POTTSVILLE, PA. _____ SATURDAY, MARCH 18, 1854. THE MINERS' JOURNAL has a lar ger THE MINERS JOURNAL has a larger circulation, than any other Newspaper published in Northern Pennsylvania. It circulates
among the Coal, Iron and business men, not only
in this and the adjoining counties, but in all
our cities, and it also circulates largely among
the masses in Schwylkill county, which renders it
one of the most valuable Advertising mediums in
he County. But few papers have so many capia lists enrolled on its subscription list.

Corregment and Public School Teachers will be supplied with The Miners' Journal at \$1 per annum, in advance.

AGENTS FOR MINERS' JOURNAL: David J. Lewis, M. Carmel; Isaac F. Davis, Ashland.

ISAAC F. MAYIS, AShland.
FREDERICK LAUDERBRUN, Tamaqua;
THOMPSON A. GODFREY, Tremont;
CHARLES H. HUBBARD, 71 Pine St., New York.
C. F. NORTON, Cost Merchant, 521 Walnut St. Philadelphia.

Who are authorized to receive subscriptions, as

RIGHT OF PETITION.—From the proceedings in Congress, in another column, it ceedings in Congress, in another column, it will be seen that a serious blow has been aimed at this inalienable privelege of the regular monthly meeting in this place on Monday last. An irregular proposed in the proposed of the regular proposed in the proposed of the miners to record of the regular proposed of the re people. The debate in the Senate on the go to work at 35 cents, but it was not assented to remonstrance of the New England clergyman against the Nebraska Bill was most until the lat Monday in April." unheard of. Mr. Douglas' speech is outrageous and disgraceful to the body of which he is a member. In the House, the same remonstrance was positively refused, though perfectiv respectful in language, it will be seen, and drawn up, and presented in the usual form. We shall publish the whole debate next week, and take occasion, at the same time, to say more on the character and dangerous tendency of these proceedings.

GRAND JURY REPORT-QUESTIONABLE RIGHT OF THE COURT .- We publish in another column the last Grand Jury Report, or as much of it as the Court allows to be published. Certain portions of it, as originally presented, the Court declared, no doubt very properly, extra-judicial, and ordered their suppression in copies for the public.

The assumption of such authority by the Court is certainly of very doubtful policy, to say nothing of the legality of the proceeding. In this particular case, it mattered but little, since the suppressed parts of the Repart were of no material importance; but the tendency of such autocratic dictation, on the part of the Bench, is to disturb the independence-the vital essence-of the co-ordinate branches of the Court, and ultimately to corrupt the fountains of Justice.

TO CONVERTED .- As an instance, of the change of sentiment on the Liquor question, in this County, we cannot help noticing the following, from our own personal cognizance: Two merchants, respectable and upright in their business connections, not a dozen unles from Pottsville, discontinued the Jour- Increase in 1854 so far, . . . tons, 75,289 16 because we were hard down on the dealers ra liquors, themselves included. They sub-sequently re-subscribed; and a few days ago. To Richmond 1,70 1,65 1,45 1,50 To Philadelphia, 1,60 1,55 1,35 1,40 to looking over a list of names to a Maine Law Petition, we found both their names recorded in real John Hancock siyle, and we From Port Carbon to Philadelphia. understand they have determined to discontinne the traffic in their stores before long, whether the Law passes or not. The fact is, the Rum business in this County has been effectually working out its own destruction for some years past. No sensible man can see its effects, moral, physical and financial, throughout the Re- SCHUYLKILL COUNTY RAIL ROADS-1854

gal restraint upon the traffic than that exercised by the present lawe. We appeal to
evary honest, reflecting man in the community,—is it not so?

SUPPLEMENT TO THE ACT INCORPORA

ting the Pattivulle Water Company approved the Elecenth day of April, Anno Domini one thousan Enght hundred and thirty four.

