A paper has just been started in the city of Philadelphia, which was deemed the most tavorable locality to such an enterprise, devoted exclusively to the cause of slave lisbor, and in open opposition to the free labor asystem of the North. The Journal is conducted by one who desires the public to understand that he is a Southern man only, whose mission it is to keep Philadelphia there has in the slave driver's traces. The baid paper boldly amountes that those who sustain it and the South by advertiging their houses in its columns only can in full are depend upon a Southern trade, and the most cinfirmed differences as willing dogs to soil their principles for what their minders may choose to ray. Whether they will succeed in compelling Philadelphia to ensure the State to the slave democracy remains to be seen. If so, it also remains to be seen where the freemen of the State will get in fature to buy, their goods—whether to Philadelphia or New York.

The annexed capital political squib from the Mauch Chunk Gazette reminds us of the time when in our County, our friend Judge Riley, stumped the County, addressing the voters in good honest Pennsylvania Dutch. The Gazette says:

Last week we pledged ourself to stand by our neigh-bor of the Democrat, at least to seems for him an open ring and periest fair play. We are already called upon to reducen this pledge.

The Democracy have a little Dutch paper down at Websport, devoted to the interests of General Lilly in general and Mr. Williams the man who is to take Mr. Tolan's reat in the next Legislature, in particular. The Telan's seat in the next Legislature, in particular. The last number contains a communication (originally written in English and translated into Dutch by the editor.) appealing to the Democracy to attend the August meeting and pass General Lilly's resolutions demonstrated the Main Liuc saie for which Mir. Tolan voted. Thus they expected to head off. Tolan—to manufacture opinion against him in dutch, well knowing that he can neither speak, nor write that language.

expected to head off John—to manufacture opinion against him in dutch, well knowing that he can neither speak nor write that language.

But, as we are Mr. Tokan's right hand mam, so far as the Main Line is concerned, and as we are ourself native Penusylvania dutch of the clearest grit, he has nothing to bear. We will proceed to discharge our duty.

Mr. Tokan must learn dutch. If he don't he's a goner. He need not learn the language entire—only enough to convince that particular wing of the Dutch democracy of this county who can be influenced against him by the entants of the Weissport Folgariph.

Three lessons are necessary to do this, and if he will study them well and do as we direct, it will take be gun of greater calibre than this Weissport concern to britis him down. The lessons are as follows:

1. Pripodence General Jackson in Dutch.

Therecapil Tchackson.

2. Declare yourself a Democrat, emphatically.

Flommi settleth bin a Benmygraut—my dandy und mis groes daudy warm demmigrand un petammt leh geh for der Tcheneral Tchackson, under Bookkannin un net for de keris wu als vight half for selly sin de dories und demberous lite.

3. Pas a Democratic onlying of the Neat Reconvillence.

3. Pass a Democratic opinion of the Black Republicans, in Dutch.

Die Rippopplikans wie sie sich hara die gehna for die weise lite under die schwortse zu du und so an law zu passa des die nagar die wise wibeslite heirs, un for sie frei zu gerva des sie doruff kumma kenna unsochlakle, un sel, un all unser soch abtela un uisufressa un unser sitell obzuberena:

After having committed the above to memory, Mr. Tolanimust travel out, shake hands with every one who swears by the Welssport Zelgruph, and utter all the above dutch. It would do no harm if he would practice excasionally on "swie lager elu-bretsel un behweiter hase." But the greatest difficulty will be with some of the native dutch democracy, who were born Democrate and are Democrats because their fathers and grand-fathers and grand-fathers and grand-fathers and grand-fathers showe them were domocrats. If the above surgested declaration for Tcheueral Tchackson won't fetch 'em straight, then we fear your case in hopeless. Hr. Tolani. But you must try—'t's the best and only thing you can do. Should you succeed, we will give you the blint; as ofted as they dutch it" on you.

