ers from the "nuld countrie"-especially all such

as have served their time behind a wheelbarrow,

are mighty fond of this sort of thing. One of

these "gintlemen" was lopping of and utterly de.

spoiling the natural ways of a fine. linden tree

If you find some of your transplanted tress

flagging, and looking as if they were going to say

good-bye to you, don't imagine you can save then by pouring manure water about their foots. Tra might as well give a man nearly dead with ir

bility and starvation, as much plum padding w

he could make a meal of. The best thing ye

can do is, first to reduce the top little more (or s

good deal more if needful,) for the difficulty not

probably is, that we have more top to exhibit

than root to supply. Then loosen the soil, sai

water it if dry, and lastly, mulch the ground Her

far as the roots extend. This you may do by

covering it with three or four inches of sur

litter, tan-bark, or something of that sort, token.

the roots cool and moist, so as to coar then 150

new growth. Watering a transplanted tree are!

day, and letting the surface dry hard with the st

and wind, is too much like basting a joint ?

and wind, is too much like basting a joint meat before the kitchen fire, to be looked apa as decent treatment for anything living. If yet tree is something tare and curious, that year and curious, that year

afraid will die, and would not lose for the world.

and yet that won's start out, in spite of all your

wishes, syringe the bark once every night after

sunset. This will freshen it, and make the d t-

mant buds shoot out. If you find any of your fruit trees barren, in a too great running to wood, about the fat June is the time to shorten back the long law

or just after sundown-the latter 'the better 'the by all odds. Find out whether 'they "root"

the under or upper aids of the leaves, or all a start a start

and clip or pinch off the ends of the side shat

mant buds shoot out.

and they might as well attempt to comb a bundle, those who keep one, two, three or more come. Prices of the prices of price

We had supposed that the "notice to quit" given by us to "poets," two weeks since, would prove effectual in stopping this exhibition of the morance and vanity of those who indulge the des that they are "smart." But we were mistaken, and the stream of "poetry" continues unabated. In order that our readers may form some ides of the character of this trash, we append the following, which is the best article of the kind we have received .- Tyrone Herald. The Murder of Horcross.

BY JACOB H. L. T.

Poor Norcross by the murderers hand fell in his alrly priem And by a villas wepon Was hild befour his tyme

No.1 was neer to stop the hand What druy the murirers blayd And norcross nothing more did no Till he in death was lade

He took a big club fore foot long and hit him on the head and beet the poor mans branes out Untill he lay thear dead

And then he took a rasir out And cut the dead mans throte And then he pict his pockit Of every doller note;

And then he lade him on the track And fade it would be fan To see him lyng bleedin there And let the cars over him run

But poor norcross he did not fly But worked in Agony Until an irish rale rode bos lie chansed him for to see

The sight it was so terabel The man he farely cride And Norcross finden he was safe turned on his back and dyde

And then they called an Ingest And the doctors they did cum There names was hays and landis As drs they are sum

They tride to bring poor norcross two But all alas was vain For by the hand of bloody markim Poor norcross he was alane

MORLE

Now all men take a warnen by this yung mans and Tait And never travel with strangers Who are of such low rate

No never travel with strangers With who yure not acquante Or afore you leve him yule be kild Ilé wonder if you ante

"Juvenile' Wit.---

An old physician was declaring in our hearing the other day, upon the propensity which a majority of people display in cating unripe fruit and vegetables. Said he; "There is not a vegetable growing in our gardens that is not best when arinjurious unless fully ripe." "I know one thing that ain't so good when it's ripe as 'tis when it is green," interrupted a little boy, in a very confidential but modest manner. "What's that?" sharply said the physician, "What's that?" sharply said the physician, rived at maturity, and most of them are positively injurious unless fully ripe." ripe as 'tis when it is green," interrupted a little

boy, in a very confidential out moves manner. "What's that?" sharply said the physician, vexed at having his principle disputed by a more boy.

JUST THE THING WANTED!
