait, in the Albeneum, Boston This superb picture, Engraved under the superinand highly glited artispeis the only correct likeness of Washington ever published. It has been characterized as the greatest work of art ever produced in this country. As to use fidelity, we refer to the left-ters of the adopted son of Washington, George Washington Park Custus, who says. "It is a faitful it-presentation of the celebrated original," and to Cheef Justice Taney, of the Supreme Court of the Bloid States, who says, "as a work of art its excellence and beauty must stike every one who sees it; and it is no less happy in this tikeness to the Father of his country. It was my good fartune to have seen him in the days of my boyhood, and his whole superiance is yet strongly impressed on my memory. The ortrait you have issued appears to me to be an excellence from an defauter of the face." And says Renator Cash, "It is a life-like representation of the Center, terrecenting perfectly the expression as well as the form and features of the face." [FROM THE "BONTON BER"]

The Editor said, Dec. 22nd,

Dr. Hooftand's Celebrated, German Bitters for the cure of fiver Complaint, Jaundice, Dyspeppia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbows asys he has himself received an effectual and permanent cure of Liver Complaint from the use of these Bitters, the patient constantly galms strength and vigor—a fact worthy of great consideration—
They are pleasant in taste and smid, and can be used by prisons with the most delicate stomache with actey under any circumstances. We are speaking from experience, and to the afflicted we advise their use.

"Court" Werkerk," one of the best Literary papers published, and, Aug. 25—
"Dr. Hooftand's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a boile, and thus save the mastyce much suckness. Persons of debilitated constitutions will find there Bitters advantageous to their health, as we know from experience the salutary effect they have upon weak systems."

THE SCHOOL QUESTION. The Roman Catholic Bishop, in this city, sets out in his "Letter No. 2" with a most gross and groundless reflection on the men who have been taught in our Common Schools. With an air of deep emotion he exclaims, "Oh! it is not in them the men are formed who are the bone and sinew of the Commonwealth." The insinuation is slanderous to the very men who are our pride—the men who, from humblest walks of society, are furnished with the substantial information which else were out of their information which else were out of their reach, and who rise every day, all around us, Richard Cour de Lion died like an animal to stations of trust and honor. They are in from which his heart was named, by an ar. our Legislatures, in our Pulpits, and in our ow from an archer.

John died nobody knows how, but it is supPublic Schools are they who are constantly

which it would puzzle all the collège of physicians to denominate.

Edward the Second was most barbarously, indecently murdered, by ruffians employed by his own mother and her paramoir.

Edward the Third died of dotage, and Richard the Second of Starvation, the very reverse of George the Fourth.

Henry the Fourth is said to have died of a king palaces, in those times, was a very common complaint.

Henry the Fifth is said to have died of a very painful affliction, prematurely. This is a courtly phrase for getting rid of a king.

Henry the Sixth died in prison, by means known only to his jailor, and known only in heaven.

Edward the Second was most barbarously, alleged that at the head of those who have been pupils in these institutions. But when the editor is challenged by a city paper, (the New York Times,) to make good such a false accusation, he is silent.

Romish prelates very well know that any measure which would break down our grand system of popular education, would undermine the foundations of our Republic, in which, as the Common School Superintendent will remarks, "the training and disciplining of the community is in lieu of the soldlery and, police regulations of despotic governments."

The Bishop's complaint is of Tar, of Ma-

snow him, without state or blackboard, that stance in which God ever touched his heart.

George the Third died as he lived—a madman. Throughout his life he was at least a consistent monarch.

George the Fourth died of gluttony and frunkenness.

Solo is more than four times as much: and if he can make out by his arithmetic, that \$200 is more than four times as much as \$11.75 multiplied by fire, we will listen to frunkenness.

Sil.75 multiplied by fire, we will listen to his improvement on our Public School System. William the Fourth died amidst the sympathies of his subjects.
