# The Miners' Journal.

POTTSVILLE, PA.

Saturday Morning, Oct. 14.

J. P. HANNAH, Editor and Proprietor.
CHARLES LITTLE, Associate Editor.

☞ The *American's* Pocket-book was burnt. We send the *Journal* to as many of its subscribers as we can remember. Won't, they continue to take the latter?

POSTSCRIPT—OFF AGAIN!

A new Steam Press ordered for the *Journal*—will be here next week.

The business of the Job Office and Book-Bindery will be resumed on Monday. *Send in your orders, friends.*

HERE WE ARE,

Readers and Friends, faithful to appointment—not in our wonted style, it is true; but nevertheless *we are here*, thank Providence!

To those near at home, who have seen the ruins of the *Journal* establishment, and know the extent of our desolation, we need make no apology for the odd appearance and curtailed dimensions of the paper this morning. They will require none; perhaps, to them the wonder is that it appears at all.—Others abroad it will be sufficient to say that our entire office building was destroyed, and all the materials—engine, presses, inks, cases, imposing stones, galleys, furniture and, in short *everything*, excepting our type (most of that was saved though largely in a damaged condition.) We have since engaged rooms in the Silver Terrace; removed thither our "remains"; purchased a press, fitted it up, procured stands and other indispensable apparatus and fixtures; our faithful printers turned heartily into work—and *here we are!*

After this week the *Journal* will continue to appear regularly, as usual, on Saturdays, but in an abridged form, (it being next to impossible to get a press to accommodate its present dimensions immediately:) Workmen, however, will at once be set about rebuilding the office, and as soon as that has sufficiently progressed, a new press will be procured, of the proper dimensions, to print the *Journal* in its usual large size; when it will, moreover, appear *in an entire new dress!*

All we now ask is that our patrons in arrears for subscription or advertising, will promptly come forward and settle their accounts; and that our friends generally will exert themselves to extend the circulation of the *Journal*—when we shall hope to rise shortly, Phœnix-like, from our ashes with renewed vigor and beauty.

PERSONAL.

We have so many to thank for kind services during the fire, and generous offers of "aid and comfort" since, that we hardly know where to begin. In another column we have prepared a special Card of Thanks, but we cannot refrain from again expressing our cordial gratitude to one and all, whose efforts to save our property on Tuesday night, and others who have since generously come forward to relieve and lighten our misfortune, have rendered us under lasting obligations.

We had intended mentioning a number who distinguished themselves by their extraordinary labors during the fire, but lest we might do injustice to others who were equally serviceable, but less conspicuous, or whose names we do not know, we forbear.

Mr. Vliet of the *Register*, will please accept our hearty thanks for the tender of the facilities of his office; also, Mr. Chichester, of the Schuylkill Haven *Ledger*, for a similar offer.

Some gentlemen of Howard & Co.'s Express, on hearing of our misfortune, kindly and voluntarily made arrangements in Philadelphia for printing our paper there—to them likewise we are deeply indebted.

ELECTION RETURNS.

James Pollock is Governor of Pennsylvania—that's sure. His majority is variously anticipated at from 40,000 to 50,000. Mott is elected Canal Commissioner, by perhaps double that majority; and Black, Supreme Judge.

In our County ticket, the Democrats have carried all their candidates, but by very slim majorities. The vote was unusually large. Campbell, the Whig Candidate for Congress, in this District, is elected by 320 majority. Dewart's majority in Northumberland county is 960.

Prohibition is doubtless lost.

We have no time for comment this week.

☞ ATTEMPT TO BURN US ALL UP.—In our account of the Fire on Tuesday night last we state the general impression that it was the work of an incendiary, and that there seemed to be a fiendish determination on the part of some parties, unknown, to burn the whole town down! In confirmation of this opinion, there were two several attempts the same night to fire other places, but the flames were fortunately discovered and put out—before the large fire broke out; and also, two or three other attempts since. We ourselves saw two carefully prepared matches—paper, shavings and other combustibles, saturated with oil, and tied with friction matches inserted, on to the ends of pine sticks—that had been thrust under the stable of Mr. C. Tower, the County Prosecuting Attorney, on Wednesday night. One of these matches had manifestly and certainly been ignited, but was somehow extinguished.

☞ TO ADVERTISERS.—Many of our standing advertisements have been knocked into pi, and others on file for publication were burnt. Those on the fourth page, already printed for this week, we are unable to issue from the impossibility of procuring a press large enough to print the other blank side of the sheet entire. Legal notices and others that cannot be omitted, it will be observed, we have taken special pains to select and have set up anew. Next week, if possible, or immediately thereafter, we will have all our advertisements inserted as usual.

PHILADELPHIA CITY.

Pollock, 28,817; Bigler, 24,936; Bradford, 62.

