self with a revolver and bowie knife, went to the academy, and wanted Brown called out, but, as he was too much excited at the time, the assistant refused the request. Wray left,

saying that he would see him on his way home, and at the close of the session he met his victim in the public park. He accosted him rudely, told him he had imposed upon his brorects, Financia, Coal Merchant, 52} Walnut St., ther, and, when he undertook to reason the matter, called him by an insulting epithet, and aimed a blow with his fist at Brown's face.

The latter, seeing Wray's weapons as the blow was aimed, raised a little riding whip, and prepared to defend himself. Immediately thereupon. Wray drew his knife and inflicted seven fatal wounds, which caused Brown's in

stant death. The murderer was arrested and committed to prison, but his friends made vigorous efforts to forestall justice by promptly securing all the legal counsel the place affords. Professor Brown leaves a young wife, to whom he had only been married a few months. Among the European celebrities who are to fa-vor us with their presence shortly is Rachel, who makes her debut in New York on the 3rd of Sepus for publication : The day before I arrived at Paris the attemp vas made on the Emperor's life, but I was surprised to find that little or no excitement was caused tember. Her success is problematical we think although she is very famous; yet the foreign lan guage which she speaks must spoil the effect of by it. In fact such is the state of thraldom in which the French people live, that they scarcely venture to talk on the subject of polities ; and to her undeviably great dramatic powers. One thing however is in her favor-it is fashionable to speak French, and all our beaux and belles pretend at such an extent is the system of police espoinage carried, that even in private society, people care fully eschew politics, and avoid as far as possible least to its knowledge if nothing more. They pick up a few phrases, which they thinder out on all octhat dangerous topic. France is governed by an unprincipled Despot whose sole security is the cusions and lug in in avery possible place. Young America belches out his energe and incipient womnet; and the dread of Red Republicanism anhood lisps out her on recoir and bon soir with what they conceive to be the true Parisian accent. which together with the prestige of the Bonaparte name, keep the people in a state of acquiescence; but I feel that such a state of things cannot last. This very fact will work wonders for Rachel; all No man can dare express an independent opinion on political subjects in France. The press is comthe world will go to see her and with right hearty gusto will they applaud, in the right place if they can find it, and swear that the fair tragedicane pletely prostrated at the foot of the Despot, and all the best literary characters who do not acquisuperb; or more likely deluge their admiration with a torrent of French adjectives which we see in his usurpation are obliged to leave their would quote to you if we could imagine which native land. they would be likely to hit upon-we should not wouldr if her presence should inaugurate what we may term, the Parisian epoch-we shall see. Philadelphia has shown such a narrow, contracted feeling towards every interest in this Region, that it is time for her to be left to her selfishness, and give her an opportunity to feed on

her contracted views. If she were to lose every ton of the Coal shipping business to the East, there would be but little sympathy felt for her in Schuylkill County. The truth is, that for a number of years past the whole object and tendency of Philadelphia movements has been to reduce Schuylkill County to a kind of colonial dependency or vassalage to that city. If the people of Schuvlkill County would only send honest reprosentatives to Harrisburg, men who cannot be bought by the opponents of Schuylkill County in terests, many of the evils imposed upon us by Philadelphia, under which she now labors, could soon be removed. THE "GAZETTE" imagines-by the way what powers of imagination it possesses-that the Journal is deserting its principles. We

must confess ourself oblivious to the fact; and we presume our readers are in a similar condition. The Democratic press of Penn-

sylvania, now that it is openly allied to the Rum interest, will resort to every shift and turn during the approaching campaign, to ons defeat next Fall in this State. Many

Democrats disgusted with the ignoble alliance will desert its ranks, and Americanism, unclogged by any degrading associations, can not but be successful. Rum will shrink dis mayed before, the pure, steady light of Temperance; and the press now engaged in the ardent championship of grog shops, and pronulgating anti-American doctrines, will be

- [FROM OUR OWN REPORTER.] JEANSVILLE, Aug. 10, 1855.

There was a young man by the name of Goup killed at Tresckow, the German Pennsylvania Goal Co's mines, near Jeansville, on Monday last. was occasioned by the fall of a piece of detached slate: a slip or seam running between it and the main body of the roof. Such slips, detaching portions of the roof are frequent, and are the dread of all miners who work in Coal. They can tell by the sound when a fragment of slate or Coal is hanging dangerously above them ; but those de-tached pieces fall suddenly and without warbing.

The German Co. is sinking a new slope on the north pitch of the "Big Vein," into the same basin, as that which is worked at Jeansville. The Coal appears to be very thick and of a fair quality. Charles Reed, formerly of the West Delaward tines, at Norwegian, is the Mining Superintend

THE STRAMSHIP PACIFIC'S NEWS

As the news by the Pacific at New York on Wednesday, adds nothing very material to former advices from the Crimes, we do not think it necessary to publish it in extenso.-The news confirms the report that the Allies have lost between four and five thousand men in the late unsuccessful assault upon the Redan and Malakoff towers. There are no details of this battle, and what is curious, no dispatches from Gortschahoff, giving any fuller account of the engagement. The Allied commanders

Salem. The following Resolves were reported to the Association: In view of the numerous and serious complaints made the past season of the inferior quality of most of the an-thracite coal sold in this market, it becomes the dealers in the article to take some action in order to prevent the repetition of an evil which we can no longer overlook in justice to ourselves or our customers, and to induce, if possible, more attention to the preparation of this article of first necessity. Therefore, *Resolvert*, That the coal shipped to the trade in this vi-cinity since the practice of breaking R by steam power, has had a large and increasing quantity of slate, bone and dust mixed, even with the best of it. thereby evinc-ing a wait of care in its preparation, and a want of re-grand for the interest of the dealer and consumer, censu-rable in the highest degree. We would therefore advise the miners and coal ship-pers of Pennsylvania, that the Coal Dealers Association of Boston and Vichnity, will require an allowance to be made on all cargoes which may contain slate, bone or an unsvoidable amount of dust. They will cause a survey to be made by the standing committee, or a sub-committee of the same: and such amount as the said committee shall decide to be fair and just between the parties, shall be demanded of the shipper; and in case the said ship-pers refusing aball be made known to the Associa-tion, and the members thereof recommended not to pur-chase of said shippers or their agents any coal while they refuse to comply with the award of the standing com-mittee. *Resolved*, That in case the quality of a cargo of coal shipped for the best Red Ash, or White Ash, is found to he inferior to the article purchase, dor committee, sud the receiver of said coal will cause a survey as stated in the previous resolves, and the award of said committee, sud the receiver. *Resolved*, That whenever a cargo of coal shall be methed by a score.
