Congress,

Kansas affairs are occupying the attention of Congress; and in the Senate eliciting spicy debate. The bill reported by Douglas has CONSTITUTE THE MOST VAL-CONSTITUTE THE MOST VAL-UABLE IMPROVEMENT OF THE AGE IN⁵ME-CHANICAL DENTISTRY. Testh put up in this style are next strong, and benutiful without joints or inter-stices for the accumulation of flod or other extraneous matter, roudering the mouth as a consequence, weet and pleasant. With these advantages they are greeted with universal favor by all who admire handsome and na' ural looking theil. Having availed anyself of the right to use, and already tested them in 'my practice, I feel confident of the result in the public. Pottsville, April 19, 1856 not yet been put to vote in the Senate. The bill annuls all existing laws in Kansas, and provides for the admission of Kansas into the Inion as a Slave or Free State, according to the wishes of the citizens legally entitled to decide. The bill however is opposed, as it will not give peace to Kansas. In the House it has been resolved that the

majority and minority report of the Kansas Investigating Committee shall be printed as one document.

This reputation he is determined to build up, with the assistance of a share of the public patronage— i fair pro-portion of which is guaranteed for him by numerous friends, independently of that which he hopes to obtain by close attention to business and strict attention in the second patronage which may affort the health and by close attention to business and strict attention in mixing prescriptions which may, affect the health and lives of his customers.

lives of his customers. Deception in preparing and compounding of medicines for ruthless speculation he will never resort to, though it is notoriously true that such a dangerous deception is much more extensively and successfully practiced by druggists than can be readily imagined. Confident of obtaining a name and rank amongst the first of his cotemparies, he oily asks attention to prove his will to serve, and his ability to satisfy the most exacting.
