Bessues our exchange brokers and foreign traders, and those who own slaves, have told us not to do it. We have obeyed the full, and their purport is given below. The Triand foreign traders, and those who own slaves, have told us not to do it. We have obeyed the Slave power, and hence distress has come upon us. If we look at our iron trade, we find that in the last twelve years we have imported 4,070,330 tons of railroad iron alone; which at \$55 at on, smounts to \$223,867,213, gone out of the constry for one articlo-not a pound of it bat should have been made by our own people; we want railroad iron brought into the country no more than we want paying stense. Every ton of iron contains twenty-five days labor; would it not be a good thing to take this iron out of our own mines? But our brokers and foreign traders have persuaded us to send abroad for this iron, which has been the imeans of taking so much money out of the pock-ets of our people. We now find 750 ships and ves-sels lying up idle in our, own port of New York, such is the paralysis of the trade to foreign coun-tries; we have no money, and we are all thrown out employment; we have sung the song of free trade until our people. Jur manufactories, our ship-ping, all have become involved In one general rain. All this is the trade to for is one shipbune goes back a little and shows the origin and oper force of this infamous proceeding :---I. The Constitutional Convention, which has just adjourned, was called by the last Territorial Legislature, which was elected in October of last just sojourned, was called by the last Teritorial Legislature, which was elected in October of last year by a light vole of the Pro-Slavery faction and their Missouri allies slong-the Free State men denying the validity of the authority which or-dered that election, and refusing to tke part in it. I. This bogus Legislature, in the act calling the Convention, directed a Census of the Territory to be taken, with a Registry of the Legal Voters -said census and Registry being committed en-tirely to Pro-Slavery officials appointed by the Legislature or the county officers created thereby. IIL Said Census was but partially taken, many strong Free State counties being utterly neglected or omitted ; while the Registry as unde as to ebatin but few names beside those of known Pro-Slavery men. ARTESIAN WELLS IN THE SAMARA DESERT .---- The French papers have interesting accounts of n bored artesian wells in the Sabara Desert, in Al-

giers. They are six in number, and some of them

are 275 feet deep. The sppearance of the water

in each case produced the greatest excitement

among the desert tribes. Their joy over the first

well was unbounded; and news of the event spread

towards the South with unexampled rapidity.

People came from long distances in order to see the

miracle. The Marabouts, with great solemaity,

consecrated the newly created well, and gave it the name of "the well of peace." At another place,

as soon as the rejoicing outeries of the soldiers had

announced the rashing forth of the water, the na-

tives drew near in crowds, plunged themselves in-

to the blessed waves, and the mothers bathed their

children. The names immediately applied by the people, such as "the well of bliss," and "the well

of gratitude," sufficiently attost their feelings. It

is said that these wells will work an important

part in a social revolution of the tribes in their

neighborhood. Having been obliged, like their

ancestors, to wander from place to place as the de-
