Miners' Journal. POTTSVILLE, PA. ATURDAY, JULY 18, 1857.

Tas circulation of the MINERS' JOURNAL is equal of ation of the THREE directiates reniation of the massive ta wavertise to portion of the massive ta as much In our cities the rates of courses when we have a start of the part of the part of the part of the paper.

OUR POLITICAL CREED. Determined, opposition to the extension of Slavery into the Territories of the United States — and opposition into the acquisition of any Territory, either by annexa-tion, purchase or conquest, for the extension of the area of Slavery

ciples of the Declaration of Independence. In its mea-are is the more important, because recent events have fully shown that no question of Governmental policy. In all its various departments, and even the question of Religion fiself, cannot be discussed without the "ninger question" being forced into the arena, and the whole country distracted and convulsed, casing allena-tion and hosting positions in various sections. Good iton and hosting positions in various sections. Good null for the positions in various sections. Good prount, a Union among the States, and Harmony the whole people, denand that this greak and ig wil abould be removed by all lawful and juit ; as speedily as possible. Improvement of our livers and Harborr, for the

he improvement of our fivers and instruct, for the notion of the Internal Commerce of the Country i ther with such aid as may be prudently extended he General Govornment, to the construction of Iroads and Aclegraph Lines to the Pacific Ocean, estilisted quick communication throughout the cam-

facilitate quick communication throughout the equi-, which is the only means by which such an extend-forritory can be Bound together in one Union. A Revenue System, of duities levied on Foreign Mer-nudize, sufficient for the support of the General Gov-ment, and so arranged as to discriminate in favor of, d also to protect the Domertie Industry of this

While we accord to every man the right to worship bis Creator according to the dictates of his own con-clunce-without fear or molestation, and will moscribe in man on account of his birthplace, who is a good citino man on account of his birthplace, who is a good clu-zen, and cordially supports our Institutions—yet we are decidedly, opposed to Roman Catholic. Jesuitical, and all other Foreign Influence, not in accordance with our Institutions; and the best good of the masses—and lastly, political opposition is men who give or offer to Roman Catholics office, to influence licit votos, as a means of political advancement of themselves and others. The total proliticition of the Liquor traffic as a baver-res and the averating of the same punishment to those age, and the awarding of the same punishment to those who violate such a law as is awarded to other poison

ers and murderers of the human race. The above is an outline or main feature of the leading principles this paper will enderwor to advocate and es-tablish in our dovernmental policy.

THE attention of the reader is directed to the new advertisements to be found in our columns. this week. Want of space procludes the possibility of noticing each in detail.

..... A NUMBER of articles prepared for this paper have been unavoidably crowded out, including a notice of the Locust Gap Coal property. They of as a candidate for the higher honors of the country, he was stigmatized by the whole Democwill appear next week.

¢. SEVERAL of the Philadelphia papers are said to be almost wound up.

PASSENGER BAILWAYS it is thought, are at last to become a fixed fact in the Quaker city.

McKin the murderer, strongly asserts his innocence. He is well, but a little pale. He will be executed on Friday, the 21st proximo, in the jail yard at Hollidaysburg.

..... HUNBLE VIRTUE .- Flowers have bloomed on our prairies, and passed away, from age to age, unseen by man, and multitudes of virtues have been acted out in obscure places, without note or admiration. The sweetness of both has gone up

to heaven. DESECUATION OF THE SACREDNESS OF THE DAY -The convicts of the Indiana State Prison were permitted to celebrate the 4th of July with an

oration from one of their number, and other exercises, after which the State treated them to a

BLASTING PAPER .- This article for which B. nnan of this Borough, is the Agent in this lounty, enjoys on enviable reputation as a superi rarlicle. It will hold water without injury to it, for a foftnight. Last week Mr. Bannan recoived an order from Mr. Cunard of the European itesmers, to send some of 11 to Nuva Scotis. That was after a sample of it, had been sent and its merits fully tested. The mill manufacturing it, has unfortunately, been barned down, but will shortly be in operation again, when Mr. Bannar

will be prepared to supply orders. THE RESUBBECTION OF THE DET. BOSES.-Hinton Rowau Helper of North Carolina, son of a slaveholder, has published a book on the im-

pending crisis of the South, and how to meet it The language and statements are stronger, much stronger than we have yet seen published at the North by the so called Abolition journals, or heard from Free Soil speakers on the rostrum. Next

week we will commence the publication from it of some interesting extracts. A great book. One that will cause a shaking among, the dry bones of the slaveholding portion of the South."

