## The Miners' Journal POTTSVILLE, PA. SATURDAY, AUGUST 12, 1854. THE MINERS' JOURNAL has a far grain than any other Newspayer sub-ger circulation than any other Newspayer sub-lished in Northern Pennsylvania. It circulates among the Coal, from and business men, not only en this and the adjoining counties, but in all over cities, and it also circulates largely among the masses in Schunkill county, which renders it one of the most valuable desertining mediums in the County. But fee payers have so many capi-talists enrolled on its subscription list. AGENTS FOR MINERS' JOURNAL: DAVID J. LEWIS, Mt Carmel; isaac F. Davis, Ashland. ISAAC F. DAVIS, ABRIENC. MAY ONINE VIEWER.—We call attention to Mr. George Brown's advertisement, offering himself as Mine Viewer, to supply the place of the late lamented Maddison. Mr. Brown has already been employed by several of the land-holders who formerly employed Mr. Maddison, and has made up his mind to devote his whole effection to the birthess. He is a gractical Miner, and understands the mining business in all its departments. Reports, it will be observed that the shipments for this week amount to the unprece dented sum of over 85,000 tons, and this is imited by the capacity of the Transportation ompanies. Averaging the price of these 85,000 tons at \$3, it makes the very handsome figure of \$255,000 for the week's bustness! rather consulatory to Coal men. VERY LIBERAL. -We learn that & number of our Coal Operators had subscribed up to yesterday, from fifty-eight to sixty thousand dollars to advance to John Tucker, Esq., as a loan to relieve him from his present difficulties. The Trade at Richmond, we understand, had agreed to raise \$40,000 for a similar purpose. According to the report of a committee who examined his affairs. the advance of the Sum of \$100,000 would place his affairs in a position, by which none of his creditors would suffer, and a portion might be saved from the wreck. We sincerely hope that these statements may turn out to be true.

Co. TREASURER. - We last week neglected to notice in explanation that our allusions, the week before, to the " leaks in the County Treasury," had no reference whatever to the official course of Mr. Ward .-So tar as our knowledge extends, we are free to say that that gentleman makes a most. active, faithful and efficient officer. We had Port Carbon, in our mind's eye, at the time, certain other S. Haven, Locofoco political financieting, that shall be Auburn, laid before the public in due season. We may notice, in this connection, that through the efforts of the Commissioners, and by the promptness of Mr. Ward, the State quota of the County tax was paid over Total by Railroad in 1854, before the 1st of August, inst., thus reserving the five per cent. discount allowed. This is the result, we believe, of a regulation recently imposed by the Commissioners upon B, Railroad, the Tax Collectors, execting interest, if their "Canal, the Tax Collectors, exacting interest, if their respective amounts were not paid in within a certain time.

TARRICAN AND TEMPERANCE ADVOCATE, A Paper devoted to Americanism (vs. Political Popery). Prohibition and State and

National Reform. OUR MOTTO, -In republics, where real freedom prevails, all questions, touching the stability of the Government and the rights of citizent; must be submitted to the order of an enlightened public.

at the coming Full election, the people of Pennsylvania are to settle two great principles, of vital importance to the interests of the State, and of the country at large :- The right and the ability of "Americans to rule America"; and the sovereign power of the people to dictate town for their own security, and protection. Our Roman Calholic fellow-cinzens - a very large proportion of whom are of foreign birth-are not content with the exercise of

the legitimate privileges of Civil and Keligious Liberty, guaranteed them by the generosity of the sons of the soil; but seek through the monstrous power of their Church agranizations, to control the political action of the State and country, and aim a dangerou blow at the degreet and most view institutions of the land. Hence the rapacity of her Priesthood to monopolize the ownership of all her church property; and their designs to divide the Common School Fund for sectarian purposes-to all of which, we, as Apperican citizens, lovers of Liberty, lovers of our COUNTRY, declare uncompromising hostility. Let the people rive in their might and mount of the authors of these despotic machinations, and with them the political demagogues that truckle to the interests of this pernicious foreign influence. Away with the union of Church and State! Down with this foreign political Jesuitism!!

Again, it is a principle of law, so decided by the highest judicial tribunal of the country, that the people of a State have the right to regulate, even to entire prohibition, the commerce in infoxicating liquors, within her borders. The citizens of this Commonwealth are to decide that question for themselves, at the ballot-box, next October.

Shall Pennsylvania be blessed by a Prohibitory Liquor Law or not? The Liquor Traffic is our greatest enemy-it creates riot, election in that State has resulted in sheds blood, commits mitteler, ruins health, destroys the intellect, damns the soul, poisons youth, corrupts innocence, sows discord, breeds miseries untold, brings want, estranges affection, breaks wives' and mothers' hearts, begets pauperism, robs Industrious, sober men of their taxes; all this it does, and much more, and to balance it, what good does it effect! Shall the dealers in Rum (the large mass of whom are adopted citizens) continue to lord it supreme over law and public opinion ! Shall his be the only business throughout the length and breadth of the land allowed to set at defiance the laws of both God and man! No, No!-Rouse, friends of Temperance; send up a shout for Prohibition that shall crumble to the earth the walls of this modern Jericho The AMERICAN AND TEMPERANCE ADVOCATE will be issued from the Minera' Journal Office, about the middle of August, and be continued regularly every Wednesday morning thereafter, till after the election, at the following rates:
