

POTTSVILLE, PA.

SATURDAY, SEPTEMBER 25, 1857. THE GUBERNATORIAL CONTEST.-The second Tuesday of October is rapidly approaching. On that day the citizens of Pennsylvania will be called on to record their verdict either for or against the extension of Slavery into the Free Territories, either for or against the cause in Kansas .-The friends of Packer may endeavor to shirk the question, and their leader refuse to meet in open and fair argument Mr. Wilmot, but the people of this State are too well aware of the importance of it, not to resolve to empe out in their strength, and express a decided opinion on the manner in which Mr. Buchanan has been overswed by the Slavery Propagands, and submitted himself to Republic, truly says, that at their dictation life has appounced the monstrous doctrine that Slavery exists in all the Territories by force of the power of the people, when forming a State Constitution, to determine the character of their institutions, he makes the exception nugetory, in the case of Kansas, by sending the army of the Mr. Thomas Sillyman, near this Borough. Each mean-United States to uphold the usurped authortity of interlopers, who have so far, deprived the people of that Territory of any possible centrol of their what can be done in our county in the agricultural line own affairs, by invasions, fraudulent apportion ments, and other similar devices, and who will

persevere in doing so to the last. Mr. Buchanan, alternately cowed by threats which be lacks the courage to resist, and tempted by the same promises of a re-election to the Presidency which deluded Mr. Pierce, has unquestionably, determined to devote the whole power of his Administration, at home and abroad, to a single interest, which his experience hitherto has taught him to believe to be dominant in the politics of this country. If it is possible to form through Congress the admission of Kansas as a State, with a Constitution sanctioning Slavery expressly, or by silence, whether such Constitution be submitted to the people or not, Mr. Buchanan will do it. All our Territories, acquired and to be acquired, being now declared in advance to be slaveholding by force of the Constitution of the United States, Mr. Buchanan will stick at no cost in making acon by the same fatality which destroyed his pre-

We say emphasically, that it does. As much so now as at any former period of our country's history. The most herculean exertions are being made by the pro-slavery party to carry out their measures in Kansas, and the clanking of the their measures in Kansas, and the clanking of the Reserve in Tamequa On Monday night the feed slave chain is even now beard by Pacific's wave store of Stichter & Co., Bread and March Chynk streets, on the shores of Oregon. All the buildings were frame, situated near which have been discovered and crushed in Phil. ly opposite the Columbia House. The total locals estiadelphia will reduce the Democratic vote in that city at least ten thousand; while the line of the Public Works which heretofore, has yielded at The origin was accidental. Democratic bidding, a solid mass of voters, will cease to send to the polls about the same number. Twenty thousand votes lost to the Democracy will tell fearfully on their rapks. With that decima tion in our favor, and our force equal to that of the last campaign, there is no reason why Wilmot should not be elected by a handsome majority. Our friends have really, but one opponent in the field, Gen. Packer, for the Sanderson dollar boys, with their candidate, have made but little progress. Union is now the motto with every true opponent of the Democratic party, for in union peared that the following named persons were in atalone is strength. Even in Philadelphia where the "straight-out" feeling is kept alive only by the tender of Democracy, the Daily News, an union will be effected, and the mass will go solid for Wilmot and Freedom. In the Northern and Western counties of the State, the American Republican vote will be unprecedentedly large, and the majorities for Wilmot will roll up in a manner which will astonish our antagonists.

A notable feature of the present campaign is the fact that the Buchanan men are lukewarmthey find how utterly without foundation are princes' promises and Packer's presses are ut terly unable to create any excitement: They feel that they are on a sinking ship, and await with fear and trembling its final plungs. On the other hand, the friends and presses devoted to the cause of Wilmot know that they have with them the sympathies and best wishes of all classes, and that when the election day arrives, the people will go en masse, for principles ballowed by the approval of Washington, Jefferson and Jackson. Continue firm, American Republicans. While dismany seizes your opponents, the prospect before you of