To THE DYSPEPTIC .- Many remedies have been brought before the public claiming to be specifics for the cure of Dyspepsia; but the many sufference by this most painful disease have tried them in vain. We have now a remedy before us, that no only promises but actually performs cures, whic are not confined to cases of recent date, but in those of long standing and chronic character which had defied all previous efforts of medical men. All diseases of the stomach are cured by this preparation, as well as the Debility and lassitude incident to the warm weather. They contain wonderful tonic proportions although entirely free from alcohol. No medicine of the day has ever

attained so great a popularity, if we except the great cough preparation by Dr. Wistar, known as the Balsam of Wild Cherry, which has done more for the relief and cure of Consumption than all other preparations combined. Many leading physicians use both these medicines in their pract although some of them have not the firmness avow it.-Exchange Paper.

JANES B. CLAY .- The Louisville Journal thus nments upon the present position of this gen

lleman, who has accepted a candidacy for Congress, at the hands of the enemies of his illustrious father. There is a natural instinct in the bosom of every right minded man that tells him the stricture is just :

"Mr. James B. Clay, as the public are sware, is the regularly nominated Democratic candidate for Congress, in the Lexington district, so long represented by his illustrious father. This is, indeed, a most deplorable spectacle for the eyes of the civilized world. The son's acceptance of the

nomination of a party, that for twoaty-five years pursued and persecuted the great father with a fiend like hate and diabolical malice, is a thing bo shameful to be thought of without unutter le loathing. Most certainly, no other politicie

or statesman in this country was over assalled with such bitter, remorseless, accursed and perse-vering slander and calumny as Henry Clay; and it was the Democratic party, and the Democratic party alone, that thus assailed him. From 1825 up to the time when he could no longer be thought

racy of the nation, as the foulest, most corrupted, and most infamous public man known in the an-nals of mankind. We all remember the occasion, when having been pursued for years by all the blood-bounds and hell-hounds of Demacracy, he

retired to his home at Ashland, and there worn and wearied by relently's Democratic persecution, stood 'up in the presence of his old friends and neighbors, and, described himself as a bleeding old stag at bay. And now, (Oh shame to hum natura!) his own son comes before the world

candidate, and sustainer, and encour ager of a party that for a quarter of a century unted his father for his political blood ! Th ectacle bas, so far as we are informed, no paral i in history and God, in his mercy, grant that t may never have. It is truly sickening. We rould gladly upey the impulses of the deep loath-

ing that bids us turn away from it forever." FASHION'S FOLLIES .- It is indeed true that the resent rage for dress in this country has reached that point, beyond which it would cease to be a vanity, and merge into an outrage on patiencea crime against common sense. For instance, at

unlike other medicinal discoveries, must ensure it Saratoga last season, the editor of the New York cians of this town are favorably impressed with high for the trade, in comparison with the prices Sunday Dispatch witnessed a remarkably spirited ontest in dress, between two ladies straggling Berkley American, (Va.) "Some of the press spoak in the highest terms of this SALT." Liberty Advocate, (Miss.),-"Among the recent iscoveries in medical science, none promise more to the afflicted, than that made by Dr. Coggswell, of Boston." Boston Herald ---------ston Herald,-"There is a deep interest felt by the community in regard to this extraordinary medicine, whose over tion is as mysterious as that of vaccino matter. Lynn: News, (Mass.)-"Over 400 Nowspapers have published Dr. C's discovery, and he is floodod with orders by mail and express, for his Salt." N. B.-To protect the community from imposi-tion by consterfeits, the proprietor will employ No Acarst, and has mails such arrangements, that he can send the Antiphlogistic Sail in any quantity by MAIL OR EXPENSE to any part of the U. S. of foreign countries, free of expense to purchasers. It is put up in drachun packages for neute discusses, at 52-chronic packages, \$5-and family do. \$8-io behad only at his Office, No. 25 WINTER STREET, or by mail, through Box 322, Post Office, Boston, Mass.

the c

ADVERTISIES & MORAL BUTT .- Some years ago | sitions of this writer are untrue in fact in almost | t was proposed by an American Physician that nembers of the Faculty should advertise their every particular his whole object seems to be t remedies and modes of treating diseases in the beup shuse on the management of the Reading Rhilroad Company, and sercen the middle interest at Richmond.

