THE CAPTURE OF DELHL

merica we are in the possession of Liverpool Within Delbi the Sepoys possessed a magazine taining upwards of two bundred guns and an almo dates to the 2fst ult. There is no further intelexhibitible supply of anyusition, while their sum were certainly never less than double those of the ligence from Iddia, and nothing of importance from Continential Europe. uegers. Arrangements for the Assault. By the beginning of October, it was resolved that the siege should be at once commenced and prosecuted with the ulmust view.

com to have been followed by the expected good effect of dimidishing the pressure, casing the hard times, and restoring that confidence in the ommercial world which is the very life and soul Though the money market conratively firm, the latest prices of consols being \$52 to 90, the prices of cotton, produce, provisions and breadstuffs are "du l," and 'declining," and the sales exhibit a material derease. On the 20th of November cotton was selling in Liverpool at one cent to one cent and a half per pound lower than it had been since

heavy guns and howitzers, and ten heavy and twelve light mortans. The means of the engineers were very restricted, not in officers but in trained men, of whom fhere were only about 100 regular suppers. Some companies of Munbes Sikha had, however, been rapidly raised and partially trained; and a body of coolies had also been collected, who worked remarkably well. The parts had been at work for some time in collecting material, and 10,000 fas-ciaes, 10,000 gabions, and 100,000 such hags were ready for future operations: field maximes, scaling ladders, and spars platforms had also been duly prepared, and great credit is due to Lasu. Hownlow, of the Sinfinsers, in charge of the park, whose activity and intelligence contributed not a little to the eventual success of the operations. At this moment, large shipments of cotton are and that the prices have materially declined with a lower tendency, it is certain that large additions to that stock will yet further lower the selcotton mills are at work at half-time and with a

reduced quantity of human labor. The demand for cotton yarn and for cotton goods has fallen price. As if is, the South will suffer, speedily and materially, from the large stock, small sales and low prices. "The pressure for money," says the telegran

"was unabathd," when the America left Bogland. Additional failures are reported, and, even the great house of Messre. Peabody & Co., so well known for their wealth and liberality, had been compelled to seek the aid of the Bank of England, which was granted to the amount of \$5. 000,000, and proved effectual. Among the miscellaneous news by the America

is the information that a second, and unsuccess ful attempt to launch the mammoth steams Leviathan bad been made. The sum of £25,000 in gold has been brough

by the America. It is useless to wink at the fact. Villainy i

every shape, is celebrating its horrid gala day throughout the United, States. Details of murders in our cities fill the columns of the journals. Oue reads of butchery until the very letters in the printed colums appear bloody, of arsons until the light of confingration seems to throw its lurid glare throughout the apartment, of fraud, until a line of sidek, hypocritical, would-be-respectable men, range themselves before us, and of crimes yet fouler and more bestial, until we tremble lest the lightnings of offended Heaven should descend from a cloudless sky-and overwhelm the earth in ruin. To the pulpit and press ure assigned

the public good. The preacher of God's word, ration, does not weary of declaring the law of

capital, recommence operations at some future is only less solemn and imposing than that of the pulpit and under a sense of this duty every editor should write, however hopelessly, to warn

The signal given for the rush at the walls was the blowing open of the Cashmore gate, which most danger ous duty devolved on Lieut. Salkeld, of the Engineers. The who e was done by escalade, as the breach was not complete enough to enter without ladders. Lieut. Sal-keld approached with three sergenate, under, a tremen-dous fire of muskeiry. He was first shot through the arm: no with standing that he was first shot through the Dec. in 1857, tons, 253,772 Wilkesbarre Region, down river, about, 100,000 arm: now intraceivy. He was nest shot through the arm: now intraceivy. He was nest shot the gate with the bags of powder; as they approached one sergent ing Lieut. Satkeld, knocked them on to the sage user, ing Lieut. Satkeld, knocked them on to the spikes of the gate, not being able to put them underneach, as the wicket gate was opened, and about 20 muskets pointed up as well as through many holes in the gateway; firing from both flanks of the wall. As Lieut. Satkeld put on g the bags, he was shot through the leg and fell; the sec-ond argreent if it the match, but after lighting it ho said to Lieut. Satkeld, on the ground. "I fear the match has not taken light, sir," at the word "sir" ho fell dead, rid-dled with halls; the match did ignite blew open the gate; the third sergeant, gacaped unburt. At thes grist the trongurated on -every use who carried the scaling indders off they 21 Wasileers was knocked over; however, they ushed on, put up the ladders (many of which we're to short), changing the 'r positions, got on the walls, thered, and rubed down upon the enemy and carried the place. On they went along the walls, taking 'the Moree hashon, Ajmere gate, the other column taking the Charch hattery, Waste battery, Treasury Compound, and Skinne's house. (for. Nicholsen then formed the trops in the match The gain from the Shamokin Region will about ding that, he went on to the gate with alance the loss North from Scranton. THE COAL TRADE.

