sure. There may be instances where the zeal of a member has been so great as to lead him to manifest a spirit of intolerance, but the whole institution cannot be judged by the standard of one man's actions, and its ciples. Where the forests are falling before to be properly appreciated by every American citizen. It originated in feelings which have pervaded the laboring masses of Americans for many years, and its principles have existed as long as the need of mutual assistance and protection has been known, and its organization is nothing more than an embolance and protection in such from the savages, he displayed that cool courage, and sound judgment which stamped him at once as a soldier to be relied upon, in the bour of danger and difficulty; and whether leading his little band of frontier-men through the intricate paths of the western wilds, and protection in such form that the benefits may be diffused with justice and prothe sturdy blows of the woodman, cities and diment of these principles of mutual assisting the intricate paths of the western winds, tance and protection in such form that the where every thicket and dark ravine might, conferring benefits. They have within their tance and protection in such form that the where every thicket and dark ravine might, conferring benefits. They have within their tance and protection in such form that the where every thicket and dark ravine might, conferring benefits. They have within their tance and protection in such form that the where every thicket and dark ravine might, conferring benefits. They have within their tance and protection in such form that the where every thicket and dark ravine might, conferring benefits. They have within their tance and protection in such form that the where every thicket and dark ravine might, conferring benefits. They have within their tance and protection in such form that the where every thicket and dark ravine might, conferring benefits. They have within their tance and protection in such form that the where every thicket and dark ravine might, conferring benefits. They have within their tance and protection in such form that the where every thicket and dark ravine might, conferring benefits. They have within their tance and protection in such form that the where every thicket and dark ravine might, conferring benefits. They have within their tance and protection in such form that the where every thicket and dark ravine might, conferring benefits. They have within their tance and protection in such form that the where every thicket and dark ravine might, conferring benefits. They have within their tance and protection in such form the whole and the protection in such form the whole and the whole and the protection in such form the whole and the whole

worthy recipient of benefits in return. These dividual to gratify the cravings of ambition. His fields were won with the least possiver and virtue do not conflict in any way with that universal sympathy and benevolence which should characterize the true man; nor does their acknowledgment in a system like ours, tend in the least to undersuppose and destroy, the kindly relations which.

material for mental improvement.

The permanency of this institution will ought to exist among the great brotherhood of mankind.

Wel deem them essential to the security, prosperity and happiness of the American mechanic, and while they are made in favor of him who was born and reared to manhood upon the soil consecrated to freedom by the blood of his revolutionary sires, they are not designed to war, in any way, upon the rights and privileges of those who take upon themselves the solemn obligations of citizenship, conferred by the laws of naturalization. It is a duty incumbent upon every member to uphold and sustain the laws of the country, covered with the shield of the solemn obligations of citizenship, conferred by the laws of naturalization. It is a duty incumbent upon every member to uphold and sustain the laws of the country, covered with the shield of the forest to the majesty of the sanction of this Order, has ever been found wanting in respect to the majesty of the power necessary for the government and protection of every

The permanency of this institution will depend, like all others, upon the intelligence dand enterprise of its members. If these be wanting, it will soon cease to afford sufficient the serve interest to keep it alive. The pecuniary benefits it confers may, for a time, hold its members together, but these will be exhausting the night and prayed to the God of battles, the night and prayed to the God of battles, the solemn obligations of citizenship, conferred by the laws of naturalization. It is a duty incumbent upon every member to uphold and sustain the laws of the country. Contained for the last time, with the fores of his country. On that field Tyles and no one, with the sanction of this Order, has ever been found wanting in respect to the majesty of the power necessary for the approaching day, he communed with the prophet voices of the trength and gathered to strengthen its powers, and then it is most to find the sheld of the sit of the sheld of the same to the strength and enterpr

a frequent exercise of its powers, the understanding gams fresh vigor.—Addison:
