B. DANMA-SIT: -- Please publish the follow-ing note in reply to a communication which ap-peared in the Miners' Journal of the 8th inst., from Mr. Jas. C. Connor: In publishing the card to which Mr. Connor refers, I had not the most distant idea that I shou'd be drawn into a discussion at that it would attract the least attention from any of the parties interested in the Ashland estate, either as owner or operator, and was therefore surprised to see what operator, and was therefore surprised to see what is intended as a reply to my card, intimating that if felt disposed to doal unfairly and dishonorably in reference to his Coal &c. In answer, I beg to state distinctly, that up to the 25th day of Au-gust last—three days after the card was published —I had never heard the name of Locust Mountain Coal in connection with his Colliery. The only name I heard previous to that date, was either Mammots or Connor's Askland Colliery. Mr. Connor takes it upon himself to pass indep

vania, has surveyed them, and prononness th equal to any in the United States. A large be-

Coal also exists on the Saginaw River,

<text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text> Mr. Connor takes it upon bimself to pass judg-ment upon the quality of the Coal, whilst I pre-fer to leave that to a disinterested public, feeling entirely satisfied to abide by the decision arrived at by those who consume the Coal.

A RAKE UHANUE. --- 1 ne old and well established store of Dry-Goods and Groceries, corner of Centre and Norwegtan streets, is now offered for sale on reasonable terms, the owner wishing to retire from business. For particulars inquire at the store. August 18, 755 R. M. DEATTY.

This explains its agricultural resource a life for the price of the second which will go to the reduction of the price of the or farma. This explains its agricultural resources. But there is a second seco of its northerly situation, it possesses the advantage of nearness. This is destined to become the Pottiville of that por-tion of the State. The prospect in the future for this place exceeds soy that Potterille ever had; and there, iand, which a few years ago was selling at fire and ten dollars an are, when the railroads opened to mines, sold for from two hundred to five hundred dollars an acre.— These are facts. Those who are ignorant let them make inquiry. Improvement is still progressing. To arrive at the truth, judge the future by the gast, and then what will this land be? It is proper that reason should give the answer: SCIENTIFIC STAIR BUILDER. THE SCIENTIFIC Stair Builder.

by Robert Hiddell, illustrated with 40 plates. The author of this valuable work has been for more than twenty years a practical builder. His specience has con-tineed him of the want of a system, at once simple and reliable in the contraction of Staircase, Hand Railings, Ac., and respectfully calls attention to this work. For asle at B. BANNAN'S Bookstore.
