OUR EUROPEAN CORRESPONDENCE. THE WHERLER SLAVE CASE With the next number of the Miners' Jourludges are sometimes ant to act too hastily, al, we contemplate commencing the publicaand with less circumspection than attaches to svents, and must straightway post himself, up on tion of the first of a series of European Letlight, may be viewed the recent action of York grows so fast that all such poor beaut as ters, written for the Journal by a young Mining Engineer, who is at the present time Judge Kane of the District Court of the Unimaking a tour of Europe, on foot. The writed States for the Eastern District of Pennsylter is a gentleman of ability, experience and vania, in his commitment of Mr. Passmore taken of it, than if such an institution had never liscernment, and as he is engaged in person-Williamson, on the plea that Mr. Williamson existed -ram flows at every street corner in proally visiting and inspecting the various extensive Mining operations of Great Britain, we can promise our patrons, in the perusal of his letters a mass of invaluable information, such

limited power of Judges in cases of habeas and the officers afting under them could in no corpus, that one may be excused for inquiring where could Judge Kane have sought for the haw which justified him in immuring Mr. Wil-liamson in a prison without bail or mainprize, and at the pleasure of the Judge. If he is streets. The quantity in market disappeared in a wrong, which seems very manifest, Judge Kane has assumed an awful responsibility, which he may not soon hear the last of, and which may recoil on him with resistless force. care, in order to render the Journal useful to It is not at all uncertain that Judge Kane by It is not at all uncertain that Judge Kane by tunste which they find intoxicated, the penalty his hasty action in this case, has rendered for which under the new law, is ten dollars fine or the operator and the general dealer. The increased expenses which we naturally

himself liable to an action for damages, as did Lord Brougham, the Lord High Chancellor of sexes, and the various excures which they offer, ncur in these efforts, induces us to ask our patrons to assist us in increasing the already England, for an order in Chancery subjecting arge circulation of the Miners' Journal, and British subject to imprisonment for coptempt, its consequent usefulness. A neighbor or buand perhaps, to impeachment.

The case is further implicated from the scribe, when the cheapness of the paper, and fact that the late slaves of Mr. Wheeler, liber-ated by the voluntary act of their owner in ready attained a thrifty growth in the door yards, we flatter ourselves, its peculiar excellence. are mentioned. The large amount of readbringing them on the undesecrated soil of Pennsylvania, are now in New York city.-In consequence of the statement published by | thorougn earness and which it was intended. Mr. Wheeler that they were forcibly abducted from the state of slavery in which he held them, and consigned to freedom greatly against their own will, Mrs. Johnson, the

mother of the family, went before Judge Culver, of New York, and made an affidavit to the effect that she voluntarily and willingly effected her liberation from servitade. In it she swears as follows :--- "Nobody forced me" away, nobody pulled me and nobody led me; f went away of my own free will; I always had not to proceed to the Galf of St. Lawrence and tow the vessel across, when the wire will be the find flown as the visail wished to be free, and meant to be free when I came North; I hardly expected it in Phila-trip, for one hundred dollars. The company will be choice and the trip both highly interesting and delphia, but I' thought I' should get free in delightful. New York; I have been comfortable and |happy since I left Mr. Wheeler, and so are the chronicle the death of the Lime Aith Man, as ne was universally known. All citizens of New York children; I don't want to go back." This in and many visitors to the Metropolis knew him well-he was one of those oddities who attract atconnection with other statements in relation to the matter render it conclusive that Mr.

Passmore Williamsou did not make an eva-even though disguised by dirt and long naked hair-covered with time from head to foot he has sive return to the writ of habeas corpus, for which he has been incarcerated, and place ter of a century. He has slept for the which of he has been incarcerated, and place Judge Kane in an exceedingly delicate position. In fact if he escapes a prosecution for damages on the part of Mr. Williamson he ideas are said to have been marked by distinmay esteem himself singularly fortunate. We will watch the various phases of the case with stitutions of Gotham interest. Let justice be done, though the

city of ours, that one does not forsake his pest for] pose of examining the Collieries, the different few days even without finding on his return that

