STINFORMATION is wanted at this office of the present idence of DANIEL P. HECKMAN and ROBERT S. DAVIS, formerly of Port Richmond, Philadelphia.

Jos. Downing, to Jan. 1, 1858 Thes. Ruth, to March 8, 1858

Flour is quoted at \$5 25 to \$6. It will be \$5 ere long.

Joun WELSH, Esq., is spoken of as President of the Bank of Pennsylvania.

Tue dry goods jobbing trade of Philadelphia, is active considering the hard times.

Quite a number of persons charged with murder, are in the jail of Allegheny county, awaiting was much cheaper, and far superior 3d any other trial.

LAST year only one person in 16,168,449 who travelled by British railway, was killed from causas beyond his own control.

SEVERAL of the clerks in the Surveyor General's office at Great Salt Lake City have been driven from the Territory by the Saints, who are rallying to the defense of Zion. THOMAS ALLIBONE Esq., late President of the

Bank of Pennsylvania, has sailed for Europe with the cities at present. The Northwest, has fulfilled a portion of his family. Cause, ill health.

THE MONEY MARKEY .-- Up to last evening the] counts from the different cities exhibited a onewhat improved condition of the market, with and before this he has a sharano vegar nea been sentenced to doubt for the assassination of Alvarz, and before this he has a plated his crime, the ax-ecutive clemency having heen refused. This is the only intigation of the death of Alvares. partial restoration; of confidence and things a ittle casier. If matters continue to improve even only gradually, times may improve in Schuylkill

Lynn,

County ; but at present the exodus of population most marked. If confidence could but be restored, the present prostration would be materially relieved.

SEVERAL Llamas-whose natural habitation i n the Ander, at an elevation of from 8,000 to 12,000 feet above the level of the sea-will shortv arrive at the Palent Office, Washington, from Guayaquil. "X. Y.," the Washington correspondent of the Press, thinks that the only part of the United States in which they would be likely to

succeed, Trobably, would be the great elevated plains sinated on the eastern slope of the Rocky Mountains, west of the \$8th meridean of longi-

tude, commencing in New Mexico, and extending to the Red river, north.

THE NEW YORK TRIBUNE thinks that the present stoppige must be set down as a parely merkinson, cantile operation, due to an expansion of credite Johnston. beyond the limit of prudence or safety. Much, Bourbon, Darr, however, ds the occurrence is to be lamented, and Douglas, ruinous as it may prove to individuals, it is not Shawnee, likely to impose any permanent obstacle to the Richardson onward progress of the country. Past experience Breckenridge, Anderson, shows that the United States are able to bear up Lykens, Coffee, under the burden of a much more doubtful and fluc-

tuating currency than that which we now have. THE RECENT ELECTIONS .- Chase's majority a Governor of Ohio, is 2047. Jowa has gone Re publican, with a net gain in 26 counties, of 2817. In Minnejota, the whole Republican ticket, from top to bollom, is elected. The Republicans have carried the Legislature. In all the States in which elections have been held, Republicanism bolds its own, and the vote where decreased is in consequence of political apathy. Business men have had their private affairs to attend to these hard times, and have remained from the

polls. INFORMATION has been received at Washington from the South_that Walker's Expeditions-one to leave New. Orleans and the other Galveston-have been delayed, in consequence of financial pressure until the lat of November.) They propose to land at some point in Costs Rich on the Atlantic coast, and then march on San Jose, the Capital of that Republic, which they expect to reach in two days. Their calculation is, that when they capture it, the

whole country will be in their possession. The aggregate of the filibuster forces is from 1,800 to 2,000 men. If we are not mistaken, Uncle Sam will interfere with that calculation.

ANTHRACITE FOR THE FRENCH NAVT .--- A Wash ington paper states that Mr. Martin, late Engieer-in-Chief of the United States Navy, has re turned to that city from New York, where he has been for the last two weeks engaged in making experiments on board the French steam-frigate Fulton, with a view to introducing the use of Anthracite Coal on board that and other vessels of

isfaction at the result. This gentleman made a number of experiments with United States steamers and satisfied himself that Anthracite Coal

kind of fuel used on bourd our national steamors. WHILE thousands of mechanics and working men are out of employment, it should be remen

bered that there is room enough in Nebraska for all the working men of the country. There they will find a good climate, and fortile land at ten shillings an acre, and there are great facilities for working it. An acre will yied twenty or thirty bushels of wheat, or some hundreds of bushels of potatoes. So there is no necessity for starvation in its promise of, prosperity-in excellent crops, im-

MEXICO.-Another conspirate to restore Santa Anna bad been discovered and promptly frustrated. The Progressio says that Mariano Vegar had been

NAVAL .-- The United States steam frigate Merrimack, Commander Hitchcock, bearing the broad penpant of Capt. J. C. Long, bound to the Pacific, sailed from Boston on Saturday.