plaintiff, or I no appeal be entered within twenty days from the filing of said sward, it shall have the effect of a judgment and be collected in like manner. And it upon the filing of said award, the said President and Managara shall pay the same, or give addent and Managara shall pay the same, or give addent and Managara shall pay the same, or give addent and the said Court for the payment thereof, or of sand some samey be finally awarded against them with odets, they shall be allowed and are hereby amborized and suppowered to enter on and in said land and successary with the necessary segment, workmen, tenms, tools and implements, and proceed torthwith to the construction and completion of all works necessary to carry into full effect the objects and purposes altereadd, and of the act to which this is a supplement; and the same to alter, repair or renew whenever and wherever they may doen necessary, without any let or him drance from the owners of said lands. And where the owners of any of the lands on which the said SUMUTERILL NAVIGATION CO. OFFICE OF THE SCHUYLKILL NATION CO., } they may deem necessary, witsout say let or him drance from the owners of said lands. And where the owners of any of the lands an which the said Company has located any part of its works as aforeraid, are not known or cannot be found, or if known, are not legally capable of emering into an agreement with said Company; the said President and Manager's shall proceed to have the damages ascertained in the manner hereinbefors provided for, where the owners are known and capable of acting and give accurity as aforesaid, for the amount of damages found or awarded by the Jury, or what may be ultimately adjudged against them with costs, siter which they shall be allowed to proceed with their works on said tand as hereinbefore set forth.

Section 7. The said Company shall at all times have the diberty and privilege to dig diches or trenches, and to lay pipes or trunks in, across, and isong all public roads, highways said streets, and to alter, repair and renew the same as often as they may find necessary, shutting up and amending any branches they may make as soon as practicable.

Section 8. The said President and Managers The chapte for the use of Cam, and for Toll on Lattractic Coal carried on the SUHUYLKILL NAV-GATION, will be as follows until July 1sr, 1854: Cents Cents Cents Cents Bridgopost, Norristowa, Port Kennedy Valley Forge, Pawling's Dam, Port Providence Phonicytile.

SECTION 8. The said President and Managers SECTION 8. The said President and Managers are hereby suthorized to supply with water, the inhabitants of the Boroughs of St. Clair; and Port Carbon, and of the Boroughs of St. Clair; and Port Carbon, for all domestic and manufacturing purposes, and for all stationary and locomutive engines betonging to individuals or companies within the said limits, or within the Borough of Pottsville, and all that may be along or near the route of the said Company's pipes, and shall have all the rights, powers and privileges as to entering upod land and enclosures and laying down pipes in streets or roads and highways, and of erecting hydrants or fire plugs within the said Boroughs. Towns and limits, as is hereinbetore conferred, or is conferred by the act to which this is al supplement, in rela-The charge will be per ton of 2210 lbs., less five per cent, allowance for wate, as usual, and no charge less than twenty-five cents per ton will be unde for any distance. By order of the service of the serv limits, as is bereinbefore conterred, or is conterred by the act to which this is a supplement, in relation to the Borough of Pottsville. And of contracting with the said inhabitants, or any. Companies for the use of said water, within the limits aforesaid, who shall be liable to the same penalties for taking water from their pipes without contracting for its tree, as are contained in said Act, and shall be subject to all such rules and regulations: PHILAD'A & READING RAILROAD. OFFICE OF THE PHILAD'S & BRADING R. R. Co. Philadelphio, March 2, 1854. }
The Bater of Preight and Tolls on Coal transported by this Chimonay, will be as follows, from March 1 to July 1, 1824:

shall be subject to all such rules and regulations' respecting the use and waste of said water, as the said President and Managers may from time to time prescribe and sdopt. Provided, That before the Boroughs of Port Carbon and Saint Clair shall be supplied as afore-aid, the Councils of the raid Boroughs shall respectively enter in an agreement with said Company, to guarantee remi-annual dividends of three per cent, on the additional cost of supplying said Boroughs with water respectively, if the next income from each shall not be count. stay per centi per annum on the said additional cost of supplying water to each, under the same provisions as hereinafter contained respecting the guarantee to be given by the Borough of Pottsville.

Szerion 9. It shall be the duty of the Treasurer Section 9. It shall be the duty of the Treasurer of the said Company, to keep tair and correct accounts of all montes received and paid out by him, which payments ishall be made only on orders drawn on him, signed by the President of the said Company, and the said President and Managers shall keep a correct account of all orders drawn by them on the Treasurer, and for what purpose the money was expended, for which said orders were drawn. And it shall be the duty of the said President and Treasurer, as early as practical, after the

hereby authorized; and the number or shares held by each, and also an account of the receipts and expenditures up to that time, particularly stating the amount of money expended in bringing in and introducing the water from Mill Creek or elsewhere, as authorized by this act; into the said Borough of Pottsville, which shall be verified by the oaths or affirmations of the said President and Treatiers, which said amount shall then he examined surer, which said amount shall then be examined by the Auditors elected to audit; the Borough ac-counts, and compared with the vouchers and books of the said President and Treasurer, and if the said Auditors shall find the saidths and account correct. thousant eight hundred and therty four.