he has completely drifted out of the current o amination will be given to our readers next week. White, Bed and Grey Ash Coal. TUSCAROBA, July 24th, 1855. MESSES. Ens :- It is not generally known, as you remarked in your comments on Mr. Gaylord's Plymouth letter, in the Journal of the 14th alt, that lied Ash Caal exists in the "Great Northern The operation of the new Liquor Law in our city, is a positive saility-no more notice being Anthracito Valley;" or, in fact, that it exists in any other region but the Schuylkill. But such is Withiamson, on the plea that Mr. Williamson made an evasive return to the writ of habeas corpus, in the Wheeler slave case, in which Mr. Williamson is implicated. A lengthy and admirable review of the case, with citations

corpus, in the Wheeler slave case, in which Mr. Williamson is implicated. A lengthy and admirable review of the case, with citations of precedents, both English and American, is furnished to the North American, by a gentle-man of legal ability, in which the writer says after furnishing abundant evidence of the limited power of Judges in casea of habeas In the vicinity of Wilkesbarre and Nanticok practical case whatever arrest an offender or seize

the Coal appears to be thicker and deeper than it is in other portions of the region; but at Wilkes-barre it is despit than at Nanticoke, where it is com-mences to riso rapidly towards the Western cx-tremity of the formation at Shickshingy. At Nanticoke and Plymouth, the lower veins are worked above water level, and are cut by the streams in several places. But there are only

three Collieries in active operation on the lower or Red Ash vein, worked at Nanticke below Plymonth; or in fact in the Wyoming Valley, though there are others, both old and new openings,

which are either abandoned for the present, or are not yet in operation. If the other yeins now be-ing worked at Plymouth and other places up the valley, are the bottom veins, including what is called the Red Ash Vein at Nanticoke, as some Our police however fail not to jug every unforsuppose (!) then the brightest dream of many a Wyoming land owner will never be realized; for form as langhable a collection as Mrs. Parting-ton's Carpet Bag or the vagaries of Philander such were the case, the computed quantity of Coal in the region would be reduced nearty one One thing however we will say for the new law

one more of those wonderful events, which have

conspired to make the day, world-wide and fa-

Doesticks

nalf. • Bat besides the bottom Red Arh Vein, which we denominate No. 1. There are other Red, Pink, and that is, that in a recent tour through the State, we noticed that in very many of the villaand Grey Ash Veins above the No. 4, or Baltinore Coal, which is worked at Plymouth by the Messrs Pattens and others, under the name of the Patten or Bennett Vein. The No. 5 and 6, while these houses which still remained open com-plained that their business was rained. In the called at Plymouth the Cooper and Orchard Veins, are a mixture of Red, Pink, Grey and White Ash rural districts the law seems to have taken hold in horough earnest and accomplished the end for Coal; but farther up the valley these same veins are worked at the "Gould Mine Colliery," where Some weeks since I wrote you quite a lengthy

they produce White, or rather Grey Ash Coal. description of the new telegraph to connect the two worlds. This gigantic project is rapidly ad-Fall River. There are, in some parts of the valiey, where the intermediate hills or ridges are sufficiently high to contain them, several other Red Ash worklatbush. N. vancing towards completion. The vessel having the first instalment of cable, seventy-four miles able veins, of nearly the same character as our in length, is now lying at Port au Basque, wait-ing to lay it down, which being finished, telered Ash Veins in this region. Indeed, the geological formation of the three Coal fields are so similar, that we are inclined to think, that the graphic communication will be completed to St. John's, in Newfoundland, which will give us Euveins worked in the three regions may be identified ingham. ropean news in six lays. The long cable from St. John's to Cork in Ireland, 1630 miles, will be laid with each other. Thus, the Mammoth, or Daniel Vein of Schuyl-Jersey City

down with all possible despatch. The steamer Calhoun leaves New York to-morrow with a party kill County, is generally believed to be the same as the Laneaster Vein of Shamokin, and the Baltimore, or No. 4 Vein, of the Wyoming. Valley; and there is every reason to believe, that they are the formation of the same era, for this vein differs as much in the various localities, where it is worked in the same region, and no more, that does in the three Anthracito Coal Fields wh

it is invariably found. It is worked with more r Among the events of the past week we may it, and consequently, in preference to any oth excepting the Wyoming bottom Red Ash V which we think may be one of those worke Brockville and other places in the Schuylkill tention wherever they go-tall and erect of form, with a dignified and intellectual countenance,