HOW THE DEMOCRATS LOST WEST GREENWICH. -West Greenwich in Rhode Island has long been under Democratic rule; but at the last election, the Republicant by a neat manœuvic carried the day. The Democrats have usually at elections had their ballots printed on colored paper for their doubtful men, so as to spot the voters as they came up. The color has varied with the different elections. In this way they could tell how the yoto stood at any time during the day, and they could draw up absent voters accordingly. At the last election the Republicans supplied themselves with a sufficient number of tickets of all colors, and waited the appearance of the others. The Deinocratic tickets turned up red. Republican tickets were speedily distributed of the same color; both parties began to vote, and the red tickets carried everything before them. The man who checked the lists marked every red ticket as Democratic, and was surprised at the poor show the Republicans were making. But after awhile the truth of the case was discovered, and then the Democratic pocket-books were taken out, Democratic horses were harnessed, and a general Democratic rush was made for the aged, infirm and delinquent; but it was too late. Most of

them had voted on one side or the other, and the polls closed upon a Republican majority. THE desperate condition of the News faction i existed in the plenitude of the News epithets ieu of arguments, such as liar, etc. A poor outemptible position that paper now occupies.

Club," and the Bowery boys, between whom for months past, much ill feeling has existed. The cause, indirectly it is true, rests upon Mayor Wood, who labored to the best of his ability, both by precept and example, to bring about such a feeling of rebelliousness against the law as made the dreadful riot of Saturday an easy one to incite; and did all in his power to deprive the city of any police protection whatever. The Courier and Enquirer says that upon Mayor Wood and upon the few capable of thinking for themselves who support him, rests the responsibility for the bloodshed of Saturday and Sunday; and were strict retributive justice to be meted out to them, they would swing by the neck for

Last week all the old books, papers, drafts, obseks,
letters, &c., that had been preserved on sie as
vouchers in the long course of the immense business of the United States Bank were sold in a heap in Philadelphia, and purchased by a paper-maker to be reground and manufactured into new stock. The whole mass weighed over forty, tons. Ten tons of this vast amount is of correspondence— autograph letters of the first statesmen, poli-ticians, and financial men of this and other condticians, and financial men of this and other sometries. Drafts upon the Rethenblids for hundreds of thousands of dollars, certificates of stock transferred to the leading backers in Europe, checks and drafts from Cabinet officers, Senators, Congressmen, editors of newspapers, 200, all lie scattered ready for the important transformation into clean unsullied, white paper. This hape mass of books and papers strikes the visitor with autonishment. A faint idea may be formed of the collossal character of the institution which at one time occupied so important a part in the history time escupied so important a part in the histogy of the country. What a wast, storehouse these papers would be for individual histories; and per-chance they would illustrate some whosplained passages in the history of the political parties of

PHILADELPHIA MOVING .- An attempt is about being made to establish a line of steamers between Philadelphia and Liverpool. The experiment as our readers are aware, has been tried before, and failed. Philadelphia needs more mercantile spirit. She can never hope to rise to the position New York occupies, until the fosters the liberal views entertained by her successful rival. Take the best view of the matter we may, Philadelphia is a "slow coach"—entirely unfit to be the metropolis of a State like Pennsylvania. Let her try another line of Liverpool steamers; but their fate in the present stagnant condition of Philadelphia's energy, can be easily predicted .-Her merchants will continue to import their goods through New York, and in a twelve menth her steamers will be sold and transferred to another

city. To the letter does Philadelphia carry out the policy-"penny wise and pound foolish." THE PLANTATIONS AND SLAVES OF THE SOUTH. -The New Orleans Delta estimates the number of slaves at the Beath at over three and a half millions, and their aggregate value at present prices, at fully elateen hundred millions of dollars. The cotton plantations in the South it esrates at about eighty thousand, and the aggregate value of their annual product at the present prices of cotton, is fully one hundred and twenty five millions of dollars. There are over fifteen thousand tobacco plantations, and their annual products may be valued at fourteen millions of collars. There are two thousand six hundred angar plantations, the products of which average annually more than twelve millions. There are . five hundred and fifty-one rice plantations, which

yield an annual revenue of four millions of dollars. LADY BULWES, having hunted her husband through about four and twenty volumes, now con-centrates her wrath in a ferocious pamphiet, in which she is more vituperate than ever before. Some of the pustages are attounding, from their outre and innastic venom. For instance, she says, after a long burst upon one of her husband's willeged enormalities: "But then you have tact, and I have not... Very true; and such has been you that had you been Judas Iscariot—which chronology alone prevented you being—you would never after selling your God, have had the grace to go out and hang yourself, but on the contrary, would have sat down and written an apis-

