DEVLAN'S IMPROVED OIL.
THE OIL has the most extension use, and is more highly recommended for unachinery, than any other Oil in the Markel working than and free from going it is warranted in all cases to be just what it is repommended, of no sails. Operators who use machinery will find, upon trial, that it is the cheapest and best Oil adapted to their uses.
Orders left at PRANK POTT'S Hardware. So ore or MYER STROWSE'S Liquor Store, Agents for this country, will be promptly attended to. June 25, 1853. 26-16 TAY RTHERILL & BROTHEB. Manufacturers, No. V 65, NORTH PHONT atreet, Philadelphia, have flow a good supply of their warranted pure Will'E LEAD, and those customers who have been sparingly supplied in consequence of a run on the article, shall now have their orders filled.

No known substance possesses those preservative and beautifying properlites, so desirable in a paint, to an equal extent with junadulterated while lead; hence any admixture of other materials only mars its value. It has, therefore, been the steady alm of the manufacturers, for manny year, to supply no the public a per-

it has, therefore, seen the steady aim of the manufac-turers, formany yeria, to supply to the public a per-fectly pure white lead, and the unceasing demand for the article, is proof that it has mot with favor. It is invariably, branded on one head; WETHERILL & BROTHER in full, and on the other, warranted pure, attic and latters. Philada July 18, 1951 BLAKE'S Patent Pire Proof PAINT. HLARE'S Patent Pire Proof PAINT.

FROM OHIO.

THE Subscribers have just received a further suggested to the state color, they have a beautiful chocolate or brown, rescubiling the sand atone now in the, and so much admired for the front of buildings. It principal ingridients are silles, aluminand protoside of from, which in the opinion of scientific men satisfactorily accounts for its fire-proof nature—the two former substances being non-conductors, and the latter acting as a cement, to bind the whole logester and make a firm and durable pafar.

For use it is mixed with Linesed Oil, and applied with a brush, the same as ordinary passat, to wood fron, the, rine, canyass, papsa, de. It hardens gradually and becomes fire-proof. The particularly solisable for roofs of buildings, steamboat a id car-decks railroad bridges, senses, &c. A loof costed with the article is, qualito who of state, at a wast saving of expense. ense.

Specimien smay be seen at the office of the subsertiers HARRISON, BROTHERS & Co.,

No. 434 South Front St., Philada.

Steam Plan ng Mills.

Dear Siz - You ask me formy opinion of "River"
Mineral Prints," which you have put on my Machine
thop and Planing Mill 1 give, you, with pleasure,
we will add heary recommendation of the same. which and Planing Mili I give you, with pleasure, my rull and heatty resommendation of it as a preventative of Fire communicating from Chiuntys, or from adjoining buildings. The paint which you put on my robis, has now become as hard as starm, and I feel as Secure from Fire, in this direction, as is possible. A few weeks after the roofs had been painted, I made an experiment on two or three solingles by plating them in the furnace under the bollers, the result was, that the portion uncovered was entirely consumed, while the Painted part was apparently sound, though upon examination the wood was found to be charred; the Paint, however, was rimm and hullitle blistered. I consider this as severe a test as your Paint can be put to, and under the circumstances I do not hesitate to rommand it as an invaluable preventative against Fire. Respectfully, &c.

Southard, of New Jersey, and pawell them with great tenderness: Both Hale, who has been urging, for several years, and pawell them with great tenderness: Both Hale, who has been urging, for several years, who as Pro-ident proteins of the Serate, the adoption of one fixed und by al. the performed the duties of Vice President under the littless, she raised her head towards their inc. in a recent letter on the subject save.

When the was alwated to the Chief Magistracy by the death of Gen. Harrison, died white serving in that capacity, in 1842 .- Cincumati Enquirer. We once heard of a young lady who cant

man, reproced hug for hug till the surprised recognised as our flord and benefactor, and even among the learned as we are advised bear let go its hold. It had ventured this a brotherhood in happeness as the great sain by the fellowing, which we cap from the Parlor Magazine :--"When Dante, published his " Interno." the simplicity of the agencepted it as a true narrative of his descent into hell. "When the Utopia of Sir Thomas Moore was first published, the learned Budaeus and others took it for a genuine history, and conthe Mexican people nor to make war upon sidered it as highly expedient that mission any triendly power, but to repel attacks from the should be sent thither in order to convert so wise a nation to Christianity. "It was a long, while after publication, that many readers were convinced that Gulliver's Travels were fictitious, y "The "Hermippus Redivious," of Doct. ampbell, a curious banter on the hermetic philosophy and the universal medicine, degived, for a length of time, the most learned I that day. His notion of the urt of proonging life, by inhaling the breath of young comen awas engerly credited. A physician. who himself had composed a treatise on bealth, was so influenced by ie, that he octuilly took ledgings at a female boarding school, that he might never be without a constant supply of the breath of young ladies.

In a catalogue compiled by a French writer of Works of Natural History, he has neerted the well-known essay on Iruh Bulls, by the Edgeworths. EXPANDING THE CHEST.

The Scientific American tays, those in eadiscussioners, or those who pursue sedentary employment within dours, use their lungs but little, breathe but little air in the chest, and thus, independently of position, New York Times states that a company has contract a wreichedly small chest, and lay been organized, and the stock subscribed, for the loundation for the loss of health, and beauty. All this can be ob i ned by a little attention to the manner of breathing. Recoffect the lungs are like a bladder in their structure, and can stretch open to double The distance will be 2,890 miles cost less size with perfect safety, giving a noble chest and perfect immunity from consumption. The agent and only agent required, is the common air we breather supposing, however, that no obstacle exists, external to the chest, such as twining it about with stays, or having the shoulders lie upon it. On rising from the bid in the morning, place vourselt in an erect posture with your head brown back and your shoulders entire off from the chest, then inhair all the sir that can be got in; then hold vour breath and throw your arms off behind; hold your breath as long as possible. Done in a cold breath is much better, because the air is

he stars and the sky, and that wast and magnificent firmament in which the Lord ha placed them. I could nowhere discover the olumns on which the Master has supported

pended; and yet they did not fall upon ue, but saluted us rapidly and fled away. These miracles, as Luther called them. filed him with unconquerable trust and joy, in God. Well they might. So may they us. We see them wrought belore us every night and every day.