In speaking of this Coal-the old Smith Ash Coal of Nanticoke-we beg leave to d from Mr. Gaylord concerning its qualities ases. I have no doubt; and it is very like that the old Germans on the line, and young of too, prefer "De old Schmidt Red Ash Coal:" to the long period in a lime kiln in Fourteenth street. other for all purposes-being partial to this (because their fathers used it, and consequ which accounts both for his appearance and the singular soubriquet by which he was known. He ly, having tried no other, they do not know, difference. But notwithstanding their prefere or the partiality of others, it must be allowed t guished ability. He ranked among the peculiar

the upper Red Ash Veins, wherever found, duce much superior Coal as an article for don In matters, musical and theatrical, we are quite dull; the Payne Opera Troupe are playing at Niblo's, which is all that we have, in addition to tio uses, than e ther the bottom Red, or W Ash Coal. In the Wyoming Region, the up Red Ash Veins are not worked, as they exist in a few localities, and are generally small, beneath the notice of the Coal Operators. B This state of affairs however is only the lull which the Schuylkill it is different, for here the up procedes, the tempest, for by another month we shall witness in the operatic sky, the lustre of some great stars. Rachael makes her debut on Red Ash Veins are worked to a great extent bought readily by Coal morchants at high prices, in preference to any other kinds of Coal for do-me-tic purposes. Two thousand pounds of Red

First volume ready, and the other two to be ready by Jan-uary, 1856. This work is published by subscription only, and cannot be obtained except from B. BANNAN, sole agent for Schuylkill county, or of SAMUEL H. DADDOW, canvasser for this county. People need not hesitate about subscribing to this work -they will not be imposed more as many of them have pouring in in such vast quantities, that they nust and will be cheaper, and that very soon. Flour has declined a trifle. Wheat flour is

now selling at \$10 75 @ \$11 25 per barrel, Rve. \$7 and Corn Meal \$1 15 per bushel. they will not be imposed upon as many of them have even. This work is copy-righted, and will never be sold or less than the price named. The work is not pub-ished in number; beat in bound volumes. No book-tore will have it for sale unless they are agents—and one of them ear will the work for law they the sale Grain is about the same as our last week's quotations. Wheat, \$2 40. Rye, \$1 30 .---Corn. S1 10. Oats is five cents less-now one of them can sell the work for less than the price

By the Court, JOSHUA EOYER, Clerk. August 4, 1855

We deem this statement necessary in consequen selling at 70 cents. The oat crop is good the great reprignance people have to subscribe to books in is country, to traveling agents. Of this great work, the literary editor of the New York and we may expect to purchase the article at 50 cents per bushel before the season is over. bune, who was permitted to examine the advance Butchers' meat is still high, though the cattle eets, says: "The life-long labors of its illustrious author could not

"The life-long labors of its illustrious author could not have been crowned with a more appropriate termination. His name will henceforth be indissolubly connected with that of Washington, not only by his baptismal appella-tion, but by the noble monument he has reared to his memory. It was a befitting tark that the writer who has left such a brilliant impress of his genus on the nascent ilterature of his country—whose fame is dovoutly cher-ished in the hearts of the American people—held in ourally affectionate remembrance in the rude cables of the frontier, the halls ot universities, and the saloons of classical composition have done as much to illustrate the character of America in the eye of the world as the elomarket is well supplied with good beef at 5 cents, standing weight, and we may hope for a decline from the present prices in a ratio with every kind of provisions.

Oil, particularly Winter Strained Oil for mines and machinery, is in good demand, and sells readily for 85 cents per gallon by the barrel. Grensing Oil at 40 cents per gallon .--ance of het Senators or her provers in "arms-should wate a permanent memorial of Washington in a style orthy the dignity of the subject and the reputation of is author." Large quantities of this Oil are sold in this Region; the Winter Strained Leing a good article for burning in the mines and oiling

most of the machinery. The greasing oil is sometimes used for oiling cars, &c.

