Inna Russia.—Charles Goodyer, of London, Eng., has patential sufficient Goodyer, of London, Eng., has patential sufficient grevenments in the marsufacture of hooty and about. He makes the hooty or about and perforation and presented sheet ladds rubber, and present on them the and localed sheet ladds rubber, and presented serving as air cleanests, afferding resultation to the feet. He also has lavented a new heat for hoots and shoot, which is molded of hard infinit rubber, and making the same holdon, to master a filling piece of india nubber spenge, or other cleatife and yielding culminase, which projects some what beyond the edge of the savienting case, so as to from a cashion or buffer or easing the blow of the heet when it strikes upon the ground.

Destrict arms.—Jone Enguse D'Arcei, of Paris, has in

arate product is condensed as it comes over.

PRESERVING FORM—John H. Johnson, of London, Eng., has patented a method of preserving ford. It consists in the application of an airtight envelope or covering of gatta percha, ciontchoue, or other similar impervious material, thereby perfectly protecting the article to be preservedgiven the action and contact of the atmosphere. The food to be protected in immersed once or offseer in a liquid formed of the above materials. This invention was patented in the United States by C. Van Vlack, Marconh, Ill., June 30, 1857.

FOREIGN MISCELLAMY. Novar Locamoriva.—At Moscow, intely, great curlosity was excited by an experiment being made with a new description of locamotive, running along the streets, and no constructed as to cause the wheels to lay down a nort of wooden rails as they advanced. The locamotive dragged after it a number of carts heavily laden. The apperiment, though the first made, had perfectly succeeded. THE Government of St. Patersburgh, says the Konig-berg Gasette, has decided on not preventing, for the fu-ure, the Masonio lodges from increasing in Russia.— Illitherto, that association has been interdicted there, such public functionary being obliged to pledge himself lot to form part of it. The Greek Church had, in fact,

Ar Aff Puddie, near Dorchester, on the 22d of Oct

Some a flavorement wages, and not the may on.

Some a flavorement wages, and not the pairs correspondent of Lindependence Below says that the idea has been started in that city of queer notions, of abolishing flights of stairs altogether in private decilings, and substituting therefor staum hobiting machines. As a steam engine is not by any means a convenient article to have in one's house. M. Figuing proposes that the motive power shall be electricity. Sending a fat man to the top of the house by a flash of lightining, is somewhat of a novelty. CONSEQUENCES OF THE SINKING OF THE SUFFIAN LINE OF BATTLE SEIF.—Admiral Nordmanh, commanding the COMMOUNCES OF ME SHERING OF THE RUTHER LAYS OF BATTLE SETS.—Admiral Nordmanth, commanding the squadron of which the ship Lefort recently foundered in the Baltic, causing a loss of 1000 lives, without any attempt at rescue being made, has been condemned to lose, of rank, having been reduced to that of simple sallor by sentence of the court martial held to impule into the catastrophs. In consequence of this loss, the Grand Duke Constantine; brother of the Emperor, as Lord High-Admiral of the Russian fleet, and responsible for every disaster occasioned by mismanagement in his department, will have to undergo a trial by court martial, which will six at Crooststi early in the mouth. It is said, that, immediately upon the news of the catastrophe reaching 51. Paterabars, the Grand Duke sent in his sword to the Emperor, by whom it was instantly returned with a kindard fraternal compliment. Nevertheless, the forms of the service cannot be dispused with, and the trial will proceed.

EXTRAORDENARY FIGUR SETWINGS A 1000 AND A TOUR -

Extraordinary Pions between a Lion and a Tigen Our readers doubtless noticed, a few days back, an account of a tiger which escaped from a cattle track in Ratelli Ilighway, London, and which, after running along the centre of the read for some distance, was caught by his keepers while in the act of fearing a lad who understance of the centre the substitution of the set of fearing a lad who un furioustely crossed the animal's path. The tiger, which is only 18 shouths old, but of large size, was the property of Mr. Jamrae, an importer of which beasts, and he sold ta day or two afterward to Mr. Edmonds, the son-haw and successor of Wombwell in the integree of the well-known traveling menageries. Mr. Edmonds as been in this district during the last eight or ten ays. Illis purchase reached Birmingham on Saturday.

chiefly on the defensive; and, having probably hee siderably tamed by his three years confinement, th ly-imported tiger had the advantage. His attack ly-imported tiger had the advantage. His attacks were of the most fercolous kind. The llon's mane saved his liesd and reck from being much injured; but his sav-age assallant at last succeeded in ripping up his belly.

pling, &c. The improvement consists in subjecting the ore shales to the action of steam, and accomplishes in a few hours results which require meants of exposure to the weather to otherwise obtain, and are then very often imperfectly accomplished.

A complished.

