

The Miners' Journal.

FOTTSVILLE, PA.

Saturday Morning, Oct. 24.

B. BANHAM, Editor and Proprietor.
C. LITTLE, Associate Editor.

THE RESULT.—The returns, as far as received, give the following vote:

| GOVERNOR. | 171,856 |
|--------------------|---------|
| Pollock, Bigler. | 135,833 |
| Bigler's majority. | 36,023 |

The counties yet to be heard from, are Elk, Potter, Jefferson and McKean. They give Gov. Bigler in 1851, when he had 8465 majority in the State, a majority of 655. They will probably now give a small majority for Judge Pollock.

CANAL COMMISSIONER.

Mott, 208,402

Darrie, 64,684

Mott's majority, in 39 co.'s

SUPREME JUDGE.

Black, 104,399

Smyser, 47,632

Baird, 75,591

PROHIBITION.

Against, 134,374

For, 132,439

Majority against,

1,874

Thus the vote stands from fifty-three counties only. There are sixty-three in all the State—leaving ten yet to be heard from. Most of these last are strong Temperance counties; so that the friends of Prohibition are quite sanguine of its success.

In another column we print a table of the counties in full, as far as heard from, giving the vote for Governor and the Prohibitory Liquor Law.

THE NEXT CONGRESSES.—The changes that have already been determined in relation to the next Congress, as compared with the present, may be thus stated:

The Next or
3rd Congress. Present or
3rd Congress.

Total, 19 67 47 39

Opposition majority, 48 : Democratic majority in Thirty-third Congress, 8 ; anti-administration gain in eighty-four members elected, 56.

There are one hundred and forty-eight members yet to be elected from twenty States ; an equal number—viz., seventy-four—to be chosen from the slaveholding, and the same from the non-slaveholding States.

THE ELECTION.—Returns received from fifty-nine counties, give 66,197 majority for the People's ticket—anti-slavery and vs. the Pierce dynasty. Thus far three counties have been heard from; that have given Democratic majorities, as follows:

Hocking 75, Butler 200, Holmes 200, which

coined the Roman Catholic vote—albeit that was hardly necessary, as they had won

and won it long before ; and also used all

means of lying devices to estrange the Protestant portion of our slave population

from its old and cherished party alliances—and with considerable success in some districts, we regret to add. The Know Nothing movement was a fruitful and indeed the all-absorbing topic, with these electioneering demagogues. "Disfranchisement of all foreigners to the third and fourth generations," "religious proscription" and the like absurd and equally false assertions furnished the thunder. But now that it turns out, this same Loco-foco party, while denouncing the Know Nothings, have received their votes to swell the majority of one of their State candidates to an unprecedented figure, adopted citizens will know what confidence to put in their professions hereafter !

However, our loss in this County is but as a drop in the bucket compared with the generally favorable result throughout the State; and though deeply deplored the defeat of some most competent and worthy men at home, through the foulest means ever resorted to, we can still afford to rejoice loudly and heartily over the glorious triumph in the State at large. We have elected a Governor—strong in principle, of acknowledged capabilities, and an American Whig to the core. Nearly all the Congressmen elected are of the same stripe—hardly an Administration man to be found in the whole delegation; and we have, also, a majority on joint ballot in the next Legislature. Besides these splendid achievements in the Old Keystone, the returns from Ohio and Indiana show even a more overwhelming rout of Loco-focoism in those two States, and the like results may now be confidently predicted for the remainder of the Union. Surely this is glory enough for one day. Who would not—who could not rejoice ? Loco-focoism, with its plausible side-decamp, Rom and Runamkin, is laid out cold !

THE PUBLIC BIGOTS AND FRIENDS.—On the first page we print an account, brought by one of the latest steampers, of a most diabolical attempt on the part of the Roman Catholics of Ireland to destroy a Railroad train, with upwards of 1000 Protestants on board ! We publish it for two reasons, first, as an item of news ; and secondly to show what these people, under the blood, satanic guide of their priests, are capable of doing. They are taught to regard all persons outside of the pale of their church as heretics, whom to persecute and annihilate, if possible, from the face of the earth, in a religious duty. What else, then, could be expected of an ignorant, superstitious people under such instructions ? The day has come, when this great corrupt monstrosity—the church of Rome—is to be taught a wholesome lesson, and, from present appearances, Americans are likely to be the school-masters—mark that !

WILMOT'S DISTRICT.—The XVth Congressional District of Pennsylvania, from which Galusha A. Grow (Anti-Nebraska) is just been re-elected without opposition; was formerly represented by David Wilmot, who offered the famous Proviso in 1847. Wilmot supported Bigler in '51 and Pierce in '52, but he has washed his hands of the whole concern since the passing of the Nebraska bill, and has caused the District thoroughly for Pollock and Fremont. His vote just compares with those of former elections as follows :

We think that is about as much as could have been reasonably expected, from one District.

P. T. BARNUM.—Barnum, the great and famous, is preparing his Autobiography. It is nearly finished and will probably make its appearance before the public in due form, some time in December next. The life of this man presents many singular phases, and its written history will doubtless be worth the reading of all. This publication, when once out, will go "like hot cakes."

THE PUBLIC LEDGER.—The Public Ledger objects to holding the elections in taverns in Philadelphia, owing to the meanness and disorder it is calculated to foster.

So are we, and we hope the day has come for a change. In Boston they hold the elections in school-houses.

THE STATE TAXES.—The returns, as far as received, give the following vote:
