THE LAW OF NEWSPAPERS.

If subscribers order the discontinuance of their newspapers the publisher may continue to senp them until aircapases are paid.

If subscribers neglect or refuse to take their newspapers from the offices to which they are directed, they are held, responsible until they have settled the bills and ordered them discontinued.

If subscribers remove to other places without informing the publisher, and the newspapers are sent to the former direction, they are held responsible.

The courts have decided that refusing to take newspapers from the office, or removing and leading them uncalled for, is prima facia evidence of intentional fraud. INSURANCE.