Lehigh Coal and Nav. Co., A. Lathrop and others, Spring Monstain Mines, East Sugar Loaf 40 Coloraine do Potteville, December 5, 1857. in charge of the park, whose activity and intelligence contributed not a little to the eventual success of the operation. Up to the likithe English were engrand in tracing, constructing, arming and unmasking batteries, and on the nine twenty four pounders opening the ball, and showing by the way it brought down the wall in huge fragments what effect it might be expected to produce effers a few hours. The Cashmers Basilon attempted to reply, but was quickly silenced, and both portions of No. 2 went to work in fine style, knocking the basilon and diacent curtains to pieces. Majors Campbell and Kays, Captains Johnson and Gray, had charge of No. 2. No. , however, did nut commence fire until the following day, when the full power of the English artillery was shown, and a continuous reare of fity gunas and mortars pouring abot and shall on the devoled city, warned the energy that his and the English time had at length coma-Night and day until the morning of the 14th was this overwholming fre continued. But, says the Bambey Guztiff, the energy did not let us have it all our own way. Thoogh usable to work a gun from any of the three basilons that were so fireferely assalled, they ret-risch to their guns in the open, which partially enfis-ded our position; they got a gun to bear from a hole broken open in the long curtain wall; they maintained a perfect storm of marketry from their advanced trench and from the city walls. The Storming Fuery and the Amaut. On the night of the 13th the assartised command The quantity sent by Railroad this week in Coleraine do Stafford do N. Tork and Lehigh Coul Co., 47,165 05-by Canal 28,011 05-for the week 75,176 10 tons. The trade has considerably in-N. For a set as the set of the se sreased by Railroad, and has of course fallen of by Canal. The few cold days deterred boatmes from loading and checked the shipments by Canel. The weather is now pleasant, but the Boat-inen will not load for any point beyond Philadel-phia or vicinity. Boats are also starco-and un-less the weather should prove more mild than we have any reason to suppose, the shipments by Ca-Hartford Coal Co., nal. The weather is now pleasant, but the Boathave any reason to suppose, the shipments by Canal will close this week.

The fical year of the Philadelphia and Reading Bailmed closed on the 30th. The quantity sent to market for the year was 1,709,551 16 tons. For 1836, 2,089,307 10 " Dec. in Coal tonnage la 57, 379,755 14 "

The Railroad encountered unusual difficulties and from the city walls. The Storming Furty and the Assault. On the night of the 13th the engineers stole down and examined the two branches near the Cachmere and Water-bastions, and both being reported practicable, orders for the assault were at once issued, to take place at day-break the following proving luting the year, owing in some measure to the changed state of the trade, the competition of other shipping ports, and the great financial rethe assoult were at our issued, to take place at lay-break the following morning. At 4 A. M., the different columns fell in and were marched to their respective places, the heads of Nes. 1, 2 and 3 columns being kept concessied until the moment for the actual assault abould arrive. The signal was to be the advance of the Billes to the front to cover the heads of the columns by skirnishing. Everything being ready, Gen. Nicholson, whose excel lent arraingements elicited the admiration of all, gave the signal, and the Biller dashed to the front with a cheer, extending along and skirnishing the low jungle, which at this point extends to within fifty yards of the ditch. At the same moment the heads of No. 1 and 2 colum is emerged from the Kodese Bagh, and advanced is temedous fire up to the moment of the advance of the troops, and not a gun could the emery leng to ber on the storming columns; but no sconer did these eth-ergs into the open than a perfect hall storm of the letter on the storming columns; but no sconer did these eth-ergs into the open than a perfect hall storm of the letter on the storming columns; but no sconer did these ethrulaion of the country. The changing of officers algoiled to changes in the mode of doing business, which necessarily led to so ne difference of views and interests, together with the decreased demand for Coal, and the greater amount of money required to transact business at Port Richmond, than was required by those who used the Canal, all tended to lessen the trade by Railroad during