and the second s

remedies and modes of treating diseases in the newspapers. It was a bold and many ides. It was scouled, however, by the profession generally, as infra dig. But is there hay degradation in publicity? Is it not rather the great touchstone that the pretension and universalizes the practical benefits of all valuable inventions and discoveries? Should not a medication that the strength of the strengt Now, it is well known that we are no apologists for high prices of freight-nor have we ever failed to condemn there high rates-int this was Should not a profession that aims at the mitigation not the cause of the evil this year. It was cause of suffering and the preservation of life, make the entirely by the "middle interest" at Bichmond, as means of obtaining these grand objects known through the channel of information most accessible we will endeavor to show by commenting on a to all classes and conditions, the columns of the few of the positions taken by the writer of the ablic press? If it declines to do so, the natural article in question. He mys : ence is either that the desire of secrecy arises

article in question. Its mys: "The 'middle interast does not influence the Beeding Ralirost Go. Proof-The unreasonably high rate of tolls which the shipper not the miner has to pay. The middle interest does not monopolize the Rich-mond where. Proof-Three have been for the greater part of this measur, two wharge remaining idle, which the R. R. Co. would gladly have given to any responsible parties, miners or middle men. "It has become very much the inshim of late years, with some neople who ought to know, and a great many from a soruid, monopolizing, egotistic spirit, o from a lack of faith in its own prescriptions? Viewing the subject in this light, we may pre-sume Professor Holloway some twenty years ago, overlasped the barriers which the profession had

erected between itself and the public, and plunger earlessly into the newspaper arena. He had dis "It has become very much the fashion of late years with some people who ought to know, and a great many who do know better, to tritit upon the heads of th 'middle interest,' all the opprobrian and blame which aboutd justly fail upon the Reading Ballmad Co. "Even the thoughtless men among the small miners' who depend for their market upon the 'middle interest, and who have had opportunities (if not from their own experience, from their observations of the experience o others) of seeing the failary of any arrangement of ship ping their own ceal from Bichmond. Even some o these join the bue and cry; following the direction of the course of the Miner' Journal. The cry has been sounded until they who really know better almos bilevo it themselva." To the first we reply—no person charged th covered or rather invented, after years of research nd experiments, two preparations which he be lieved to be specifics for nearly all the diseases of mankind; and as an indication of his confidence in them, and a proof of his philanthropic wish that, if really valuable, they should be accessible to the whole world, be advertised them wherever adver-tising media existed. This was the severest ordeal. to which he could have submitted them-the excrimentum crucis. He threw them at once, as i were, before the sick of all regions. He stated their properties, proclaimed what they would do,

nd staked reputation and fortune upon the issue To the first we reply-no person charged the That issue has been all that he or the world could have desired. The rich and the poor, the learned "middle interest" with controlling the Reading and the ignorant, physicians, states Railroad with regard to tolls, because they have nation of enlightened freemen, have sanction been arranged for several years past between the used, extrolled them. They are fixed facts in Railroad and Canal, based on sthe rates promedical history ! Is not this better than hiding light under malgated by other regions-but the "middle inbushel? Is it not better than writing prescriptions in a dead language, and putting weights and terest" have heretofore controlled the Rending Railroad by compelling them to give them their uantities into heiroglyphics. wharves to the exclusion of others who wanted If anything is worth knowing it is worthy them, by threatening to throw their business on being universally known. So thinking, Holloway proclaimed the virtues of his medicines through their rival, the Canal. The miner who sells his the press; and fortune, fame and the gri Coal at Port Richmond pays the freight on his nillions have been his reward .- N. Y. Sua. Coal the same as the "middle interest."

-----To the second, we will reply, that so long as From the Boston Post. the middle men hold Wharves at Richmond, it NEW MEDICAL SALT; A Perfect Substitute for is utterly impossible for a Miner here to take a he Lancet, Leeches and Blisters !--- We commen Wharf and do business, unless he has a very the fortunate and enterprising proprietor, Dr. F. large capital to invest. Several took Wharves Coggswell, for his wisdom in conding forth his with a view of selling their own Coal, two or new discovery without certificates—so common three years ago. They had a prime article of with the nostrums of the day-and with no other Coal. and always had a demand for it, conse backer than its real value and his own reputation quently they felt like pocketing the commission As he may be unknown to the community abroad naid to the middle men themselves. After their we take great pleasure in stating that he has long arrangements were all made, they soon found occupied a prominent position in the professio out on entering the market that they could not

and received (about thirty years ago) his collegisell their prime Coal-why-because the middle ate and medical education at two popular colleges men knew who the purchasers of this Coal were, in New England. and they immediately offered them the same It will be seen that the Doctor has recently re-Coal from other veins at a less price, on say six fused a liberal proposition for an equal partner months' credit, with a renewal from.2 to 6 months longer if necessary, by paying the interest. The ship in his discovery, from a medical gentlema Miners could not sell at such unusual long credits, who has experimentally proved its efficacy. and several who took wharves, and hold them