Orders have been received at the Portsmouth Navy Yard to fit the sloop of war Vandalia for tes immediately: The sloon of war St. Louis is expected to arrive at the Portsmonth station the latter part of this month. U. S. sloop of war Decatur, Commander H. K. Chatcher, and John Adams, Commander H. K Hoff, remained at Panama, Oct. 5. 'The U. S. steamship San Jacinto, and sloop. war Portsmonth, were at Shanghas on the 39th o July, and the sloup Levant at Hong-Kong on the

10th August. OFFICIAL RETURNS.-The following are official returns of the recent election in Kansas for Delegate to Congress :

Ransom, D. Parrott, Rep. Leavenworth county, ; ... 237 **** 1495 126 359

(x_1) 182 8,365 1,989

WOMAN'S DEVOTION .- Out of the dark scene of murder and outrage that attended the marsacre of the English residents at Cawapore, there comes one of those incidents which through all ages have proved the heroism of women and their devotion to those who have secured their love When the unfortunate Englishmen were led out

to death, their wives followed and clinging to them asked only that they might die with them. History has recorded no more touching scene than must have presented itself in the Cawppore arms around their husbands claimed 'the privilege of suffering with them. But the ferocity of

their captors denied to them so much of mercy. those who with himself so soon were shot, hewn and backed to pieces, is also a grand feature in the terrible drama.

No LACK OF WORK FOR THE NEEDY .- A had in abundance in all the agricultural dis. The shipments for the corresponding week last tricts out there, at remunerative wages. Mis- year were 84,926 tons. souri and Illinois offer strong inducements. Farmers in those regions have had glorious crops the past season, and are unable to get through

with the labor incident thereto, 'because of the scarcity of help. It is also true that in all the growing villages and towns mechanics are sadly needed. Carpenters, masons, bricklayers, blacksmiths, painters, shoemakers, wheelwrights, and in fact every description of ordinary handicraftsthe French navy. Mr. Martin expressos great sat- men are in demand there. A letter to a gentle-

man of this Borough from the West states that workmen are wanted, and that female help is in demand at good wages. Turn your eyes West ye that are unemployed, and have starvation Scrauton, South, staring you in the face. The St. Louis Repub. lican says : Of the promise of the as yet unoccupied soil in

Missouri and Illinois, notwithstandidg all that has been written on the subject, little cenception

lioration and relief. . .

PROCLAMATION.

PROCLAMATION. PENNULVANIA, set In the warms and by the authority of the Commonwealth of Pennylicensia, JAMES POLLOCS, Governor of the set o

of trouble; He will deliver these and thou shalt glorify Him?" Toder the solemai conviction of the propriety of this duty, and in conformity with established customs and the wishes of many good ettizers, I Jams Pouzor, Gov-ernor of the Commonwealth of Pennsylvania, do hereby recommend Thursday, the Twenty-sixth day of November mext, as a day of general thanksgiving and prime throughout this State, and ear-mestly request the people that, abstathing from their usual avocations and all worldly parmits, they assemble no that day according to their religious customs, and unite in offering thanks to Almighty God for his past goodness and mercles; and while humbly acknowledging onty transgrasion, and imploring His forgiveness, benech Him, with sincere and earnest desire, to return and visit us again with His koving kindness, make us worthy of His poutience sung grace." Given under my hand and the Grest Seal of the State

is bounties and continue to us the rich blessings of is providence and grace. You under my hand and the Great Seal of the State at Harrisburg, this nine(centh day of October,) in the year of our Lord, one thousand eight hur-the state our Lord, one thousand eight hur-Deputy Scorelary of the Commonweallh. vduoy,

----merAn exchange speaks of a pumpkin-vit

three handred feet long, and having a pumpkin every four feet. A friend says he has got a vine a mile and a half long, running down into a holmust have presented itself in the Cawpyore low, and nine acres of pumpkin ple, slaughter house, when these women with their deep, already baked, at the end of it. three

