Within the past ten years disastrous losses have been met with in some parts of Europe, by dealers in cattle, from a comparatively modern disesse named pleuro-pneumonia; it is most prevalent in the marshy districts of Holland, but is not confined to them. The symptoms of it are like inflammation of the lungs, but remedies, ordinarily used for that disease, have failed to be any use in this. How this disease came to be first introduced is difficult to tell. but from what we have

read upon the subject, we are of opinion that it was first caused by bad ventilated Dr. Swayne's Sugar Coatril Sarsaparilla and stables, and feeding a great, number of am.
