Every department of Mr. Abbott's factory has been

much improved, and his business has increased in pro-

portion. The most important branch, of course, is the manufacture of cars for the transportation of Coal, of

which so far this year, he has turned out 168. The

wheels used are Bush & Lobdail's, made at Wilmington

Del., said to be the strongest and most durable in use

Mr. Abbott employs 50 workmen. He is ab'e to tur

out of his workshops, weekly, 10 eight wheeled, or 2

our wheeled cars. He is at present completing some

pped cars to Illinois, Pittsburgh, and various section

f this State. His cars have an enviable reputation, for

their strength, and excellence of workmanship upon them, and we are not surprised that Mr. Abbott has in

reased his business to such an extent within the year

Upon his premises, Mr. Abbott has 300 feet of time hose

excellent condition, which with 200 feet more in the

minity, the property of Mr. Kirk, lessens the dauger

rom fire. A plug in his sard supplied by Welf Creek, i