the to the Corinthians—the Glasgow students of that day—denouncing the black and beinous sin of treachery, and warning them against ft; which would doubtless have procured you the honor of being cites by the ponny-a-liners of the present day as a great authority on that head." DIABRECEA.-It may be well for persons traveling during the summer to know, that in case a physician is not at hand, a safe remedy, of considerable efficacy, is found in stirring a little wheat flour in a glass of cold water, until it is of the consistency of thick eream, drink it down, and repeat sistency of thek eream, drink it down, and repeat it several times to the course of the day, if need-ed. Meanwhile, and nothing, drink nothing, and lie down, if practicable. The flour may act me-chanically, not medicinally, by plugging up the relaxed mouths through which the watery parti-cles are poured into the intestinal canal. Here, diarrhous are often the result of the greater coolness of morning and evening over mid-day, and the injurious effects of bad air on an empty sto-

mach; hence, one of the most important rules for travelers, in all seasons, climes, and countries, is, never fail to breakfast before you ride.—Hall's Journal of Health. EDITORIAL CONVENTION .- Notice of a Conven tion of the editors and publishers of the press of Pennsylvania, to be holden at Danville, on Wednesday, 29th inst, is given." We respond to the call cheerfully. A number of the prominent citisons of Danville have extended a cordial invitation to the fraternity, and we presume, will entertain them.. There are a number of abuses connected with the press, which need reforming, and

we hope that the sttendance will be good. There are several important questions upon which the press of Ponusylvania is culled to take a firm and manly stand. BATARD TAYLOR CAUGHT .- The N. Y. Trib.

"As other journals have already mentioned the fact, it is, perhaps, not improper for us to state that Mr. Bayard Taylor is about to be married to Miss Marie Hausen, at daughter of the eminent will take place at Goths, the residence of the bride's family, in the Autumn, after Mr. Taylor's return from the North Caps. The happy couple will spend the next Winter at Moscow. This event will not prevent the execution of Mr. Taylor's return from the North Caps. event will not prevent the execution of Mr. Tay-lor's plan of an exploration of Central Asia pre-vious to his return to this country."

SILBNOR OFTEN, THE BEST WEAPON .-- An En-Silence offer; the near Whapow.—An English officer in India, while sitting at a table, was
noticed to turn pale, with fright, and on being
asked the reason, quietly replied that a snake had
come into the room and twisted himself round
his legished a leg of the table. A gentleman rose,
to kill it, but he said, "Do not; touch it. Don't
wake it, for it will strike its fangs into me. Let it wake of itself, and it may leave me harmless."
The company left silently, and the officer remained in perfect stillness till the snake waked and

Drag Sin: Having become prematurely quite gray, I was induced; some six weeks since, to make a trial of your Restoraire. I have used less than two bottles, but the gray, hairs have all disoppeared; and although my hair has not fully attained its original color, yet the process of change is gradually going on, and I am in great liopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moistage and vicor of the hair, which before was harsh and dry, and it has ceased to come out as formerly.

Respectfully yours.

Professor Wood.

Professor Wood. Castria, Illinois, June 19, 1856.

I have used Professor Wood's Hair Restorative, and have admired its wonderful affect. My hair was becoming, as I thought, prematurely gray, but by the use of his "Restorative," it has resumed its original color, and eneutly 50.

Important Discovery. CONSUMPTION. DISEASES OF THE LUNGS AND THROAT ARE positively curable by Inhalation, which conveys the remedies to the cavities in the liungs through the air parasycs, and coming in direct contact with the disease, neutralizes the tubercular matter, aliays the cough, causes a free and easy expectoration, beals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispanable for the restoration of health. To be able to state condently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. In the second; but-in the third stages it is impossible to save more than five per cent., for the lungs are so cut up by the disease as to libit defiance its medical skill. Even, however, in the last stages, inhalation: affords extraordinary relief to the suffering attending this fearful scourge, which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, leighty millions are destined to fill the Consumptives grave. RE positively curable by Inhalation,