THE COAL TRADE

Pottsville, October 34, 1857. The quantity sent by Railroad this week is 24,-Port Carbon, 803 07-by Canal 31,644 18-for the week 56,-448 05 tons, against 53,930 14 the last week .---

The demand for prepared Coal is good, particuarly stove Coal, but broken is a drug in the market, and can be purchased at reduced rates .---This is caused by the stoppage of so many Iron

works, &c., &c. The trade sums up this week as follows, showing a loss from every region, and in the aggrgate 65.107 tons! compared with the corresponding

week last year: 1957. 24,603 31,645 6,387 18,403 13,907 6,709 2,079 Long. 27,328 1,150 556 14,549 2,407 14,926 4,191 Schuylkill-B. R., 52931 -Canal, 32,795 -Lub-R. R. 6.943 32.952

has been written on the subject, little cenception exists among the mass of people at the East; little conception have they of the opulence they might renp from a judicious investment of their means in this direction; and we feel that we can not do The truer service to the interest of the striggling operative in those regions of our country where labor is, and mast long continue to be a drug, than by indicating the mode of nme. Penna. Coal Co., 515,049 Scranton, South, 75,709 to be a drug, than by indicating the mode of ame-4,944,419 4,809,984 639,052 504,617 4,809,984 504,617

MONEY AFFAIRS IN NEW YORK .-- Thursday's

and another substituted immediately. The old Rollers with the teeth cast on them become use less when the testh break. The low price of coal

calls forth all the ingenuity of the region in er-der to chespen its production. No Lows Campurs.—As Coul is a perishable srtiele, is eaght to be kept as near a mak basi-ness as possible—and the present is a very favor-able opportunity to commence a reform. On this point at least, there ought to be a unity of sentipoint at least, inere degat to be a birly of any ment. No Coal ought to be sold by any of our Operators on a longer credit than 30 days, even when the times are easy, and the sooner they all coins to this determination the better for them-selves and the rogion. Naw Yong Coal MARKET, Oct. 22, 1857-There is a good demand for demestic at former rates; the arrivals have increased, and the stock

rates ; the arrivals have increased, and the stock is larger than we had hoped for some two weeks since; the improvement in the financial circles was at once felt by this branch of basiness, and we may therefore anticipate a good supply from

we may customed anticipate a given approvimed and other with the provement are provided and the set of a strong inducement for miners to urge it forward. The inquiry for the East has been fair; sales by the cargo at \$46@\$5, and from yard at \$4 50@ \$5 0 D ton. In foreign there is little change; the arrivals are fair, but we have only to note a

sile of Liverpool Cannel at \$10 50, 4mos. Other kinds are nominal.

[Corrected accelly from the Boaton Courier.] The arrivals of Picton have been considerable, a good portion of which has been delivered our contract. The last sales were at \$7 25 % chal. cash, but the demand is quite limited. In English Chanal the sales have been is quite limited. is quite limited. In Engine Canto Anthracita, in retai at \$12.75 and \$13.75 % ch. cash. Anthracita, in retai lots, is selling at \$7 % ton, and in some instances at 50 lots, is sulling a ton less. that the annual value of coal in Great Britian, at the stoppor, from which four pieces projected in COAL VS. GOLD .- It is stated on good authority the pits' mouth, is about two-thirds the value of form of a cross, so that it could not be withdrawn, the annual product of the precious metals throughout the world. And it is believed that the product of iron and coal united exceeds at the present time that of the precious metals, taking California and Australia into full account.

ON THE BACK TRACK .- The New York Mirror says that very large quantities of goods are being taken out of bonds for exportation. Immense quantities which have been lying in the United States Warehouses are being withdrawn and reshipped for Europe and the countries of will send you silver. Yours, and reshipped for Europe and the countries of their production. This department of the Custom House is unusually busy. Good !

TELEGRAPHIC IMPROVEMENTS .- Edward Highton, C. E., of England, has just obtained a patent for, firstly, sending telegraphic messages both ways through one and the same wire, at the same instant, without interfering in any way with each other; secondly, for preventing the destruction of a wire in the sea or underground ; and, thirdly, mosthe since, the parther of a commercial house for mending a telegraphic wire in the ocean with- | in Now York city was taken to a lunatic asylum, out rising it out of the mud.

