THE PHILADELPHIA NEWS is thoroughly despised by every honest journal of the Opposition in the State. The Eris Constitution rejoices that

the News does not support the American Republican State Ticket. No better evidence of the rospectability, honesty, and ability of the Ticket need be given. The political /miscreants who control the News, are despised by honest men of all parties, and there is not a true American or Republican in the State who would not scorn affiliation or association with such traitors. Their consure is but praise. In the eyes of the Constifation the News is an open, shameless, depraved postate; it has lost its good name, and has no spirations to reform ; is stole the livery of Ameri canism to serve the Locofocos in; it is without exception the most degraded print that disgraces the political journalism of the nation. American Republicanism wants no aid from it and will have nothing to do with it. Is is an outcast,

This is the chief point by his matter, and therefore there was considera-tion given for the notes.—This is the chief point in the case, so far as principle is involved. But there are several other points of interest Our Supremo Court decides that this position is well taken, and that the bringing or sending a slave into this State makes him free. To this point Judge Bartly dissents; the other judges agree worn it. This if will be seen conflicts with the pon it.
