NEW YORK LETTER.

[FROM OUR OWN CORRESPONDENT.]

NOX

slow but sure."

NEW YORK, Apgust 1, 1853. DEAR JOURNAL — For vears past the last week in July has been a literary carnival, when newy indigen graduates of our Colleges left loose the nerves during file month of July, were 7 Steam-ers 94 Brigs, 601 Schonlers, 65 Sloops, 160 Barges, and 369 Canal Brage—total 1146. Speaking of Restmond, the large improvements projected by the likeding Railroad are that ap-the week, which has just passed; out of town yale. Hayrard, Runger's, Hobart, Hamilton and Princeton, and in the City, our own venerable Co-tumbus has enlivened the dull days, of midsimmer with her issival. Ninety-nine years has she par-sued her onward course and never, under more prosperous auspices than at the present day. Long may she live and grow, and may ten lives and grow, and may ten live and grow and may ten live and grow. and may ten live and grow and may ten live and grow. and may ten live and grow and may ten live and grow. and may ten live and grow and may ten live and grow. and may ten live and grow and may ten live and grow. and may ten live and grow and may ten live and grow. and may ten live and grow and may ten live and grow. and may ten live and grow and may ten live and grow. and may ten live and grow and may ten live and grow and may ten live and grow and may ten live and grow. and may ten live and grow and the second The work out by proper training, would challenge in we are behold my Anna Mater flourishing as now. Next year we shall celebrate her Centenni-the work. To appreciste the powers of these now. Next year we shall celebrate her Centenni-tory of marking is and 1 lippe as work of the w

1 with the youth of the coming year. The present College edifice, time-worn and venerable, (and what seat of learning does not look the better so) is now sifuated in the heart of the business part of the transpace of their with in one way, some in another, and rives it as his pointon the City and Will in a few years give place to building to be erected on some of ther property a tew miles farther out of town. The subject of Literature leads me to speak of a high compliment paid to Lient. Maury, the emisting the contraction of our Navy, who left the city ladding in the contract of Rayxono's speciation. The scientific contends were to here at Speciation. The scientific contends were the city is a speciation. The scientific contends were the following in its speciation. week to meet at Brussels a scientific convention of the powers of Europe, and make arrangement tors system of observations of needed with his celebrared Wind and Current theory. A number of our emit their merchants presented him with a position What the content theory. A number of on this ment merchants presented him with a package on his departure, which on being opened was found to contain five thousand dollars and a service of plate. compliment from such men was highly valu-