No clue has yet been discovered to the murderer or murderers of Miss Adaline Bavor, whose body was found under the Irish Creek Railroad Bridge, near Muhrsville, with her throat cut, and otherwise mutilated. On Sunday last the body of the murdered girl was taken up for a second post mortem examination. It was ascertained that the was not enciente, and the motive for the crime is still as great a mystery as the murder itself. THE Atlantic Cable it is feported, is not likely to prove available for either of the projected In-

present coiled state, it generates or absorts a presperity, the insunity, the decease and the ingreat amount of heat, and a fear is entertained of its being rained by the temperature to which it would be subjected in twice crossing the tropics. It has been found that extreme heat in the parts under pressure forces the copper wire to the sides

of the gutta percha, and destroys insulation. PERSEVERANCE AGAINST .DIFFICULTIES .--- On the 7th of July, 1848, the work of draining the

the Harlasm Lake, in Holland, was commenced, and on the lit of August, 1852, the official ganind on the list of August, 1852, the official ga-zette announced that the bed of the lake was dry. At the beginning of the present year, 42,-500 acres of good land were under cultivation on the site of the lake, divided into 2,518 farms, and the site of the lake, divided into 2,518 farms, and 157 dwellings, 721 barns, and other buildings that sition on this subject; and therefore, the Governhad been crected. The population is 5,157.

MUST HAVE PROTECTION .--- The suffering intorests of this country imperatively call for protection to American industry. Our country is now paralyzed, millions of willing hands will be followers in the train. Will not Mr. Buchanan's Pennsylvania feeling be strong enough to move him to urge the protection of our labor Tinhis annual message? . We trust says the West Chester Village Record that the condition of the country will open his eyes to the necessity for it. ho one can now fail to see that we should have

facilities, of communication population, and rapid development of PEPPER, says the Scientific American, is an al-

must universal condiment. Black pepper irritates and inflames the coatings of the stomach; red pepper excites, but does not irritate, conseper. It was known to the Romans, and has been in use in the East Indies from time immemorial, as it corrects that flatulence which attends the large dise of vegetable food. Persons in health do not need any pepper in their food ; but to those of chase of produce. I vious to the closing of the canals, for want of weak and languid stomachs, it is manifold more any form of wine, brandy or beer that can be

named, because it stimulates the reaction of sleepi A PIECE OF INGENUITY .- The editor of the Sci

tioned and parseverence. It consisted of a glass bottle, the hight of which was only one foot, and in which were constructed several reels of wood. died at his residence in Ohio township, Alle- having on them 3,437 beads, 120 yards of silk, sheny county, last week. He was detained from and Schinn images; altogether this curious bottle contained 3,688 pieces, so jointed and framed that they filled the bottle, and had been put together through the neck. But the crowning work was

ployment. and the question was, how was it got in? This bottle is the work of Mr. F. A. Fabvier, of New-Yark oity.

GOOD AS WHEAT HERE .--- A subscriber in Jeffersonville, Ind., encloses two gold dollars in a letto H. P. T. : ter-this subscription to the Minere' Journal-of

which the following is a copy : MESSRS. EDS ;- Enclosed please find two dollars the amount of subscription to your paper. I don't know whether this money will pass with J. K.

We are not aware of the exact character of the noney which passes current out West; but "J. K." a poformed that his remittance was perfectly satisfactory. In these parts a gold dollar is be coming antique in its classification, and in consequence, of increased value. We have for years had a penchant for antiquarian research.

THE VICISSITUDES OF COMMERCE .---- A few utterly doranged, as was said, by his unparaleleil prosperity in business. During the year previons, his firm had cleared \$1,300,000. He died the asylum, and his own estate was valued at \$2,500,000, all invested in the concern of which

o ras a partner. The firm itself failed the other day, and is now said to be utterly insolvent. One item of the assets of the deceased's estate was one thousand shares of the Illinois Central Railroad stock, which was selling at the time of his docense, at \$140 a share, and which was worth after paying up the instalments, \$800,000. The same operty sold lately_at public sale at \$50,000 .dian lines of telegraphi. It appears that in its All this occurred within eighteen months-the

> olvency. ALTHOUGH the sedoubtable Walker is moving the South again to recruit his fillibuster reginents, we are Slad to know that the United States Idvernment is quite in carnest in its attempts to revent Walker's new 'expedition against Costa lica and Nicaragua. Obligations which they have assumed in late negotiations with other powers, are of a character that must force them to put down filibusterism. There exists an entire

> ment of Costa Rica will not be permitted, by either power, to encreach upon the rights or limits of Nicaragua. It follows that the engagements and arrangements made or to be made with reference to the petty states will invoke an obligation on the part of the Governments of England and the United States to protect them them rom the hostility of filibusters.