Providence Advertiser (R. I.,) says: "Dr. at Richmond were forced to pay commissions to Coggswell's reputation as a physician and chem middle men for selling their Coal, or have the ist is sufficient guarantee of the genuin the preparation which be now offers to the afflict. price reduced on them-although every pound of the Coal is ordered before it is mined. In New York on Thisriday four of the most notorious Dead Habbit party, charged with participating in the riots in the Sixth Ward, on the 4th of Jaiy, were sen-tenced to six months each in the Penitentiary. Their names are Patrick Moosey, John Riloy, Berney Galla-gher and Edw. Dyer. All of them are mettyes of ire-land.

More Methecisicy. The Democrats in Minnesota finding that the Repub-lican Delegates had a majority in the Convention have age to work like their great prototypes Mayor Wood and the Canal Commissioners of Pennsylvanis in setting the will of the people and all law at defines, by organ-laing in a separate Convention, and each Convention will of course, edopt a separate Constitution. "So says the filterman.

will of course, edopt a separate Constitution. So says the Teleproph. It is high time that the thinking and orderly eithems of all parties units in a determised effort to put down the foreign ruffins and molocrais who constitute so large a portion of the democratic party of the present day, led on in many instances by equally infamous American born citizens, otherwise the laws also will soon full into m great disrepute as many of these who administer them laws have failen. Hiers in of all parties—who lows their country and its Institutions, is it not time to think, and act also f

POTTSVILLE MINING AND MANUPACTURING CON-ANY .--- A pumphlet containing the act of incororation and by-laws of this Company, and the ntroductory Report of the Board of Managers, contracts. Says the Tribune :--s before us. This Company which was incorporated May 8th, 1857, embraces the following.officers :- President, Richard Jones; Vice President, Francis Spencer ; Directors, Richard Jones, T. C. Zulick, George Spencer, C. M. Straub, Daniel Edwards, John Edwards, Francis Sponcer; Treasurer, George Spencer; Secretary, S. Morton

The lands proposed to be opened by this Comany are those well known as the property of the North American Coal Company, which for a series of years have remained unimproved. They are very valuable, embracing as they do eleven of the most valuable and productive working veins in the Southern and Central portions of the Coal Basin. Maps in the pamphlet before us, give ross sections of the veine of Coal, which exhibit clearly, their magnitude and value. The Compaby proposes by shafts to open two or three first dides collieries on their lands from a point east of Fort Carbon in a direct line to west of Pottsville. As a means of developing the Mammoth and othveius in this Basin, beyond the reach of individual enterprise, and rendering, property heretofore unproductive, valuable, we welcoure to the field of enterprise in this Region, the Pottsville Mining and Manufacturing Company.

DR. DIC ON CONSTRUCT LE GOLDEN PILLS TRE INFALLIBLE in removing stoppages or irregularities of the menses. These Fills are nothing new, bit have been used by the Boctor for many years, both in Vradec and America, with un-paralleled success in every case, and he is urged by many ihousand ladles who have used them, to make the Fills public, for the allovation of those suffering from any ir-regularities whatever, as well as a proventive to those iddes whose health will not, permit an increase of fami-ly. Pregnant Samales, or those supporting themselves so, are cautioned against using these Fills, as these Pro-prietor assumes no responsibility after the above admo-nition, although thisir mikiness would prevent any lojury to health ; otherwise, these Fills are recommended.-Directions accompany each box. for abundant proof of the extraordinary, virtues of this new and popular medicine.-THE COAL TRADE

Pottsville, July 18, 1857.

The quantity sent by Railroad this week i 40,630 00-by Canal 41,746 00 tons-for the week 82,376 tons. Total by Rail Road, 1,036,043 02 against 1,137,332 01 tons. Do. by Canal 517,507. | were fixed in the Schuylkill Region. Mr. Tuck--19 against 495,148 06 tons to same period last year.

