Dear Sir:—You ask me for my opinion of "Silver" Mineral Painta," which you have put on my Machine Shop and Planing Mills. I give you, with pleasure, my full and hearty recommendation of it as a preventative of Fire compositionating from Chrimneys, or from adjoining buildings. The paint which you put on my roofs, has now become as hard as start, and I feel as accura from Five, in this direction, as is possible. A few weeks after the roofs had bren painted. I made an experiment on two or three shingles by placing them in the furnace under the bollers, the result was, that the portion uncovered; was entirely consumed, while the Fainted pair, war apparently sound, though upon examination the wood was found to be charred; the Paint, however, was "gas and but little histered, I consider this as gevere a test as your Paint can be put to, and under the circumstances I do not he situte to command it agan tavaluable.