Section I. Be it enacted by the Senate and House of Representatives of the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hareby enacted by the authority of the same. That Strange N. Palmer, Charles W. Pitman, Daniel Shartle, Bernard Reily, Benj. Pott, Charles Lord, Jacob Hunizinger, Jr., William Johns, and Jonsthan Johnson or any four of them are hereby appointed Commissioners to do and perform the several matters and things hereinafter mentioned, that is to say, thus they shall on or before the first day of March next, procure two or more books and enter therein as follows: We whose names are hereinto subscribed, do promise to pay to the president and Treasurer, and if the said relation the money has been expended in effecting the objects authorized by this act, they shall certify the same to the Town Council of the Borough of Pottaville, which said account and list shall be accompanied by the best estimates the said President and Managers can make of the probable neft income applicable to dividends of the said Company for the ensuing year, and if it shall appear from said account and estimates the said Company for the ensuing year, and if it shall appear for the ensuing year, and if it shall appear to them that the money has been expended in effecting the objects authorized by this act, they shall certify the same to the Town Council of the Borough of Pottaville, which said account and list shall be accompanied by the best sentimetes the said President and Treasurer, and it shall appear to them that the money has been expended in effecting the objects authorized by this act, they shall certify the said account and its shall appear for the them that the money has been expended in effecting the objects authorized by this act, they shall certify the said account and its shall appear for the said Company to the best of the probable neft income applicable to dividence the said Company to the ensuing year.

of March next, procure two or more books and enter there is follows. We whose names are here and silvolves. We whose names are here and silvolves who whose many are here and many and the silvolves who whose the said of the provide the silvolves whose and the silvolves whose are the silvolves whose and the silvolves whose and the silvolves whose are the silvolves whose and the silvolves whose are the silvolves whose and the silvolves whose whose whose are the silvolves whose w

ply of stationary or locomotive engines, or shall bathe in any dam or reservoir of said Company, or throw lead, or enter any animal into the same, on being convicted thereof, before any Justice of the Peace of the county of Schuylkill, on the oath or affirmation of any one or more creditable witnesses, shall pay a fine of not less than five, nor more than the property of the said Company of the said Com bathe in any dam or reservoir of said Company, or throw lead, or enter any animal into the same, on being convicted thereof, before any Justice of the Peace of the county of Schuylkill, on the coath or affirmation of any one or more creditable wincesses shall pay a fine of not less than five, nor more than twenty dollars, one-half to the use of the said Company and the other half to the use of the said Company for all damages.

Section 13. The owners of the Freehold, in and upon which the said water is taken and used.

February 25, 1832

pany, as hereinhesore directed, or the said board may appoint other. Commissioners to do and perform the same thing.

SECTION 4. That the election for Managers of said Company shall be held annually thereaster, on the second Monday in January, of which the President and Managers shall give notice as required by the afore-said act.

SECTION 5. The said Pottsville Water Company shall havis power, and are hereby amborized to bring into the Borough of Pottsville a sufficient supply of fresh and pure water from Mill Creek, or any of its branches, or elsewhere in the County of Schuylkill, by means of pipes or trunks, or in any other way, and to construct reservoirs for the

Manufacture of Wrought Iron direct from the Ore. whether consists of a new and improved method for making Wrought Iron lirect from the ore, by mineral coal or wood. The Firmace, as represented by this plate, such as of a brick chamber, in which is included a girle of Ire-brick tales, connected and joined to a pandiling or we him formace. The mode of operation is as follows:— The ore tellest pulvetized, and, after have been induced with a certain per century

The tubes being filled, are mustly tell open at the top, so that the carbonic acid gas, which is generated by the exygen of the ore yielding laself up to the carbon mixed therewith, may except closed, heating them to a high roll seat, unit the ore has given up all its exygen, and is thereby fully brought into the metallic state. After the ore has given up all its exygen, and is the roly fully has thus become sufficiently decayided, it is dropped into the ore box and from themes it falls, by one half, and taken themes to the harmer. The ore to thus kept free from the amospheric air and all directives influences of the fiame and gases. direct influences of the flame and gasea.

