. DAVID P. BROWN,) . І. Р. Внооке, Ј. S. Ківк, Committee HENRY MEYER.

Newark. New York and vicinity, E. Bonda, Brooklyn, Holoken. Genters-I have received your communication Poughkeepsie Total for week. Asignation of Schuylkill County. The matters to which it alludes are of grave

therefore: for addressing you at some length, in order that there may be a most perfect and fonk understanding between us. This is essential to the well being of both the great interests so closely identified. From Pt To Philada., Spring Mills,

Some o: you, at least, are aware from our conversition at that time, that in the early part of the winter, I did regard some velocition in the charges for transporting your Coal to market, as a measure which might become at least most expelient? By the unusual severity of the past winter however, all shipmonts of Coal were entirely "surfiended for more than two months and the supply in the various markets caute almost exhausted. In my judgment, the cost of its transportation then because a me c anertion between the transporter and the consuder, rather than with the producer; and, when this is really the case, it has always been wisely (is I think) conceded by you, that the transport-ing companies should receive fully removerating rales. Under these circumstances (after an inter-change of views with the officers of the Schuylkill Navigation Company,) the charges of the last year ware adopted to July 1st, next.

About two weeks since, a Committee of the Operhors at Richard ware appointed to represent the full state of the trade, which they attributed in part to the prevailing uncertainty as to the prices which might be adopted by the Delaware & Hudson and the Pennsylvania Coal Companies. At the isnegrestion of some of these gentlemen, with a yiew to a certain accurately the determi nation of those controlling these competing works ht once visited New York, but found that on the day previous, the Pennsylvania Coal Compa-ny had published their prices, and which they redriled as corresponding with our announces ite. ; While this was substantially correct for he New York markets, the prices for Eastern art were 15 courts per ton (owing to the lower regula from Rondout than Richmond.) too much dlucial to leave a remanerating price for the Chal für Schuvskill County after paying \$2 00

defight After much discussion, this point seemed to be theilly conceded, and I was satisfied that a to be theilly concerted, and 1 was subsequents a drawback of 15 cents per ton to July 1, (when the Poinsylvania Coal Company announced an alyange of 10 cents) on Cord going to Eastern prits would not cause any charge in their prices, while it was stated most positively that any farth-The tride has opened unusually brisk in the of reduction on our charges would be followed by a correr-ponding diminution in price on their part Prograthe Delaware & Hudson Company I learned

was no concerlment of this action. The Schuy!

Another reduction by no would, I presume, ead to abother corresponding one by them, which yould thus leave the two Regions in the same

comparative position as now, and would also lerd,

as I am informed, to a similar reduction by the

make no further reduction in their charges.
