FRANKLIN IRON WORKS.

No. 46, South Guy stee BALTINGER, September 22, 1854 W. W. Barry, Ecq.-Dear Sir:-At your request I have tried Morgan's Magle Bain in the various complaints for which it is recommended. I itake great pleasure in ad-Minersville, December 9, 1854 which it is recommended. I take great pleasure in ad-ding mine to the long list of testimonials in its favor. I catalidly contest that its effects have surprised me, in Burns, Rheumatisms, Nouralgia, Ac. by its prompt ac-tion and certain rights. It is should be found in every may's house, as an invaluable antidote to pains of all kinds. I have tried it in my own family, and found that it gave the right it promised. Yours, truly, a hume 0.55. TREMONT. TREMONT IRON WORKS. Tremont, Schuylkill County, Penna. The Subscribers respectfully invite the stightlon of the businesscentuality to their New Machine Shop and Foun-to their New Machine Shop and Foun-transmission of the superintendence and manage-ment of Messes Z. Batdorff and Philip Emholts, where and of Messes Z. Batdorff and Philip Emholts, where ment of Messrsi Z. Batdorff and Philip Umholtz, where they are prepared to excente all orders for Machinery of Brass and Ironi such as Steam Engines of any power, pumps of any ispacify. Coal Breakers of avery descrip-tion, all kinds of Gearlar, for Reiling, Wills, Grist and Saw Mills, DrittClars, and all kinds of Railread Castings, such as Chairs for Flat and T Rails, Progs. Switches, hild all ideas of Cast and Wrought Iron Shafings. Harrisburg, May 12, 1855

The Proprietor has vinceeded (from directions of Pro-fersor Stone? in Combining the Oll and Lime so perfectly that the taste of the Oll, which is so nauseous to perions generally, is entirely prerome, and it can be taken by the most deficit founds with pleasure. And as regards the benefit of this article over the pure oil, the following case, by Pref. Stone, is sufficient to convince the most sceptical. The young lady was 24 years of age. "Her disease was one of unmixed phthisis, which had been expetted to terminate in the course of a few months, fatally. The upper part of both her lungs was filled with tubercles; and in some places were beginning to botten. The coverse of a few months, fatally.

fatally. The upper part of both her lungs was filled with tubercles; and in some places were beginning to botten. The case was evidentif a bad one. The treatment of cod liver cil was at first used, but, without marked improve-ment. The phosphate of line was then administered, with the oil, and the result, as in the case of many others, was soon apparent. The pattent was rapidly retting well. UAUTION.—On account of the great reputation of this Compound for all Lubig Complaints, the subscriber would caution the afflicted against using any except that man-ulactured by him. as he has the only recipe in the U. States for combining the pure Oil with Line. In a proper manner, Therefore is you raine your health; purchase none except that manufactured by ALEXANDER: B. DESFEPSIA BREAD.-Three quarts ... bolted wheat meal; 1 quart of soft warm "

to 500 tons of guano, made of long poles firm ly bound together and interwoven with rore and chains. These are wide and open at For rates of Prominus on Life Insurance, see printed bles, supplied at the Company's office. NATHAN EVANS, Prest. end, which is on the extreme edge of the process of the second se pipe, two feet in diameter, which extends dow 100 feet to the deck of the ship. Through 37-ff this schute the guano passes in a continuou stream of tremenduous force, at the rate a from 100 to 400 tons per day. The bin 2 filled by Chinese coolies and the Peravar convicts. A year since there were about 3. of the former, but their number was then my idly diminishing by ill treatment. Each mu is compelled to bring to the schute five too daily, and if he fails to do so he is punish by negro drivers with the whip. The barb ity used toward these coolies, who mere c slaved by treachery, is almost unparalleled. There are about 100 of the convicts. SORBEL .- A correspondent of the Germa town Telegraph says :-- "The presence of " weed---grass we besitate to call it--is as dication of an acid soil .- one on which al \$358,318 70 lescent manures, such as lime, ashes, etc. calculated to produce their best effects should never be permitted 'to prow when 170,568 56 can be avoided; but when it does take mi

\$523,687 20 it is the part of good economy to make a most of it. When cut green-before ? seeds have become indurated, and cure "grass cocks," it makes a hay which sheeps ASSETS: very fond of, and on which they will will well. Horses, also, partake of it, and b been known to do well when fed on it m

-1379,701 1 very little other food. The seed of sur ground into meal, and fed to swine, will ca them to thrive and even fatten. It is very tritions, and when fed constantly, appear

have a salutary effect upon the general ? tem, and to be promotive ut the gene health. But after all that can be said in behalf, it is, like the ox-eye, ddisy and Cana thistle, a most undesirable tenant. Units the extremely indurated texture of the F carp or involcure in which the germ is closed, it possesses the power of remaining the soil for years uninjured. When turk

down with a deep furrow, it does not veget but awaits the next inversion which will be nearer the surface, and in a condition put forth its long dormant energies, and t a march upon the regular crop. Lime is it best remedy; it sweetens the soil, and contained the beneficial acid into a salutary manure.