The districtive proullabile and superiority of the purvace over all others is, that by hermanical arrandoments the cremical change when is connected and carried on the tree states in not investigated until the ball is bready for the harman thready expected the manufacturing of Wrocourt Iron into a practical behavior, thereby expected the manufacturing of this method over the old meshes are as follows, to will be a superior of the manufacturing and the manufac

The eres yield a greater per centage; The iren is more uniform, and of a better quality; It is made chemper, and does not require such a heavy outlay of capital. The investion has already had the rigid scrutiny and examination of experienced practical from The invention has already had the rigid scrutiny and examination or experienced procuration nanufacturers, who units in commending it.

The owners of the invention invite the investigation of the reignitific and practical man, as well as the capitalist, being assured that it will amply repay times who may take it their attention.

The American Iron Combany of Newark, N. J., who were the first to introduce this method into practical use, have purchased the right for the State of New Jatsey, and have created what has Newark, at the foot of Parker Street, on the Passalc River, where they have now two turnaces in encocast ful operation, and they contemplate the erection of additional furingers, rolling mults, Ac. The formaces now at work will each turn out two tons per day of twenty four hours.

The invantion is exciting much attention, and negotiations are now in progress for the creation of a large number of furnaces. Several States and Counties, and rights for lives have already been discussed of. posed of.

Ferrors destring to see the furnace in its operation, or to make inquiries for the purchase of rights, in this or other States, are invited to make application to Mr. A. H. BECWN, at the Office of the American Iron Company, No. 107 Market Street, Newark, N. J.

Lithographic Plants are ready, and will be provided for those who may wish to erect furnaces. Circulars may also be obtained, giving full information in regard to the invention.

The above cut, with the accompanying explanations of what is now generally conceded to be the most apportant improvement of the day in the business of fron making, will doubtloss be of peculiar interes is known that the ordinary process of manufacturing iron is both tedlous and complicated. The as is abown that the ordinary process of manufacturing from is both tellous and complicated. The ord so first to be robated, in order to de oxydize it and to separate the sulpide; it is then cleaned and afterwards "revived." in a blast turnace, when the melted metal is drawn off in "pigs." These existing pigs "a resubsequently broken up, re-heated and hammered, to convert them into "blooms," ((mpure wrought from) before they are made available in the various processes of manufacture to which the metal satisfies. All this costs time, labor and money; but Renton's patent does away with all the intermediate abor, and reduces the manufacture of wrought-from direct from the tire to a single operation; that is the ore being properly calcined and crushed into a granular state, the unimate transformation from one state of the other, including all the idtermediate grades, is conducted in one furnace and with the aid of only one dire.

to the other, lactuding all the idtermediate grades, is conducted in one furnace and with the and of only one fire.

The furnace of the Co. at Newark alluded to, has been in constant operation, ni, lit and day, for the laid several months, and his in all respects come up to, if not exceeded, the most sanguine expectations of the friends of the patient. It produces two full gross tone regularly, every twonty-fair hours; and on Saturday life, we learn from the Superintendant of the works, it turned out 5100 bias in that space of time.

Antiractic or bituminous cost, or wood, may be used for fuel, according to the preferences of workmen. The fine siftings of Bituminous are monthly used for Carbon, in the process described above.

The lavention is attracting very general attantion. It has been pronounced by scientific men, as well as practical from sunfacturiers, decidedly superiors to be old method of, making wrought from and the new plan will most probably be brought into general use before many lyears.

In addition to the present establishment, the Company are now erecting, and have nearly completed, a new furnace, of improved de-oxydizing capacity, which is expected from that nect to work even better than the one now in use.

The Scientife American, in a late article on the subject, concludes with this flattering reference to the above patent: hem on the Treasurer, and the models and orders were money was expended, for which said orders the completion of the works authorized by this act, and the introduction through them of the water from Mill Oreck or any of its branches, or elsewhere, into the Borough of Pottsville, to make where, into the Borough of Pottsville, to make where, into the Borough of Pottsville, to make where, into the Borough of Pottsville, to make the order of the subject of the subject, concludes with this flattering reference to the sock hereby authorized, and the number of shares held hereby authorized of the such as a share of the said of the order of the such as a share of the said of the order of the such as a share of the said of the order of the said of the said of the said of the order of the said of the desiron of it, adopting it to the requirements of modern art, is what is accompushed in the process and consideration.