(Retail Prices.) The supply of lumber in market is good loss of vigor, appears to have gained with age. but business continues dull. The quotations a history than a biography, or, as irving binselfremarks, Washington, in fact, had very little private life, but was eminently a public character. The main excellence of a are- Hemlock, \$16 7 m. White Pine Boards. eminently a public character.¹ The main excellence of a work of history consists in a fudicious selection of illus-trative facts, in their condensation, and in the style in which they are set forth. In all these particulars Irring is known to excel—in the present work he has manifested them to a degree which will establish the Life of Wash-ington as the best historical biography in existence. The predominant and characteristic excellence of the work consist, however, of the life-like and vivid descriptions of persons. As a writer of fiction, Irving has long since learned the art of sketching from books thiose necurato impressions of character which are seldom acquired save from personal acquaitiance. For this reason, if or no \$16 @ \$25. Panel lumber, \$25 @ \$45. Union County. The wheat crop has been injured by recent

the author." The literary editor of the Philadelphia Ercning Bulle-n speaks of this work as follows: "The work in question has been long anticipated by the ading public, and this accident by which its publication added and the accident by which its publication added and the book was provided by maner to an advance to how of the book was provided by maner to an advance to book of the book was provided by maner to an advance to book of the book was provided by maner to an advance to book of the book was provided by maner to an advance to book of the book was provided by maner to an advance to a specific to book was provided by maner to an advance to a specific to book was provided by maner to an advance to a specific to a the loss of the book, was regretted hy many as an almost national calamity. It is needless to say that this blog-raphy has fully satisfied anticipation—we can only say that in it the illustrious author, far from manifesting any

THE COAL TRADE.

The quantity sent by Rail Road this week is 57.911 12-by Canal, 30,654 14-for the week, 88,566 06 tons. Total by Rail Road, 1.356,354 00 against 1,202,331 06 tons-do by Canal, 561,-

693 02, against 486,320 03 tons, to same period last year. The shipments are very heavy this week-that

by the Rail Road being the largest over transported over this road in one week before. We under- Coal contains more silex or ashes than other Coals, stand it would have reached 60,000 tons if a break Commons, by a majority of 107, the numbers down had not occurred, which retarded the cars longer than usual, ?

The Companies decided, very prudently in the present state of the trade, not to advance the rates of toll and transportation on the first of August. We think, however, it is highly probable that they may advance on the first of September. Much however will depend on the state of the trade at

rates already too high. The demand for Coal continues fair, and prices

are firm: no further reduction need be apprehended for the future this year. The increased supply of Anthracite Coal this year from all sources up o the first of August, does not exceed 300.000 tons, if it reaches that quantity. The whole increase from the Schuylkill and Lehigh regions so

far, is about 280,000 tons. The Wyoming trade Germanic Relations has fallen off nearly as much as the Shamokin has increased-and we doubt whether there has been much if any increase by way of the Delaware and Hudson Canal. We made application for the shipments from that quarter, but so far have not been able to procure them. The motives that prompts the suppression of these shipments,

in the present state of enlightened commercial enterprise, we are not acquainted with. It may offect the price of stocks, but that consideration ought to be secondary to the great interests of Asia. trade and commerce.

A friend in Boston, whose good opinion of our Journal we appreciate, writes to inform us that the chaldron.

The same writer also states that we are in error. Mazzini publishes a letter in the Genoa pawith regard to the price of freights from Philadelphia to Boston. On two occasions before the freights were as low, and one year lower than at

present. In May 1842, freights were at \$1 25 Spain. per ton, and in July and August of the same year, \$1 00, and in September, \$1 121. The highest rate paid that year mas \$1 50. In July and Au-

gust of 1848, freights were as low as \$1 25; and protecting public morals, if their endeavors Charge having demanded his passport on the The Black Warrior dispute with the United | to the East, but this statement, only confirms the

Russia.

Total by Railroad in 1855, Canal conclusively proved, to be equal to two thousand three hundred and eighty-seven pounds of the best White Ash Conl for stoves and grates, as Total by Canal and Railmad Bipments to same period last year: By Railroad, 50.544 04 By Canal, 22,745 17

it emits calorie in the proportion, of one to one and a quarter nearly; therefore Red Ash Coal Int \$5 50 per ton is cheaper for such purposes than White Ash at \$4 60; and we cannot readily admit that the Wyoming "Bottom Red Ash Coal," is it any manner superior for domestic purposes, to the excellent White Ash of the same region, . The facts are against it; for the Coal which is ncrease in 1855, so far. Rates of Toll and Trausportation referred for blacksmiths, forges, for locomotive and manufacturing uses, is generally dense, hard and not easily fractured, and these qualities the o Richmond. Nanticoke Coal possesses.
