BIGLER and THE STATE FINANCES.

THE STATE DEST OF PENNSYLVARIA.

TAX-PAYERS, BEAD!

According to the address of Governor Ind-

Iner. of funded debt of State, \$1,373,095 76 The reader will perceive from the forago-ing that there has been an increase instead of a dimunition. In fact, that during the first two years of the administration of Gor. Bigler, the State Debt increased at the rate of SIX HUNDRED AND EIGHTY-SIX THOUSAND FIVE HUNDRED AND FOR-TY SEVEN DOLLARS PRE AMERICAL addition, and in order to enable the Department to meet the expenditures of the present year, authority was saked from the Legislature and granted, to enable the Governor to borrow an additional num of \$500,000, based United States.

If its prepared so that 300 degrees Farenhelt will not affect it. and is superior to everything eise, as no substance has so much classicity, which grands so high a degree of beat, and may he used about all parts where packing is accessery, viz. Pursished in Rolls of any required length, from 1-5 to 11 4 inch in thickness, and 30 inches wide, or made and cut to order of any dimensions.

on a probable excess of revenue over expen-ditures for the year 1855, an anticipation, by the way, not likely to be realized, should William Bigter be continued in office.

If we add this last loan to the increase of the State Debt, as already shown, it will ex-hibit the surprising fact, that the increase of our funded debt for the past two years, has een at the rate of something like A MILLOW or DOLLARS PER ARRUM! And yet we are coolly told by the Executive, that "the firstces of the State were never in a more whole-some condition!" Nay-Governor Bigies the economy of his administration. The Public Works continue to be managed with rickless extravagance, the State Debt increased, and is increasing, the taxes imposed upon the people are entauting and oppressive, and yet the Chief Magnitume, under whose public career all three avis. have been continued and made worse, is anxious to retain office for three years lon-ger! His trutte thus far have been bitter and apparentable, and it is for the voters to decide it at the ballot-boxes, whether such a nightful condition of affairs shall be perpetunted. The Governor has himself challenged his investigation, to relation to the finances the cousequences .- Phile. Enquirer.

DEMOCRACY AND PURION."-It is amusing to hear the Democratic papers cry out so itsally against "fusion." Their de test in lows was owing to the "fusion" of the opposite parties. The uiter route of their touces in Vermont and Maine was produced by "tusion." The chapter of their defeat in Pennsylgania, Ohio, New York, Indiana and Michigan, arise from "fusion." The word is a good one, says the Connecticut Courant, for it explains everything and excuses everything, but after all is heard without much meaning attached to it." What does it mean? It means that the opponents of the present Administration, rodied to indigua-tion by the periody of its pro-slavety adhe-rents in the repeal of the Missouri Compto-mise, have determined to lorget minor disferences and to unite for the great object of saving the nation from being pledged to the support of sixvery. "Fusion" is as good a word for such a combination as any other.-Plumbing Shop.

If all sizes of Lead Pipo, Sheet Lead, Black Tied Bath Tubs, Shower Baths, Hydranis, Hoot, Double and Single Acting Pumps and Water Closets a also, all kinds of Brass Cocks for water and steam, Brass Oil Cups, and Glow for Engines. All kinds of Copper Work and Plumbingdone in the acatest manners of the use of the word. How was Franklin Pierce elected, but by the "fusion" of all the distinctive principles and prejudices of the different sections of the Democratic party for the shortest notice. ardest shell, Pacific Railfoad men, Anti-Pacific Railroad men. Supporters of Western onists, men who had been at swords's points on important political topics, were all so hungry for office and spoil, that a grand "fusion" was formed, and Franklin Pierce chosen President, as the representative of every one of these principles. There never was before in the history of politics such a "Jusion!" So complete was the chemical union produced by this mingling of so many different principles, that there was but one distinctive property recognizable in the homogeneous mass that issued from the crucible, and that was, a lose for the spoils. "Fusion," forsooth! Look at Frank Pierce's cabinet. One Massachusetts Coalitionist—one New York "Soft"—one Pennsylvania Catholic-one Free Soil Michigan man-one Kentucky Union man-one North Carolina Old Line Democrat, and pretts old at that-and one Mississippi Fire Eater! boraries : "The idea of a Know Nothing, then, s we understand it, is a man who tries o make himself ac rusings with the qual-fications of the varia us candidates put up or office, and votes for the ons he thinks will-fill it best. And if this is correct, consequently a society of Know Nothings must be a number of men, who mean to inquire and yote for such among the nominees for places of trust, as they think best qualified for them. It is Lut justice to remark, that if this is their principle, and this their design, then they are, what the best men in the country who are not politicians by trade, but merely desirous hat the heat men should be elected for office, have always wished for, and sometimes individually worked. The question then arises, closs this course of conduct be come a had one, when it is carried out and ractised on by an organised body of men. instead of the same men proceeding individually and separately? This is for every one to decide in pronouncing on the character of this formidable party, as some regard it, but which John Mitchell affects