Unfortunately in this country there is a class of workmen, who blind to their own interests, will ndvocate at the polls, slave-labor. They cannot or will not see that the introduction of slave labor degrades their occupation and lessens their remuneration. Not only disposed to place themselves in a position which subjects them to the imperious commands of the slave holder, they seem content that their children should be depressed in the scale of humanity. Of all purse-proud, arrogant, tyrannical aristocrats commend us to a vain, conceited, ignorant slave-holder, having the most thorough contempt of the mechanic. . To the class of workmen who will recognize the upstarts, we have no appeals to make. They appear resolved to persevere in the course they have adopted, and to statements based on facts, would move them an address to the Freemen of Schuylkill County, on the from their position—the slaves of party; the subject of retrenchment and reform, and of the financi slaves of a Propaganda, having in common with affairs of this county: R. Weigh the matter well. Are your rights to be invaded; your position affected, and your fortunes blasted, that the slave-holder may lord it over scores of miserably degraded slaves, and more tools be added to the number that yearly stut and domineer in the halls of Congress? Think of it young man, bre you resolve to support at the coming election, the proslavery candidate, William F. nail in the coffin of Freedom. This freemen of Pennsylvania, is the question before you a question which the Democratic party fears to meet. To settle it speak out boldly and to the point on the second Tuesday of October. Ignore the position assumed by the Democratic party. Show by your course that you understand and thoroughly despise the man who after declining to meet Mr. Wilmot in open, fair argument, is now eneaking through the State, and speaking on the very subject that he forred to discuss with Wilmot on the stump. The Demoargument, is now eneaking through the State, and cratic party knows that its position is weak. Ir

If the balance of trade were not against us, we could have a currency among ourselves, of gold or silver, paper or shells, or anything whatever to represent articles of commerce. In a word, when we took some palus to protect ourselves, foreigners were often obliged to send us gold, to pay for our cotton and treedstaffs. Instead of getting into debt, we were then laying up money. Facts are hard nuts in weak it has the kernel when reached is sweet.

A DISGRACEPUL BUSINESS SUPPRESSED .- For ne months past a weekly newspaper of the most bscene character, has been published in New York City, and not only distributed extensively among the residents and sojourners in that city, but has been surreptitously circulated through the mail to subscribers in other towns. Repeated efforts were made by the police to arrest the publisher, George Akarman, but without success .-Last week however, a descent was made upon the printing establishment of John G. The publisher's piace it appears, was at No. 14 Frankfort street. The Tribune says that the editorial table presented some correspondence unusual in the profession. As the state of th the books ordered, is satisfactorily explained by the fact that the entire establishment, with the exception of the proprietor, is in the charge of

the police. Our object in publishing at length an account of the suppression of the vile business of the man Akarman, is to assist in giving publicity to the names of those who aided by their patronage, in the distribution of an obscere sheet, of bad books and who sesisted him in a business made untorious by the infamous Restell. The publication of the names in question will we think have a good effect. It will not only shame those thus detented in the gratification of degraved and vitiated tastes; but it will deter others from a similar course in the future, for fear of expensure. Not only sheets of the character of the Venus Hierel. lawy, but the publication of the entire range of "yellow covered literature" should be suppressed. If public sentiment will not effect the desired reformation, law should be invoked. We hope this is the last notice of the kind we shall be called on to make, for it speaks but illy for the intelli-

moral principle and destructive to the virtue of the rizing generation.

Ar Physic Disarmed of its Terrors. Every person is interested in hearing that Dr. Clickener of New York, has invented a medicine of the most certain and powerful of purgatives, which is yet so gentle that ts operations on the system are entirely unfeit. Its action is altogether unattended with griping or nauses, and still more to enhance its value, it is coated with white sugar, so that it leaves no unpleasant taste in the mouth. In fact its flavor is so unlike physic, and its action is so perfectly gentle, that any person may swallow a dose without suspecting that he has taken physic at all, unless through its ultimate effect, which is powerful and positive, even on the most costive constitutions We need not comment on those great advantages of Clickener's Sugar-Conted Vegetable Purgative Pills, over ther medicines, as they must be obvious to all, for there are but few persons who do not require physic occasionally, and fewer still who have not a rooted aversion to the lect accomplished much more thoroughly by a new one,