the year. Some of these causes however tended to increase the trade by Canal, which shows an increased tonnage of 85,576 tons over that of last

the irronys, and not a gun could the enemy bring to bear on the storming columns; but no somer did these em-erge into the open than a perfect hall storm of bulkese em-unet them from the front and both flanks, and the officers and men fell fast on the creat of the glacis. For tess minutes it was impossible to get the ladders down into the dift to ascend the scarp, but the determination of clined to meet the branches were both won and the enemy fied in confusion. The branches were both won and the enemy fied in confusion. 495 tons in 1857. This is a very satisfactory re-

sult considering the great decline in the demand for Coal during the year, caused by the prostra-The Lehigh Canal has lost 289,850 tons com-

A RETIRED PHYSICIAN, TS Vents of Age, WHOSE SANDS OF LIFE have bearly ran out, discovered while first have to be over one hundred years old, and attained its present size fifty years ago. The upper branches are large massive columns, which would make ten V nearly run out, discovered; while in the East Indies, a certain cure for Consumption, Asthus, Bron-chitis, Coughs, Colds, and General Debility. The ordinary apple trees, supporting when in bloom, remedy was discovered by him when his only child, daughter, was given up to die. He had heard much o daughter, was given up to die. He had heard much of the wonderful Fristornire and healing qualities of prep-nations madefrom the East India Heang and the thought orivered to him that he might make a remedy for his ebild. He studied hard and succeeded in realizing his wishes. His child was cured, and is now allve and well. He has alter a dministered the wonderful remedy to thousands af sufferers in all parts of the world, sud he has never failed in making them completely healthy and happy. Wishing to do as mouth groups as possible, he will send to such of his afflicted fellow beings as request it, this recipe, with full and explicit directions for mak-ing it up, and successfully using it. He requires each applient to enclose him one shilling—three cents to be returned as postage on the recipe, and the remain-der to be applied to the payment of this ederetize-ment. Address — On H. JAMES, Norember 7.207 [11]. 45-1m

Locks Latches, Buits and Hinges, While Lond,

an arch of follage of sixty five feet in diameter, forming a circumference of over two hundred feet. Apple-yellowing grean ground, faint red cheek, white fish, and acid, faioy, thort thick stem, shape symmetrical, and all of regular size. Senson from November till April. The editor of the Press has frequently objoyed the apple, and found it of superior quality. The tree is evidently in its dotage, but ten years ago it was in prime bearing condition. The same kind of apple is not known to exlat elsewhere. A large number of fine graftings from this tree are now growing in various parts of Reading.

TRADE, VINANCE, &c.

This mount of specie in the New York bunk valls, nearly twenty-four and a half millons of dollars, is get-ting quite burdensous, especially as the unsettled state of the foreign exchange rouders a postponement of the resumption of specie payments probable. The footings of the statement for the week ending November 23th,

Hardware, Outlery, Tools, &c., Corner of Centre and Market streets, Pottaville, Schuylkill County, Pa. "Bigin. of the Berver."

errense in undrawn deposits, acresse in circulation, Derrense in sindrawn deposits. Increase in situation, 237,000 Twn long established and well known domestic com-mission kouse of Thomas & Martin, in Philadelphia, have suppended. This was the oldest domestic comula-sion house in that etty, and passed firmly through the crisis of 1337. Mr. Thomas rulind from the diran several iou house in that etty, and passed firmly through the crisis of 1337. Mr. Thomas rulind from the business of the firm has been continued by Mr. James Martin, with whom the superior credit suppositor. This has been built about by the greent suppositor. This has been built about by the utter impossibility of making nucles of an immone stock of cycks on hand, upon which acceptances are running to maine stond bicker, or was better house. Mr. Martin is a prominent member of the Society of Frienda, and no name sto d higher, or was better housing to the supersion of the solie fils. No better filsmination of the severity of the crisis is at-inder the supersion of the supersion of the solie house. 610,525 9 IRCUL. 100 37 ¢ 200 E \$ ished house.
