Nor & BAD IDEA .- In the New York Legislature a bill has been introduced to license drinkers of intoxicating liquors. It provides that no person shall drink strong liquois without first. obtaining a licente, which may be granted by any Justice of the Peace. Novel but effective. But

few we think, would fancy the disgrace of having their names down, on a list of rum drinkers .---Nothing would fond to stop the traffic quicker, or save the inchriste from the liquid demon.

BULLYISM REWARDED .- Capt. Rynders, the N York political rowdy has been rewarded for his services in the late campaign, with the office of Marshal. Rum, fists and lying are three requisites now-a-days for the success of a candidate for the Presidency, or, in fact, any other office .----()f course the most prominent possessor of either qualification, to swill rum, fight or lie, is kindly emembered. The fellow who can boast of all, is invaluable, and no reward is too great for him.

HASTY LEGISLATION is productive of evil and inconvenience. Improper bills, which will not ar the light of investigation, are hurried through at the last hour, while omissions are at times, in evitable. The National Intelligencer gives an in-. stance of the bad results of the habit of postnoning important bills until the last moments of a session of Congress, when there can be no wise consideration of any item, and members are compelled to take the hasty work of conference committees, or permit the appropriations for the public service to be defeated. Allhough the Committee of Ways and Means had reported an item of-three hundred and sixty thousand dollars for the National Armories, no such sitem appears in the aw, and the manufacture of arms for the current year must be considerably curtailed, or the financial ingenuity of the War Department must be exercised to find a method of borrowing from some other fund.

THE PURISC WORRS .- The agnested commani-cation continues a sabject, which in a sarles of ply from this region must inevitably fail short at least that quantity. With the co-operation of articles in the Plijindelphia Bulletin has attendted much attention. The gross mismahageme the Railroad and Canal companies the whole of the Public Works of this State has been a fruitful theme of public comparent, mar has i: diquestion is at ence attled-the trade abroad can (cited more than the importance of the matter warrapts.