Pollock's majority, 3,881
Mott's majority, 29,100
Prohibition majority, 4,760

Congressmen elected:—

1st District Col. Thos. B. Florence, D., 23 majority.
2d District Tyson. W., & K. N., 1962 maj.
Chandler, Ind. W., car'd only 1234 votes.
3d District, Millward, W. & K. N., 625 majority.
4th District, Broome, N., 751 majority.
5th District, Cadwalader, D.
Black over Baird, 2494 majority.
Mott D. & K. N., over Darsie 28,089 maj.

In the old city, W. A. Crabbe, Whig and Know Nothing, is elected to the Senate, and M. Y. Baker, Dem., and H. K. Strong, W. E. Morris and George R. Smith, Whigs and Know Nothings, to the Assembly.

The County delegation in the Legislature, at the present impression be correct, is, that it is, counting the Senators equally divided, six Democrats and six Whigs and Know Nothings. It seems that the Whigs and Know Nothings, acting together, are able to elect, but that the Natives and Know Nothings are not, as all the Natives adopted by the Know Nothings have been defeated.

☞ COULD we only have procured a press of sufficient size, we should have moved our Paper to the readers on this week; but it is not to be.

# FIRE! FIRE!! FIRE!!!

RAPID SPREAD OF THE FLAMES.

Scarcity of Water.

## $30,000 of Property Destroyed.

Miners' Journal Buildings Burnt.

NOBLE EXERTIONS OF FIREMEN AND CITIZENS.

*Attempts to fire other parts of the Town.*

The fire in this place, on Tuesday night last was the largest, and the only one involving any material loss, with which we have been visited for several years. There is no doubt but that it was the work of an incendiary, though as yet no one has been arrested. But discovered attempts, both on that night and since, to fire other parts of the Borough, confirm the general impression of the community that it was a concerted plan of some fiendish parties, for what purpose we cannot pretend to say, *to burn up the whole town!*

This fire started about 8 o'clock, in a frame Club stable, owned by Dr. Halberstadt, on Railroad street.* Some one accidentally near at the time, saw a suspicious looking individual, who stood near the stable and cried "fire," and then ran away. Two others were also seen to sneak out from somewhere about the premises, at the same time. The person first mentioned, finding he could not overtake any of these *suspected* parties, then directed his attention to releasing the horses. All were got out, except a fine bay mare of Mr. James Beatty, which became so restive from fright as to render it impossible to untie her halter, and she perished. Several carriages, harness, &c., belonging to different parties were also destroyed.

The Rough & Ready and Good Intent Fire Companies were soon on the ground, and an immense crowd immediately gathered; but the difficulty of procuring water, and the combustible fuel to work upon, allowed the flames to spread with most wonderful rapidity up Railroad Street, and by the intermediate buildings toward Centre Street.—Several small frame buildings on Railroad Street, owned by Michael Murphy were soon enveloped, and communicated the fire to a Carpenter Shop, on the corner of Railroad Street and Church Alley, owned by John Bannan, Esq., and occupied by Work & Trough. This was soon destroyed, and the flames crossed Church Alley, up Railroad Street, and also up Church Alley toward the MINERS' JOURNAL buildings. Patrick Lafferty's Blacksmith Shop, beside Murphy's buildings was also destroyed.

A new three story brick building owned by John Bannan, Esq., immediately below the JOURNAL Printing Office, on Church Alley, caught from the Carpenter Shop below, and also a brick Club Stable, belonging to the same gentleman, in the rear of the JOURNAL Office. The three story brick was occupied, in the basement, by a Steam Engine lately used for running the Power Press of the JOURNAL, and by Smith & Downing, Gas Fitters, who also used the second story for the same purpose. The first and second stories were occupied as Store Rooms by Benjamin Bannan. There were also a dozen new Marbleized Iron Mantles, a Chillson's furnace and other goods in the first-story; the third was filled with Paper Hangings. This whole building with all it contained from basement to third story, was destroyed. The stable was burnt, with about a ton of hay, some straw and other feed; but all the horses were got out in safety, and harness, carriages &c. all removed, except a sleigh belonging to John Hughes, Esq.

The MINERS' JOURNAL Office proper was a three story brick—the first occupied by the Newspaper; the second, the Job Office; and the third, the Book Bindery. Most of the newspaper and Job Type was removed, though generally piled; some other light moveables mere also got out safely—a small quantity of printing paper, the edition for the week, finished and unfinished books from the Bindery &c., &c.; but in the newspaper department, the Power Press, a new Steam Engine (*only* put up *one week before*), a Furnace for heating the building, all the stands and other furniture, were burnt up or subjected to the action of the flames; also, two Washington Presses, a new and superior Huggles Press, a Card Press, a Paper Cutting machine, a Paper Press, Stands &c., in the Job Office; and a Ruling machine, a Paper Press, a Cutting Knife &c. in the Bindery. All the selected copies of the JOURNAL (fourteen of each number) for this year's bound files were likewise destroyed.