The Canal has beaten the Rail Road this week the money borrowers and speculators in Western in a fair field, without any interruption occuring ing, a fair price for Gual on board ressels at the Lands, some sober truths, that all business men to either. The causes for this state of affairs will would do well to act upon. It is not an easy time be found in the continuation of our Coal trade re-

The demand for the best quality of Coal is fair

28,312 964

1657. 1857. 1.685. 40.630 8,652 41.746 36,207 6,979 11,605 20.214 879 28,533 forget all about the true nature of a promissory 28,523 6,588

. Coal Co., actual specie to meet every business engagement. there would be a dearth of gold and silver instantly felt and acknowledged. But, pure gold and

Gain for the week. silver is what they contract to pay, and they have Making the total gain this year so far, from the no right to complain if creditors hold them to their If your lands are paid for, and you "owe no man anything," it is all right, and you are at per-

fect liberty to value your quarter sections at \$50 per acro and your corner lots at \$5,000 each.maining. Possibly, they may command these prices in time if you hold on ; and if they don't the loss is your own affair, not ours. But to those who are hold ing on to more lands than they mean over to cultivate, while owing upon these lands and borrowing at usurious rate to buy more, we say, Gentlement there is great danger of a financial crash; and, if there be one, you will have produced it; if it be avoided, you deferve no credit for the escape. If the money market growes tighter and tighter, ber in mind that you, and such as you have cause

and are causing the stringency. If the Banks are impelled to rigorous contraction, the fault will be yours; if they should be driven to suspension, it the business. will be because you have borrowed their mon invested it where Bank loans should never be invested, and cannot return it now that it is wanted. If you hear blockheads cursing European capita ists for drawing away our specie, remember that they could not do it if you had not run us in debt abroad. Banks never cortail their loans when the employment of a clerk in the office, to send us they can avoid it; they never break unless some one has borrowed their funds, who can't or won't the monthly returns of the aggregate Coal shipped,

repay them; they never suspend when solvent unless their solvent customers have preceded them in the same course. And if a fresh Commercial Re. moderate sum of only \$5 for each letter containing these figures, to pay the clerk. The books vulsion should soon overtake us-and we write in

at some other points-still those high rates would at Richmond, to seek the Canal for that business Spring Mountain Mines reached by boats, because it takes less capital to N. York & Lehigh do not have effected the trade materially-if it had not been for the conduct of some of the middle do business by tha men at Richmond, as we will show : now a-days. The

It was well known that those engaged in Richmond are \$1 Mining in Schuylkill county, had engaged Mr. with a drawback Tucker to organize the trade, with a view of pre-20 cents to New venting Coal falling to the same ruinous rates has to be note wee that prevailed last year, which broke up about and the drawback one-fourth of those engaged in mining. These Coal is shipped :-low rates, (which were caused in a great measure, Coal lays for w

by the middle interest forcing prices down to risks, in case of lo the lowest point, they being only bayers of the large increase Cosl and not minere, consequently fealing no ththe miner here only terest with the Miner who held Wharves and mined the Schuylkill Canal, instead of \$1.80, and the -bis own Coal,) effected the business in all the other purchaser pays the freight and other tolls to regions-and the Companies abroad were either its place of destination, giving great advanforced to stack their Coal or sell at the same low tage to the sellor here, both in point of capital rates. Many of these Companies had entered into and risk. So long as the Canal has facilities to contracts with purchasers, containing a provision carry Coal, the Railroad must be content to be that if they lowered the price at any time during the beaten by the Canal, and take only such Coal as

senson, they were to lower the price on the whole the Canal cannot take. (The Canal has always been considered a slow team in this region,-but Towards the close of the season, when price she has caught up to the Railroad, and has again boname ruinous, these Companies found it would beaten her this week in a fair field. The samea saving to pile their overstock and limit the system is beginning to be engrated on the Canal ipments, in preference to reducing the prices, by the "middle interest," and if successful, the and they did pile considerable Coal.