Quack Nostraums.—The majority of hair washes, hair dyes, hair tonics, hair oils, and the consumer of the belief of the steam of Daring-Wo extract from the latter of the steam of the s

planned that at dark one of these should come to the mosque and guide her to our camp. They left it together. Twice she was nearly discovered by patrols, but in early moraling they found themselves outside one of our pickets. At first she was taken for a my, but soon overcame all difficulties, and was received by the one is dy of our forte—a refugee like herself.

THE COAL TRADE

Pattsville, November 28, 1857. The quantity sent by Railroad this weak is 63,773 65 tons—showing a falling off since last schuylkill Valley week of 18,325 tons; of which the Canal loses at Carbon & Pt.Carbon & Pt.Carbon & Pt.Carbon 11,374 and the Railroad 6,941 tons, Compared Little Schuylkill with the corresponding week last year the supply falls off 21,504 tons, of which the Railroad loses

20,141 and the Canal 1,463 tons. The trade some up this week as follows: Forma. Coal Co.

23,167,980
6,223,417
79,313,201 157,486 117,795 45.797 117,795 6,106 Dec. for week, tons, 39,591

We append also the aggregate shipments, show ing the loss and gain from the different region and also by the different avenues to market:

161,320 tons, Including the Wilkesbarre Buck Mountain Coal Co. and Shamakin Regions, the loss so far, will reach Wyoming Cost. The demand for Coal, particularly Red Ash for the Rew York market, is brisker than it has been at this season for the last three years,—but the supply is limited, and it is becoming more difficulty and it is becoming more difficulty and it is becoming more difficulty and it is becoming more difficulty. But sugar Lost do Revolution and the supply is limited, and it is becoming more difficulty. But sugar Lost do Revolution and the supply is limited. cult avery year to farnish it, as the expenses of Council Ridge do mining increase.

The weather has been quite cold during the Dehaven do Harland & Coleraine & Stafford do Dollan & Dehaven do Harland & Coleraine & Stafford do Dollan & Dehaven do

last few days, and thick ice is formed sufficient Hasteton J. B. McCreary & Co., for shating. The Canal has been frozen over, but Mt. Floasant, every effort is making to keep It open by the breaking of the ice, and boats were moving yesterday. Some of the New York bontmen besitate about making another trip to New York, and pre- Shipments to same priod fer waiting a day or two to accertain whether the my Rail Reed, weather is likely to moderate or not. Some beats are loading for Philadelphia and other points. If, however, there should be no moderation in the weather the navigation must close up in a few

"加州大学是我的最后,从中的是是是是这

days. Inch year Coal was shipped from this Regiots up to the 13th of December. The shipments by the Delaware & Hedson and also by the Lebigh Canals, may be considered as ducie refteen off meles the weather should prove more favorable than it now is.

We have letters before us from large dealers both in Boston and New York, admitting that the supplies of Cast will be short at both these points and that Coal is all probability will rule higher in these cities. At Boston the supply sompared with last year, is short about 60,000 ices. The difficulty in obtaining monied facilities to progue a sufficient supply in the market is the main cause. A gentleman connected with the Coal Trade, assures us that it was fortunate for the dealers of Schuylkill County that the Pennsylvania Conl Company did open with very low prices last Spring They took the custom of a number of heavy man wfacturers from this region, many of whom failed which has greatly embarramed the business of that Company, cutting down their shipments more than one half for the last two menths. They have therefore been caught both ways-first in selling at too low rates, and second, in meeting with heavy forces in consequence. The experi once of the past reason, we sincerely hope, will lend to a better understanding hereafter in all the different Regions. Short credits, and keeping the

supply within the demand, at a fair remunerating rate, are the two principal reforms required in th Coal Trade. WE received the following communication from a Coal Dealer in West Chester, on the sub jeet alluded to last week. We have not sufficient knowledge to enable us to judge whether the charges alluded to are exorbitant or not-but i a proper representation is made to the Managers we have no doubt all grievances will be removed, so far as the interests of the Company are conceined at least:

To the Editor of the "Miners' Journal." The article in your valuable Journal of last week, from the pen of "West Philadelphia," making complaint of the exorbitant charges made by the complaint of the extrement of the first subject of the carrollant charges made by the Reading Railroad Company on all ears which pass Market Street Bridge, unfortunately, interests the Coal Dealers of West Chester, who have similar grievances to be redressed at the hands of the Reading Railroad Company; and for the purpo of making them known to the Company, with your consent, I take the liberty of doing it through the medium of your Journal. West Chester. rould have you know, is a large and thrivi Borough, and consumes several thousand tons Coal per annum, the greater part of which ha hitherto been broughs from the Schuylkill Region but since the Company have made the exorbitant charges that your correspondent complains of, the Coal Dealers of this place have shipped largely from Wilkesbarre to Columbia, and had it hauled from there at more reasonable rates. I am very well satisfied that the orders for Coal from t Schapikili Region have fallen off nearly one third from what was formerly ordered from there for consumption slong the line of the Pennsylvania Ballroad and in West Chester. I do hope the Company will keep ableye open to their own in-terests in this quarter, and exonerate the Coal Dealers West of Market street Bridge from the

Company will keep ableys open to their own interests in this quarter, and exonerate the Coal Dealers West of Market street Bridge from the tax they have so unwisely laid upon them.

