A similar meeting in Fairfax county, with George Washington in the Chair, resolved that "it is the opinion of this meeting that, during our present difficulties and distress, no slaves ought to be imported into any miles of Washington. SHAN DENOCRATIC DOCUMENTS .- This section f the State is being flooded with documents setting forth the peculiar claims of Mr. Buchanan upon the people of the country, and denouncing in no measured terms Mr. Fremont, as the advocate of measures which exist alone in the fer. St. Clair should esteem it an imperative duty, to place ile imagination of the authors and disseminators of the pamphlets in question. A singular feature of these documents is, that their assaults are entirely directed against Mr. Fremont, Mr. Fillmore not being adverted to ... The Patent Domocracy in their tactics appear to think that the contest really lies between Fremont and Buchanan, or they are endeavoring to woo the Fillmore men over to their side. As far as Fremont is concerned, August, inst. The following named persons were in at these pamphlets, which the Buchanan men are tendance: distributing with a lavish hand, will not injure Dr. T. F. the future. According to present appearances, he will sweep every Northern and Western State, by an unprecedented majority and will poll a vote in the South that will astonish the Southern politicians.

BACKING DOWN .- President Pierce sent a message to the Senate on Tuesday, saying that no order had been issued from the War Department to any official commanding in Kansas, to disperse any unarmed meetings of the people of the terri-
