To Dr. Swayne, Philadelphia—

Governer, St. Lawrence Co., N. Y., Dec. 16, 1854.

Dear Sir—Having experienced very great bonefit from the use of your COMP(UND SYRUP OF WILD CHERRY).

I feel lound, as an actiof humanity, to recommend this most invaluable medicine to others. More than eight years ago I fell into a gradual Cularrhol Communities, and notwithstanding the use of many other remedies, I continued to grow weaker, and more and more disordered in my Lunga and Stomach until myself and my friends despaired of my life. My digestive powers became so exhausted that I could not bear the lightest kind of food, except in the minutest quantities. In this condition, at the request of my brother. I began to use your SYRUP. Almost immediately I d rived great benefit from it. In less than three days after communening, the use of small doses, my stemach began to recover its natural tone and power—gradually every lead symptom began to give way, and in a few months I recovered to a state of comfortable, though not perfect health. I have no histiation in saying that to your "WILD CHERRY I owe under Gid, the continuance of my life, and a degree of health far beyond my expectations. I have since had attacks of the same old symptoms, but in every instance I have recorted with perfect success to the use of your medicine.

SAOMI WILCOX.