WEST CHESTER,

The Cumberland Coal Trade by the Chesspeake and Obio Canal is closed for the season, as appears by the following from the Cumberland Miners' Johnnal:

"Business on the Canal...—For the week ending Saturday last 72 boats left this port, carrying nearly 8,000 tons of Coal, making for the entire season 130,000 tons. The late spell of oold weather did not interfers with navigation; some ice formed upon this section of the Canal, but did not New Creek Coal Co.

Saturday last 72 boats left this port, carrying nearly 8,000 tons of Coal, making for the entire season 130,000 tons of Coal Coal, making for the entire season 130, ormed upon this section of the Canal, but did not the winter, but the majority will run so lon as a passage can be kept open.

"P. S.—Since the above was in type we learn that a land slide, of 150 feet in extent, has becurred at the eastern and of the Tunnel, which can not be removed before two weeks time. Nav-igation is therefore at an end for this year." We have not been able to procure a full report of the quantity of Coal sent to market from the Cumberland Region this year, but the supply is

short of the quantity sent last year ranging from The Lebigh Canal and Navigation Company has declared a dividend of 3 per cent, equal to \$1 50 per share. ALLEGRENT COAL SHIPMENTS. The quantity

of Coal passing through the Monongahela locks during the month of October was: Bushels of Coal in fints, do. do. do. bosts. Added to what had previously gone down, th makes a total for the searon, since Februar of about thirty millions of bushels. We have no change to note in the price f Coal in the markets abroad this week. The season is rapidly drawing to a close, and the

wholesale prices will remain without change.-The retail prices at different points will, of course be regulated by the supply and demand. WHEN we put our paper to press last evening the weather had moderated considerably. Bonts Boston Coal Market. Prices of Picton Coal continue quite nominal, last sales were at \$7 25 \$\, \text{chil}\$. Several cargoes been delivered one contract. English (Lannel has selling in lots as wanted at \$13 \$\, 14 \$\, \text{Pchal}\$, cash.

Pottavilla, July 23, '57

20. E. CARRIQUES, Pettsville, Pa-S AGENT for the sale of EVANS' SALAMANDER SAFES. "Truth is Mighty, and Must Provail."

Report of the Committee oppointed to mover burning of the Iron Sufes at Reading February 21th, 1857. The undersigned, members of the committee, ido respectfully report, that we saw the two dates originally report, agreed upon by Parrels & Herring, and Evans & Watson, placed side by side in a furn ce, viz: The safe in use by the Pavmaster of the Philiphia & Residing Railroad Company, in his office at Reading. Manufactured by Parrels & Herring, and the safe in use by H. A. Lants, in his store, manufactured by Ryans & Watson, and put in books and papers precisely allke.

The fire was started at \$14 o'clock, A. M., and kept up until four cords of green bickory, two cords dry cak and halftchesnut top wood, were entirely consumed, the whole under the superintendence of the subscribes, members of the committee. The gafes were then croked of with water date while. Evans & Watson were not signify assessed these heat, while those taken from the sale manufactured by Farrels & Herring were, in our judgment, damaged fully fitteen per cent, more than those taken from Evans & Watson's ask.

We believe the above to have been a fair and impartial trial of the respective qualities of both asks.

JACOB H. DYSHER.

Having been absent during the burning, we fully co-incide with the above statement of the condition of the papers and books taken out of the respective safes. G. A. NICOLLS. H. H. MUHLENBERG, JAMES MILHOLLAND. TAMES MILHOLLAND.

The following named gentlemen, residents of Resdieg and its vicinity, who saw the above fire, have purchased 22 sales fram: Evans & Watson since the burning, up to May 1st. 1857.

G. A. Nicolla, 1; Lepold Hirah, 1; Israc Ruth. 1; Kirk & Heister, 1; W. Rhonda & Son. 1; Henry W. Missinger, 2; Dr. Wn, Moors, 1; Solomon Rheada, 1; Levi L. Smith. 1; High & Uralg, 1; Wm. Kirck. 1; Haufman & Banm, 1; Wm. McFarlier, 1; Googe J. Echert, 1; J. M. & G. W. Hansteck. 1; Eara Millier, 1; James Jamessa, 1; J. B. & A. B. Warger, 1; Jacob Schmucker. 1; Wm. King, 1; F. B. Schollemberger, 1; R. R. Compeny, I; H. & Langer, 2; W. C. & P. P. Ermantrout. 1; Billimeyer, Follmer & Co., Milton. 1; J. P. Bridegane, 1.

EVANS & WATSON Have now on hand 200,000 pounds of the above BAYES, which they ofter for sale on better terms than any other manufacturer in the United Males.