"The proprietors of Region's patient have also purchased that of Aigh. Dickerson, and their joint claims of the proprietors of Region's patient have also purchased that of Aigh. Dickerson, and their joint claims and at the same time prevent the products of combustion from coming directly in contact with the one, and likewise permit the charge of de oxydized one to descend into the puddling chamber without exposure to the atmospheric air. The ore how or funnel-suaped chamber, is also covered by the chaims.

"This is one of the most perfect processes now before the public. We think is likely to effect a revolution in the mode of maku facturing iron. It seems certain that wrought him can, in this way, be manufactured 30 per cent, cheaper than by the old process, and we about he glad to; see it adopted by; our iron-masters generally."

[March 18, 1854]

PHILADELPHIA. J. E. EDENTORN & CO.

NORTH-EAST Corner THIRD and RACE Streets, I Philadelphia. Importers and Wholesale Dealers in Fereign and Domestic Tobacco, Sunf and Negara. The above firm having recently opened their new and commodious establishment, are now propared to furnish every article in their line of business, of a superior quality, and at the lowest market prices, embracing all the different grades and qualities of Chewing Tobacco, choice imported Segars, of every description. WELL DONE NEW HAMPSHIRE! THE LEGISLATURE OPPOSED TO THE ADMINISTRATION! Concord, March 16-Later returns give a different complexion to the election.: Thère is a Whig and Free Soil gain of 91 members of the Legislature over last year-157 Whigs and Free Soilers are chosen, 154 being a majority of the house. Baker's majority caunot exceed 1500 in the State. It is now considered a matter of absolute certainty that no supporter of the Nebraska bill can be chosen U.S. Senator by the Legislacitement.

ture elect. The city is in a tempest of ex-[SECOND DESPATCH.] CONCORD, March 16-Later returns show the election of 138 Democrats to 145 of other parties. The towns yet to be heard from. elected last year 23 Democrats and 2 Whigs.

The Democrats have elected 8 out of 12 Senators. [THIRD DESPATCH.] Boston, March 16-The latest despatches om Concord state that returns had been received from all the State, except about tweny small towns. Many of these will elect Vhigs, and from what has been received, 145 opposition and 127 Democratic members of the House are elected. Among the latter are said to be 12 of Mr. Burke's old Guard, decidedly hostile to the administration, and who will not co-operate with the Concord regency. In 178 towns the nett democratic

loss on the Gubernatorial yote of last year is 3322 votes. MAYOR OF SALEM, MASS. A telegraphic despuich dated Salem, March 16, says, -Mr. Andrews, a Know-nothing, was elected Mayor of this town, to-day, by a

vote of 1250 to 500 for the Whig candidate. Boys, do you hear the storm coming? FROM EUROPE. Warlake, News confirmat.

tion was probable. CONGRESSIONAL. SENATE, 14th .- Mr. Everett presented a memorial signed by 3000 clergymen, against the Nebraska bill. when folded appeared about three feet long b one foot thick. At the request of Mr. Douglas it was read as follows:
"To the Honorable, the Senate, and the House of Representatives of the United States, in Congress assembled: "The undersigned, clergymen of different religious denominations in New England,

hereby, in the name of the Almighty God and in his presence, do solemnly protest against the passage of what is known as the Nebraska bill, or any repeal or modification of existing legal prohibitions of slavery in that part of our national domain which it is ed to organize into the territories of Nebraska and Kansas. "We protest against it as a great moral wrong; as a breach of faith eminently injurious to the moral principles of the community, and subversive of all confidence in national engagements; as a measure full of danger to the peace and even existence of our beloved Union; and exposing us to the righteous judgments of the Almighty.
"And your petitioners as in duty bound,

will ever pray. Dated at Boston, Massachusetts, the first day of March, A.D., 1854. Mr. Douglas, in the course of some few remarks, denounced the memorialists and impugned their motives. He characterized their charges against the Nebraska bill as a for political effect.

Mr. Houston replied, defending the right of the petition. It was evident that the petitioners thought that there was something radically wrong in the bill. He said that there was nothing monstrous, in the niemorial. He had, on the floor of the Senate, denounced the bill as a flagrant breach of faith. towards the Indians and towards the Com-

After considerable discussion, Mr. Pettit

bjected to the petition, because it was pre-

ented in an ecclesiastical form.
