This measure is the control of the control o

among up growing eril should be removed by an among, as speedily as possible.

The Improvement of our Rivers and Harbors, for the Tremotion of the Internal Commerce of the Country; promotion of the Internal Commerce of the Country; promotion of the Internal Commerce to the construction of the Country of the Construction of t together with such at as may be the General Government, to the construction of Railroads and Telegraph Lines to the Pacific Ocean, to facilitate quick communication throughout the country, which is the only means by which such an extended ferritory can be bound 12gother in one Union.

Allevenue System of duties levied on Foreign Merchandize, sufficient for the support of the General Government, and so arranged as to discriminate in favor of, and also to protect the Domestic Industry of this country.

and also to protect the Domestic Industry of this country.

While we accord to every man the right to worship his Creator according to the dictates of his own conscience—without fear or molestation, and will procribe no man on account of his birthplace, who has good citisen and cordially supports our Institutions—yet we are decidedly opposed to Roman Catholic, Jesuitted, and all other Fogelgn Influence, not in accordance with our institutions produced to be supported by the manner—and lastily political opposition to men who give or offer to Roman Catholica Jongson to influence tiefur votes, as a mesins of political strancement of themselves and others.

The tofis prohibition of the Liquor traffs as a beverage, and the awarding of the same punishment to those who violate such a law as is awarded, toother polisoners and marderers of the human race.

State Measures.

We will contend for a general Banking Law, based on

of note-holders.

A law prohibiting the sale of notes, drafts or any paper that is the representative of money, for more than all per cent discount, under the penalty of being sent to the penitentiary, the same as any other person who robs the producer of his property.

The sale of every foot of, the Public Works belonging to the State, as preddly as possible to the State, as speedily as possible.

The above is abcouline or main feature of the leading principles this paper will endeavor to advocate and establish in our Governmental policy.

Bus new advertisements. Want of space prevents us noticing each in detail.

"MONARQUE" is the name of the French horse that won the recent race in England for the Good-8. wood Cup. KEEP COOL The Tamaqua Gazette and Sentinel are pouring red hot shot into each other .-Their ferocity really, considering this warm wear

ther, is appalling! NATIONAL SAFETY SAVING Eund .- This Sa ving Fund in Walnut street, south-west corner of Third, Rhiladelphia, now has more than one million and a half of dollars, invested in first class socurities.

Mas. John Lilly, Esq., formerly assistant of Ellwood Morris, Esq., has been appointed Engineer and Superintendant of the Dauphin and Spequehanna Railroad, in place of R. W. Mason, Esq., who has resigned his situation.

A MEW CARRIER has been placed on one of subscribers should fail to receive their copies, they will have the kindness to leave a notification the fact at the publication office.

LORD PALMERSTON'S Government has announce cd in Parliament the suspension of the Chinese war. A blockade of Canton, without prejudice to European and American commerce, is to be substituted. There is to be also a guerrilla naval campaign against the pirate junks, in which the American ficet is to join.

University Schools .- These schools are located at Lowisburg, Pa. Their winter sessions will so in future only in name.

sommence on the 24th proximo. These schools clucate and fit young persons of both sexes for their future spheres in life. The Academy fits young men for college, teaching or business. The San Autonio Ledger of the 25th ult., furnishes the following notice of this expedition: Capt. Pope's entire party and materials arrived here on Tuesday last, and proceeded immediately to the head of the San Antonio river, where they the Borough routes of the Miners' Journal. He encamped for a few days necessary to complete the Western plains. The interests involved in the object of this expedition are of immense impor-

tance.

The result of the captain's labors will show whether thousands of square miles of soil possessing all the element of productiveness and fertility anve that of water, will be lost to the enterprise of our people through the want of one single element, and for the decision of this question no person could be selected by the Government so captain as the officer in command. Captain Pope's well merited fame is world-wide in connection with his aurvers, explorations and wellnection with his surveys, explorations and well-boring experiments on the so called "deserts" of New Mexico—deserts which, we trust, will be Stuart, — Supple, and A. Earl, civil engineers; T. H. O'Callaghan, assistant naturalist; J. M. Brown, superintendent of artesian works; J. and W. Skidmore, J. Lehmann, and P. Maguire, me-

chanice: - Marks and - Pickering, engi-These, as nearly as we can learn, together with These, as nearly as we can learn, together with wagon-masters, teamsters, cooks and laborers, compose the corps operative of this great enterprise. His escort consists of twenty-five cavalry and seventy-five infantry, the latter under the formmand of Lieut. E. L. Hartz, formerly of Pottsville. We understand the captain will first proceed to complete the unfinished wells on the staked plain and Mestilla Välley, thence to the Jornada del Muerte, thence to the great emigrant route from Leavenworth to Santa Fe, and thence route from Leavenworth to Santa Fe, and thence