KANSAS .- Late telegraphic advices from Kandas, give great reason to fear that the nefariou conspiracy to impose another Border Ruffian Legislature on Kansas by ballot box staffing and falsified returns, is likely to be consummated .--

134.435 Dec. in 1857, tons, 134,435 Tribune says that the advices by the Europa, Add the loss from the Wilkesbarre Region o which are generally regarded as unfavorable, in about 90,000 tons, and the aggregate loss of Anthat they show how disastrons a result the knowlthracite sent to market this year compared with edge of the full extent of commercial disaster the last, reaches 224,435 tons.

sition to which the brave Havelock is now reduced: "On the 7th of July when he marched out of Allhambed, this heroic band numbered some 2000 men of all arms. When Nelleffected the junction at Cawnpore it wassilghily reinforced. On the 17th of August it had been reduced to 000 survivors, thoroughly work down by sichners and disease. It is probable that no soldlers in the work have ever gone through the asme amount of arduous work in the same space of time. In the course arduous work in the same space of time. In the course of these five weeks this infurty brigade—for encept a few volunteers it has throughout been depived of horse —has fought at least eight different actions with asmany armies of weil disciplined typops, pleutifully supplied with carairy and artillery, and generally outnumbering it in the proportion. Its victorious marched have for military operations. Its victorious marched have for military operations. Its victorious marched have for military operations. Its victorious marched have in their way to Lacknew, threat a commissing, without ents. From the moment they crossed the danges, on their way to Lacknew, threat men had to hivous at hight under deluges of rain, to fight frequently up to their middles in water, and more than once to anatch a hasty meal in the face of the los, on bread, unsheltered plains, with the noonday sun bialing down on them with vertical glare. It was on the 30th July that Have-took first crassed the Gauger; on the 4th of August he avanced again, and fought two more actions with the auronouting. 50,000 men entrenched in a position of great strength, on the other side of a deep and rapid riv-er, rendered the fold Havelek atta-ked it, carried the dostaele which it would have been madness to attempt in perfect order, and on the 13th Havelock rerrossed the Gauge. But the labors of his indefails and mades instain trivered imperative. The retries was could led in perfect order, and on the 13th Havelock rerrossed the Gauge. Marchy which records a serias of apolitis more bril Who has had 10 years experience as a Banker and ublisher, and Author of a series of Lectures at the Problemser, and Author of a series of ten successive nights, over \$350,000 People CA greeted him with rounds of applume, while he exhibited the manner in which Counterfaiters ascerts their Frauds, and the surfat and shortest means of de-

MEDICINAL. . 2068.00111 BENNETTS EXBROCATION.

inust be starved out. The effect on Agra will be most dissurrous." The *Juys*, a semioficial journal of Paris, published on the 2d inst. the following intelligence, profressing to have been received from Lucknow: "Nena Sahib ar-rived at Lucknow on the 1st day of August. He was made Governor of the town, and Commander-in Chief of the army of Onde. He has cut off the ennals which sup-plied the clitadel with water, and the English, shut up is the fortress, are besidged by Nena Sahib in person."— The last mail to Eugland brings the following note from a correspondent: "There can be no question that Nena Sahib's intended point of attack is Calcuita. The forces now in rebellion cannot be less than 100,000. Part of them will be appointed to keep our troops in check is the upper provinces; the others will approach Lower Brygal, and make their point of attack Calcuita. The forces was "being made at home in the arrangements for the constant supply of reinforcements in India. At pre-sent we are embarking some artillery, cavaly, and free infainty regiments, to make up any deficiencies. As the 40,000 men now pooring to at each end of the Presideen-cles and a K turnchee will for some months be ougard in a harrassing service, likely to cause more than ordi-inary canalities, the embodiment of the firsen regiments of millits will enable us to send out another strong re-THE GREAT LINIMENT ------