By the almost superhuman exertions of the Fireman and Citizens, the fire was here stayed in its progress toward Centre street. The dwelling house of Benjamin Bannan adjoins the printing office, and nothing, under Heaven's over-ruling Providence, but the monstrous efforts of some brave and active men on the roof, saved the dwelling house and checked the enormous destruction of adjoining property on Centre street, that must have otherwise followed.

Above Church alley, on Railroad street, a frame house on the corner, owned by E. O. Parry, Esq., and occupied by the family of Luke Lee, was burnt to the ground; next a new frame dwelling house of Mr. Henry Weber's, occupied by Mr. James Noble; and next a double brick, owned by Mrs. Seitz, and occupied by her son-in-law, Mr. Frederick Eut and Mr. Lewis. The intermediate back buildings toward Centre street, garden fences, &c., were swept off to the front row of houses—including a back frame kitchen attached to the Miners' Bank, as far as Morris', on the front corner of the next street, (East Mahanoy.)

The losses of the several parties, as near as can be ascertained, with the amounts of insurance, are as follows:

Michael Murphy insured $2,100; quite equal to, if not more, than the value of the buildings. Tenants' loss not known, but very small.

Trough & Work, Carpenters, $1,500—no insurance. Nothing saved. They are making arrangements to build a shop, and commence business at once on the open lot back of Murphy's buildings, Centre Street.

Smith and Downing, Gas Fitters,—about $1,500—no insurance. Nothing saved.—They have taken a room in Silver Terrace, and are ready to receive orders for work immediately.

Henry Weber,—$1,400—no insurance. Most of Mr. Noble's furniture was lost in this house.

E. O. Parry,—about $1,000 over and above insurance, $300.

Jno. Bannan,—$2,300 (three story brick) insured $600; $1,000 (stable), insured $1,400; and Frame Carpenter Shop.

Benjamin Bannan,—upwards of $8,000, insured on building and materials $2,800.

Mrs. Seitz had an insurance of $900 on her tenant house, making her loss about that amount, besides a frame Stable burnt. She also had $200 in cash stolen from a drawer in her own house. The portion of the furniture of the tenants, Messrs. Eut & Lewis, that was removed was much broken and otherwise damaged.

The loss of the Bank does not exceed $200 —$300.

Besides these, several persons on Centre street, whose property was not much injured directly by the fire, apprehensive of danger, had their furniture and goods removed, which were thus somewhat injured—some lost and some stolen. Mr. Robert Weaver, of the Express, suffered to the extent of, perhaps, $200 in this way. Mr. Joseph S. Elliott, Jeweler, also lost some articles in removing a portion of his goods. All of Mr. Benjamin Bannan's house furniture was removed, but except an occasional breakage, nothing material has yet been found missing. A portion of the large stock of his Book store was also removed, but nothing is yet known to be missing. Mr. Parry's house at Mahanoy was likewise mostly taken out, but has since been restored generally in good order. Mr. Morris, Merchant, gave out some 8 dozen buckets, only 2 dozen of which have been returned; and also 2 dozen blankets, very few of which have since reappeared. His expenses in this way, and by the fire in the rear, will perhaps reach $200.

Had there been even a moderate supply of water, the prompt and active exertions of the Firemen and citizens would doubtless have arrested the flames long before they were stopped; but it was necessary to bail by hand most of the water from the Norwegian Creek, which flows along Railroad Street, and pass it along lines of men formed for the purpose, to the engines. The supply of water for even ordinary household purposes in the Borough has been very limited, and in some portions of the town, entirely deficient for two months or more past, and of course the supply was entirely inadequate in an emergency like this.

Nothing could exceed the Herculean labor of the several companies—the Good Intent, the Rough & Ready, and the Hook & Ladder (the *Hydraulics* had started, but a few minutes before the fire broke out, to extinguish the fire on Oliver & Co.'s breaker at Bear Ridge, and although returning immediately when sent for, they did not reach town until the destruction here was mostly complete)—these companies with the many citizens who promptly aided them, did every thing in their power to arrest the flames, and under the difficulties with which they had to contend, it is only to be wondered at that the destruction of property was not even greater.

What Pottsville wants now is, first a full supply of water—that we hope to have shortly; and secondly that the Council see to it that the Fire Companies are put in good condition—they both need it and deserve it.

*A rumor having obtained that Mr. Oscar F. Moore had accidentally set fire to this stable, by leaving a burning lantern there, on starting out in haste to his Colliery; he desires us to state that such an accident was next to impossible. He was not in the stable himself; but the lantern referred to, used by the hostler, was a close glass one, and *that was taken away with them on the carriage* and next because the fire was *first observed in* a part of the stable where the hostler had no occasion to go.