In the Spring the Companies with large piles on hand, held back and were determined not to bo caught in a similar predicament again-and did not promulgate their prices until the prices er had personally conferred with the companies abroad and obtained their consent to co-operate with the dealers in the Schuylkill Region in fix.

gions, and the greater competition in the trade. the time has arrived when a change in the polishipping points. As soon as the rates of tull and ev of the Reading Rail Road Company must take freight had been adjusted between the Reading place-in foture arrangements-it it cannot con-Rail Road and Schuylkill Canal, those engaged i veniently be done now-they must remove the mining in Schuylkill County held a meeting, and they agreed on \$3.85 @ \$8 95 per ton for White "middle interests." or the "middle interests" will not only destroy the trade of Schuylkill County,

Ash Coal on board at Port Richmond, according to quality, and circulars were issued accordingly. No price was named for Red Ash, because no Loss. 8,652 other region furnishes Red Ash Coal. This wa 9,643 about 25 cents less than the opening prices of the

previous year, and but bearly remnnerated those eagleged in mining. These prices were commu-8,333 211 nicated to the other regions by Mr. Tucker, and they all agreed to conform, except the Pennsyl-5.624 178,112 185,413 16,510 23,811 178,112 16,510 vania Coal Company, who gave no decided an-

swer-but their rates were not, yet promulgated. - 7.301 7.301 A fow sales had been effected at these rates, when a couple of "middle, firms" at Port Richmond

above regions, including the winter supply by all commenced offering Coal on board as low as \$3 65 the Railroads, only 61,792 tons, with only about @ \$3 70, being from 20 to 30 cents per ton less four months of the shipping season by Canal rethan the rates agreed upon. This was followed by the circular of the Pennsylvania Coal Com-Prices of Coal remain without change in this pany offering 'Coal at' \$3 80, 20 cents less than region. Freight has advanced to \$1 70, and vesusual on board at Port Ewen-and the Scranton sels continuo scarce at Fort Richmond to the East Company, who had conformed to the Philadel. -while at the same time there is more shipping phis rates, were forced to lower their prices 20 lying idle at New York, than has occurred since cents a ton to correspond. Other, middle houses, 1840, when the commerce of the country was to and some who mine a portion and buy the balfourish under the beautiful system of free trade. ance, followed, sooner than longo their customers, inaugurated by the supjent rulers at Washington. and offered their Coal also at ruinous rates Limiting freights, below a paying point; has done to the producing interest in this County. A

few firms engaged in mining, who had choice THE Wilkesbarro Spirit of the Times states that Coal, preferred reducing their business, to lowering the Coal trade from that Region has increased their prices, and they, by saving commissions down the river this season. How did he find it paid to the . "middle linterest," are doing a fair out? We have applied frequently, within the last businers-and the Coal note them at Port Richtwo years for this information, but "the Collector mond from \$2 00 @ \$2 10 per ton-at \$3"90 on and Weigh Master, stated that it would require

These are the facts, and show conclusively t every business and thinking man where the real making about fifteen figures in all, and wanted the difficulty lies, yet this sap head, who signs himself "Schuylkill County" declares that it is the Readby Rail Road only, and not the "middle interest" must have been kept very badly, or else there was that is ruining the miners and operators of Schuyltention to the danger---its main causes will be an excessive importation of Eoreign Fabrics and inor-dinate Speculations in Western Lands. decrease the tornage of the carrying Companies, but it will remove the management of the Reading Railroad Company also, -- and that is their object-either 'to compel the management to come inte their terms-or drive them out by crippling their trade, destroying their revenue-and "Schuylkill county" is, one of the instruments used to accomplish their object, whoever he may be. We think therefore, that every reader will agre with us that the "middle interest" at Richmond

is the foundation of pearly all the evils in the trade that have spring up and which are eating out the very vitals of every producer. All the other evils, more on-less spring from this great evil, and like every good physician, who under-

stands his business and desires the recovery of his patient, he will not tamper with the lesser their own accord.

sores, but will proceed at once to remore the great ulcer first, and the minor ones will heal up of We thank "Schoylkill County," even if he i the dupe of others, for the opportunity he has given us to point out the evils that exist in the Coal Trade; and the causes of the decline

of the trade at Port Richmond, and also the reasons why it is increasing by Danal. In conclusion we will take this occasion to remark, that a portion of this article we have ponned Ta with regret-we are acquainted with a number of the middle dealers at Port Richmond, and know them to be honorable business men-they conduct their business on correct principles, and we have

just as they are doing. We don't think however, that they ought not to be there in the present position-that their business, conducted even on correct business principles, is hostile to the interests

no besitation in stating that if we were in the same position they are, we would in all probability do just as they are doing. We don't think however
