

Miners Journal.

SATURDAY, NOVEMBER 11, 1884.

THE MINERS' JOURNAL has a larger circulation than any other newspaper published in Pennsylvania. It is published every Saturday, and is the only paper of the kind in the State. It is published for the Proprietor, and is not sold for the Proprietor. It is published for the Proprietor, and is not sold for the Proprietor.

AGENTS FOR THE MINERS' JOURNAL.
J. W. Lewis, M. C. Arnold, D. A. F. Davis, C. H. Adams, J. W. Lewis, M. C. Arnold, D. A. F. Davis, C. H. Adams.

BUSINESS DEPARTMENT.
We have a notice of the Saving Fund of the National Safety Company which we are desirous to direct the particular attention of our readers. This is an old and well established institution chartered in 1841, and now has more than half a million of dollars securely invested for the benefit of depositors. It will be seen that the business of this Saving Fund is conducted on very liberal principles, free per cent interest is given, and the interest is always payable in cash.

FRANK TOTT advertises a variety of articles in the Hardware line, at his new place, Centre St., opposite Market.

SAMUEL THOMPSON & Nephew, New York, give notice that James A. McBarrow, of this place, is no longer their agent.

AN EXTENSIVE assortment of new books and new music announced at Bannan's.

MORRISON & YODER have just opened an extensive and complete establishment at the Town Hall. Their goods are selected direct from the manufacturers, and are offered cheap.

ROPE, CORDS, TWINES, &c., of every kind, size and texture manufactured by Thos. Jackson, Reading. Examine his ad.

JOS. WOOD & SON, Philadelphia, have established an agency for the sale of Information, Correspondence, Collection, &c.

THE ARCHBISHOP, or Romanism in the U. S., is the title of a book just issued by William White Smith, Phila. See advertisement.

THANKSGIVING day in this State has been fixed for Thursday, the 23d inst., and not the 30th as it has been announced.

MAINE LAW.—The State Temperance Committee will meet at Harrisburg, on the 21st inst., for the purpose of adopting plans for future operations. According to the terms on which the friends of Temperance accepted the invitation to vote on the "maked question," the liquor will be shipped by about 44,000 voters in the State.

HOWARD & CO'S EXPRESS—CORRECTION.—In our last issue, noticing the new arrangement of the above named Express line, we mentioned twice daily between Philadelphia and Philadelphia—general, with its general character; by mistake we wrote Adams & Co. instead of Howard & Co. For promptness and dispatch this last line is excelled by no one in the country.

Sums raised have sent us a copy of the Address (in pamphlet form) delivered by Rev. S. S. Schucker, on laying the cornerstone of the Shamokin College Institute, (Northumberland Co.) in August, last. It is a very able production.

The institution contains three departments—Primary, Academic and Collegiate. Rev. R. Hill is Principal.

Dupin's Charge.—At the Penna. Baptist Convention, in Philadelphia, last week, Rev. Mr. Castle, Pastor of the Church in this place, corrected the mistake mentioned in the property of his charge, and added that:

"The community was decidedly irreligious, and the Catholics exercised a powerful influence. The intelligence and industry are radiated, and the Sabbath, standing about the hotels and in the streets, and no notice was taken of it. Their conduct, which was exhibited in this city, it would be considered a sign of rosydom. I have known many members of the church who had beautiful edifices, but in an unfortunate location, and used of his congregation consisted of females. Notwithstanding this, the church was not neglected, and he hoped that by the aid of the convention, and with the aid of the church, it would be a large and prosperous church."

PHILADELPHIA CORRESPONDENCE.—The letter in another column from Phila., is peculiarly interesting—read it entire. "We cannot reply to our friend's inquiries and suggestions in full, this week. The Temperance resolutions referred to have not come to hand. As to the motive for the recent fire, we can hardly think that the intention was to burn out the *Miners' Journal*, any more than to destroy the property of others; though from the nearness to the establishment at which it was first kindled, there are those who do think so. But from subsequent attempts to fire several different parts of the Borough, the more general impression prevails that the object of the incendiaries was, and may be, still to burn up the whole town."

PUBLICATIONS SUSPENDED.—The last week's edition of the JOURNAL failed, very greatly to our disappointment and mortification, simply because, under the circumstances, it was positively impossible to get it out in the paper in its present form. It was our intention to print the paper in its present form, but the new press and room would be ready in time, and the hope of doing was not abandoned till the last moment, when too late to make the necessary changes. Every thing that could be done on our part, to remedy the difficulties in the way, was done; but these causes were beyond human reach. This was the first failure of the regular issue of the paper for a period of twenty-five years!

THE ELECTIONS.

THE PEOPLE TRIUMPHANT!
NEW YORK.—The latest returns, as culled from yesterday's papers, give the total vote for Governor as far as received, as follows:
Seymour, Democrat, 90,000
Clarf, Whig, 81,000
Ulman, 81,000
From present appearances the final issue will probably be between Seymour and Ulman.
Raymond, Whig, is surely elected Lieutenant Governor.
The Congressional delegation will consist of 30 or 32 Anti-Nebraska members, of whom 29 are Whigs.
The Legislature will be largely Seward Whigs.

Wood, Democrat, is chosen Mayor of the City, by a small majority over Barker, K. N. NEW JERSEY.—This State is once more free from Lococo monopoly and misrule.
In the Senate there are 13 members holding over, of whom 8 are Democrats and 5 Whigs. The next Senate, as nearly as can be known, will consist of 10 Democrats, 9 Whigs and 1 Native American.

There is to be a large American and Whig majority in the next Legislature.
The present Congress stands 4 Democrats to 1 Whig; the next will be 4 Americans and 1 Whig to 1 Democrat.

Wisconsin.—The returns from this State come in very slowly, but it is evident that the people here, too, have taken the matter in hand. The Anti-Nebraska majority in the State will be very large.

Illinois.—There has been a total rout of Administration and Nebraska Lococoism in this State. As far as heard from, only one regular Democrat has been elected to Congress.

INDIANA.—Official.—Anti-Nebraska men have been elected in nine out of the eleven districts. The net Anti-Administration majority, in the Congressional vote, is 174,000.

THE MISSES' JOURNAL of this place has declared a semi-annual dividend of 7 per cent. The Philadelphia Ledger, noticing it, remarks: "This is the largest dividend we believe ever made by a bank, an evidence of the great prosperity of the coal trade, and which is a strong recommendation of the 'wipo' out liabilities on the old 'suspended list'."