THE Democratic candidate for Governor of Mi souri, is defeated by Rollins, American. The event is an era in the domestic history of the country. It is the precursor to the abolition of Slavery in Missouri, which will inaugurate a movement for the deportation of slaves towards the tropics which will not cease until their pres- the following statement of actual expenses by ence in our States ceases to be a cause of angry both routes: contention. Missouri is essentially a Democratic State, and nothing but the overshadowing interest of the Emancipation question could have made it otherwise. The defeat of the Democracy in Missouri will necessitate their utter discombine Deduct gain in weight, 5 per cent. allowance 1 90 express engines:

Coat of Fuel per wile—Coal and Woodin Kansas, and destroy their plans for making that a slave State. For surely if they cannot hold their position on the base line of their 342 operations, they must withdraw their advanced Drawback, parties. Whatever atempts are made to disguise it Emancipation was the only issue in the late Missouri election; and the conservators and champions of Slavery have been defeated. This is one of those revolutions which derive momentum

from progress, and cannot go backward. It may reach its goal by slow or rapid advances, but the with the assurance that at his hands they will re-lost sight of. The agitation of this great social ceive solid instruction combined with tender pa- and political problem in Missouri saves both rental care. For particulars in reference to terms, Kansas and Oregon from the inroads of the propagandists. SCHUYLKILL COUNTY .- One of the best paper

We are indebted to our spirited and intelligent In regard to the prosperity of the Journal, we can safely state that it never was in a more gratifying condition than at present. It has not been Mexico and the United States, Mexico needs at porary somewhat over estimates our aggregate this time a strong government based on the pub- receipts for subscriptions. This is a sesson at lie will, which on the one hand will be able and which we are in the habit of cending out bills, willing to curb and crush the seditions tendencies and our weekly receipts if they foot up large of the priesthood, and on the other to suppress now, are attributable to that fact. Toll, 65 cents-freight 90,

Difference in bauling from Schuylkill East of Broad street, Loss of weight by Canal, say,

ence of 25 cents in favor of the Canal, which is the profit generally obtained on a ton of Coal.

In many cases when the Coal is delivered from the boat direct, the 5 per cent. allowed on toll by the comparative cost of Foal and wood (estimative cost of Foal Canal covers the loss, and then the difference amounts to 30 @ 35 cents per ton to dealers. Considerable quantities of Coal from the Lehigh Region is also going into Broad street, taking the place of Schuylkill Coal. We learn that it costs only four cents a ston more to deliver Coal from the Lehigh Region into Broad street, vis. the North Penn. and the Willow street Rail Roads, with all the unfavorable grades of these roads than it does from Schuylkill County over a road with a descending grade of only 95 miles long. Many of ouroperators, who have no facilities for sending the Conl by Canal, could sell a considerable portion to Broad street dealers for retail, if the difference was not so great-but they are cut off in a great measure by the difference in

expenses, and are forced to submit to the tender mercies of the dealers of Port Richmond, or curtail their business. We should suppose that it would be to the advantage of the Rail Road Company, vear by all the trains, with the whole distance to emply a portion at least of the retail trade of Philadelphia, from Broad street, particularly while they have hundreds of cars standing idle. A drawback of 20 cents a ton; in favor of the Broad street dealers, would equalize the trade less cost for Coal than wood, with an equally sat-between the Schuylkill and Broad street, without isfactory performance of the origines, when Coal between the Schuylkill and Broad street, without interfering with the trade abroad. And now that the retail trade of Philadelphia is about commencing, we do hope the Managers of the Reading Rail Road will take this matter into consideration. It does seem to us that every experiment has been tried in Philadelphia to see how much the trade of Schay kill county will bear without We are no advocate for the reduction of the

rates of toll and transportation at this late pe-riod of the year, that would effect the trade of our railroad, it is more advantageous to the

AND UNDERGROUND WORKS. No. 3.

[Concluded.]

hery coal mind be kept in full operation was alackened by by day; for if the ventilating power was alackened by by day; for if the ventilating power was lable to lodge itself into night in a mine where gas was liable to lodge itself into night in a mine where gas was liable to lodge itself into night in a mine were descending the miners were descending

The objects chiefly to be aimed at in the ventilation of the Laucashire collieries, is a slow or moderate current of air, and a reduction in the length of this air courses. These can only be effected by dividing the air inta current tain number of parts to ventilate the mine by divisions. The Laucashire system of ventilation was, and in practiced with sufficient success in the super coal seams of that coal field, which generate less supposive gases.
